No. 1868 W, d/18-June 1896

PUBLIC WORKS DEPARTMENT

PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following

Letter from the Principal, College of Engineering, Madras,
No. 177C, dated 21st May 1896.

It is observed that the forecast of vacancies on the permanent Upper Subordinate Establishment of the P. W. Department likely to be available in January 1897 for passed Engineer subordinate students of the College of Engineering was fixed in June 1894. It was then assumed that there would be 5 appointments available for students who completed their theoretical course in December 1894. Owing to the curtailment of the practical course, these students are eligible for appointment 6 months earlier, or on the 1st of July of the present year. The number of vacancies now existing is 7, but of these, two have to be reserved for

(40-4,000-14-3-95.)

or Military students and
 thus 5 only are available for
 civilians. In ^{January} 1897, another
 batch of students, namely, those
 who passed out of the College
 in December 1895 will also
 look for appointments, and
 it was announced in notifi-
 cation published in the
 Fort St. George Gazette of the
 11 June 1896, Part II, page
 968 that as many as five
 vacancies would be likely
 to be available. This forecast
 has been vitiated by the
 change in the rules curtailing
 the period of the practi-
 cal course, and it will
 thus have to be considered
 how far the conditional
 guarantees already given
 can be fulfilled.

2. Paras 2 and 3 of the
 letter from the Principal of
 the College will be consider-
 ed in the Educational
 department. The question
 raised in para 1 as to
 the Engineer student is
 being considered separately.

Dated 21st May 1896.

FROM

THE PRINCIPAL,

COLLEGE OF ENGINEERING, MADRAS,

TO

The Chief Engineer,
Public Works Department,
Madras.

SIR,

With reference to G.O. Educational No 223 dated 7th April 1896, I have the honor to request that the Engineer students of Jagadisa Aiyar's batch and the Engineer Subordinate students of Muttayya's batch may be relieved of work on their practical course on 30th June 1896, and that the appointments guaranteed for these batches may be conferred from 1st July.

2. Under G.O. No 560^x Educational dated 28th July 1892, leave on the practical course is limited to one month per annum.

* Sent to Madras on 5.6.96 with disposal

* G.O. 2229 wdy
12.8.92

As the work course of the batches referred to has extended only to six months, it is considered that their leave allowance should be reduced to half a month. Any students of these batches who have enjoyed more than 15 days leave since the 1st January should therefore lose stipend for any excess and make good that excess after the 30th June.

3. It is understood that the second Engineer Subordinate student K. Narraiah Hebbur has enjoyed more than 15 days leave. I recommend that the excess should not prejudice the award of the guaranteed appointment to which he will become entitled, and I suggest that such appointment be reserved until he has made good the excess.

4. It is possible that there may be other cases of a similar nature.

I have the honor to be,
Sir,

Your most obedient servant,

~~To. Hon.~~ Major R.E.,

Principal.

1896-97.

College of Engineering.
