FOR ORDERS.

In Notification n^o. 291 S, dated 6th June 1894, it was announced that five appointments as Overseers, 3rd grade, would be likely to be available in January 1897 to passed subordinate students of the College. But since the issue of this notification, it has been decided to curtail the practical course. In consequence of this, the students who passed out of the College in December 1894 will have completed their practical course at the end of the present month, and will look for appointments on the 1st July of this year. We have undertaken to appoint as many

many as five of these men,
should vacancies allow.

On the 1st January 1897,
another batch of students,
namely, those who passed
out of the College in De-
cember 1895, will also look
for appointments, and we
have announced in the
notification quoted above
that as many as five
vacancies are likely to
be available on that
date. The question now
arises whether, if we give
away five appointments
in July of this year, we
shall have in January
1897 another five vacancies,
or seven including the
two appointments gua-
ranteed to the military
students. It is extremely
improbable. At present,
there are six vacancies
in the Upper Subordinate
Establishment. Two of
these must be reserved
for military students. It
has to be decided as to
how many of the remain-
ing four vacancies should

in view the demands that
will arise in next January

I would suggest
that 4 appointments be
made on 1st July 2 to
Civilians and 2 to Military
students against the
six vacancies now existing,
this will leave two certain
vacancies to be filled up
in January 1897 and these
will have to be given to
the Military students but
by that time there may
be a few other vacancies.
