PROCEEDINGS OF THE BOARD OF REVENUE
(REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE.)

READ—the following letter from H. TREMENHEERE, Esq., Collector of Bellary, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated 30th March 1896, Dis. No. 1159 :—

I have the honour to submit the statements A, B, C relating to the programme of famine relief works in this district for the year 1896-97.

2. Of the two irrigation works ordered in Board's Proceedings, dated 17th June 1895, No. 164, to be shown as supplemental works available for famine relief, one work, namely, the construction of a new tank across the Muddula vanka at Goondabommanahalli, Kúdligi taluk, was investigated by the Public Works Department and found to be unremunerative. The other work (construction of a new channel from the Tungabhadra between Siruguppa and Kampli) is now being investigated by the Public Works Department and has been shown as an additional work at the end of statement A.

3. There are no works in the Forest Department which can be proposed as a famine relief work for 1896-97.

RESOLUTION—dated 13th April 1896, No. 60.

The abstract of the programme of famine relief works for 1896-97 received from the Collector of Bellary will be submitted for the information of Government.

2. The programme contains provision for the construction of nine new irrigation works at a cost of 42 lakh and for repairs to existing works 74 lakh; for the construction of about 244 miles of new roads to cost 3.41 lakhs and for repairs to old roads 18.61 lakhs, and for other miscellaneous works to cost 3.81 lakhs. The last item includes a sum of 1.26 lakhs for the improvement of drinking water supplies and Rs. 2,38,700 for land improvements to be executed with the aid of State loans. The total provision amounts to Rs. 26,98,599 and is estimated to be sufficient to provide employment for three months for 39 per cent. of the population of the district, if necessity arises. Adequate provision has been made in all the taluks and estimates are reported to be ready for nearly all the works.

3. (a) The total numbers of irrigation works in and out of repair in the district, exclusive of dasabandam and private sources, appear, according to the irrigation statement No. 15 for fasli 1304, to be 425 and 40, respectively, while the corresponding entries in statement B now submitted are 234 and 49. The cause of this variation should be explained.

(b) One of the two Public Works Department works out of repair in the Bellary taluk appears to have been pronounced by the Executive Engineer as unsuited for a famine relief work. The grounds for such an opinion should be reported to the Board.

(c) The present programme makes no provision for six Public Works Department works—one in each of the taluks of Rayadrug and Hospet and four in Kúdligi—and for seven Revenue Department works in Hadagalli, Harpanahalli, Adóni and Alur taluks shown in Form B as out of order. This needs explanation.

(d) In column 6 of Form C, figures need not be entered against each of the items appearing in column 4 thereof. It would suffice if the percentage is shown against the total of the taluk as in the appendix to these Proceedings.

(e) A grand total for the district should have been entered at the end of statement A. This should be attended to when submitting the next programme.

(True Copy and Extract.)

(Signed) P. RAJARATNA MUDALIAR,
Secretary.

To the Secretary to Government, Revenue Department.
" Collector of Bellary.

Exd. J. P. Oliver.
