

Public Works (1896) Department.

G.O., No. 1752 W

DATED 12 June 96.

[Despatch Abstract.]
Quarters for the Inspector of Police at
Bajahmundry — Govt of India
informed of the causes for the excess
in the estimate for constructing —
over the estimate for quarters for a similar
official at Parvatipur

To

The Secretary to
the Govt: of India
P. W. Dept:

Siri

In reply to para 2 of your letter No. 77. B of 2^d March/96, I am directed to explain that the excess in the estimate for constructing quarters for the Inspector of Police at Rajahmundry over the estimate for quarters for a similar official at Parvatipuram, is due to the following causes:—

(1) The Reserve Inspector
at Rajahmundry being
generally a married
man, 530 square feet

of additional accom-
-modation was al-
-lowed in the plan.

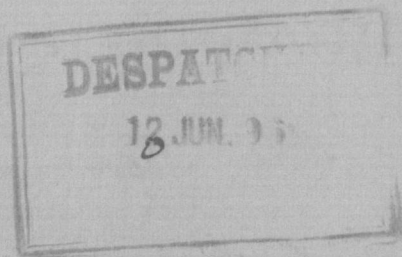

2. The site being in-
-fested with white
ants, it was considered
that none but the
most substantial
masonry work would
be of any use.

3. The rates ruling at
Rajahmundry are
higher than those at
Parvatipuram.

To

The

Chief Engineer
P.W. Department
Madras.

Waltair,

16. May 1896.

Sir,

With reference to your memo-
-andum No. 21736 dated the 7th
Inst, I have the honour to
inform you that the only ex-
-planation that can be offered
as to why the Reserve Inspector
of Police at Rajahmundry
should be a married man
any more than the Inspector
at Garoatipuram is that there
has generally been a married
European or Eurasian in charge
but there is no reason why an
unmarried man would
not be posted to the place

21

2. The additional space of 530 sq feet was allowed on the Engineer's own responsibility and not with the approval of the Supg Eng^r. It does not appear from the records that this extra allowance was made at the request of the Police authorities.

3. The difference can only be attributed to want of a standard design.

4. The work has already been ordered to be put in hand and if it be your intention that the design should be revised so as to correspond with that sanctioned for Reserve Inspectors at Parvatipuram, orders may be sent by wire so that necessary measures may be taken to stop the work and submit a fresh estimate for sanction.

I have the honor to be,

Sir,

Yours most obedt^t

W De Morgan

Esq Engineer Ch. P. Civil
