No. 155 W

Injury done to a Bandy man named Rungan Mooppen — Forwards copy of report from the Executive Engineer, Tanjore regarding — by fall of the Vilu wall at Jembu Cauvery Head —

0: L.S. 163 Q 15/6

Copy of report from the Sub Divisional officer Head Quarters to the Executive Engineer Tanjore division, No. 1119 d/28th May 1896.

I beg to report that at about 10 a.m on the 25th Instant a length of about 50 ft: of the Kiln wall at Iembu Cauvery Head fell down and injured a bandy man named Rengan Mooppen who was taken to hospital and had his leg amputated.

This was the first round of firing the Kiln and this portion of the wall must have been cracked and warped by the heat and not noticed by the overseer and Maistrys, this is the only way I can account for the wall falling, but I only inspected it today when it has been nearly rebuilt. The overseer was informed within a few hours of the accident and ought to have gone to the spot at once and investigated the thing, instead of this he went off to Negapatam (for the girders) the next day and never even reported the matter, I heard of it casually at Kodamurti Head and came in at once.

I have called for a full report but I don't think any more particulars are available

The man is progressing favourably. I believe he had sufficient warning and could have got away had he not turned round to look to the wall

wall falling.

No. 2179 d/ 2d June 1896

Forwarded to the Supg: Engineer, V Circle.
The man is reported to have died since.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following papers :—

Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), Mis. No. 2261, dated 7th May 1896.

Read—the following letter from the Collector of Gódávari, dated 17th April 1896, Ref. No. 4244/Ver. of 1895 :—

The Special Assistant Agent having sought the assistance of the officers of the Public Works Department for making estimates for famine relief works mostly involving the construction of tunnels and bridges in the Agency tracts with reference to paragraph 3 of G.O. No. 596, Revenue, dated 14th August 1894, embodied in Board's Proceedings, No. 360 (Revenue Settlement, Land Records and Agriculture), dated 6th September 1894, the Superintending Engineer, I Circle, reports in his letter No. 58 G.D., dated 6th April 1896 (copies of the correspondence enclosed),* that the work cannot be done by his supervisor without detriment to his own duties. I request the Board's orders for the preparation of the estimates in question.

*No 132, dated 25th March 1896, from the Sub-divisional officer, Dummugudem, to the Executive Engineer, Eastern Division.
No. 8, dated 30th March 1896, from the Executive Engineer, Eastern Division, to the Superintending Engineer, I Circle.
No. 58 G.D., dated 6th April 1896, from the Superintending Engineer, I Circle, to the Collector, Gódávari.

Resolution—Mis. No. 2261, dated 7th May 1896.

Forwarded to the Chief Engineer, Public Works Department, for the issue of the necessary orders with reference to G.O. No. 596, Revenue, dated 14th August 1894.

2. The Collector will be requested to expedite his programme for the current official year, which should not be delayed on this account.

(True Copy and Extract.)

(Signed) C. BENSON,
for Secretary.

From W. C. DeMORGAN, Esq., Executive Engineer in charge, I Circle, to the Chief Engineer, Public Works Department, dated Waltair, 28th May 1896, No. 404 G.D.

With reference to your memo. No. 2306 C., dated 19th May 1896, on the Proceedings (herewith returned) of the Board of Revenue, Mis. No. 2261, dated 7th May 1896, I have the honour to submit, herewith, a proposition statement in the prescribed form for the establishment required for the preparation of the estimates for constructing tunnels and bridges, &c., on the road from Parnasala to Gurrapughari.

2. It will take at least six months for the proposed establishment to do the required work, as the road runs through jungle nearly all the way and along the bank of river. A large number of cross drainages must be investigated and designs drawn out. Moreover, the locality is unhealthy and there will certainly be delay from sickness.

Order—No. 1763 W., dated 15th June 1896.

The employment of the undermentioned temporary establishment for six months for the preparation of plans and estimates for constructing tunnels and bridges, &c., on the road from Parnasala to Gurrapughari in the Gódávari district, is sanctioned :—

1 Surveyor on Rs. 100 per mensem.
1 Draftsman on Rs. 50 ,,
6 Lascars on Rs. 6 each ,,

2. The Superintending Engineer will see that the plans and estimates in question are prepared with the least possible delay.

3. This sanction has been registered as Provincial No. 24 W. of 1896-97, and classified as Establishment—Temporary.

(True Extract.)

agudem, to the Executive Engineer Eastern Divis

Letter from the Sub-divisional Officer, Dummagudem Sub-Division to the Executive Engineer, Godavari Eastern Division, No 132 dated 25th March 1896.

With reference to your No 1473, dated 7th instant, I beg to report that the length of the road for which estimate is required by the Revenue Department is about 85 miles from Purnasala, which forms the South boundary of Central Provinces to Gurrapaghari Ghaut, the western boundary of Rampa.

2 Out of the above length, about 50 miles is within a mile or two by the side of the river, partly jungle and the rest of the road goes all through jungle viz., from Widdigudem to Gurrapaghari Ghaut.

3 All along the road, there are numerous drainages to cross, of which about 30 are the large hill streams.

4 If accurate estimate is to be prepared for the above, everything have to be done by our department alone, as the Tahsildar

a

& his subordinates are little acquainted with preparing such estimates
