Copy of Communication from the Sub-Divisional
Officer, Madras to the Executive Engineer, Madras,
Division, of 21st April 1896 No. 192

Referring to your c/o go's, dated 15th April
1896, I have the honor to report that the
west wall of the dining room as well as
the terrace over it are much cracked
and the terrace is much leaky.

An estimate amounting to Rs 310/-
for putting a Zinc roof over that portion
of the terrace to close the leaks temporarily
during rainy weather and for other sundry
repairs was sanctioned, but the Zinc roof
has not yet been constructed. It is not
safe to allow the dining room as it is. That
portion of the terrace should be completely
removed. The cracked wall should be repaired
and a new terrace should be constructed.
The approximate cost of doing the above
improvements and whitewashing the whole
building would amount to Rs 600/-. The build-
ing can then be used for a year or two. If
the above repairs are carried out, a rent of
Rs 150/- will be fair.
