

Public Works (1896) Department.

G.O., No. 2010W

DATED 13th July 1896

[Despatch Abstract.]

Establishment. The proposal
to increase the Clerical - of the
Godavari Western Division
is allowed

P. 6. 9.

note for the excellent
Governor.

His despatch of June 23-1896

concerning the fact
that the report made
of the large expenditure on
public works in the Public
Works Department, usually
by the persons who are
quite ignorant of the
internal economy of the
Department and whose opinion
must therefore be accepted
with caution. It seems to
be incorrect that the Public
Works Department is a spending
one and that every dollar
spent is well scattered
over thousands of square
miles. It is a mistake

tendency of some officers
to try and get increase of
establishment and my best
endeavors will be used to
prevent such attempts, but
the matter is a difficult
one. The Supt. Engineers
are selected officers of
long experience who are
supposed to (and it must
be presumed do) inquire
carefully into the wants
of their several Divisions
and if they give sound
reasons why an increase is
required I am unable to
go contrary to them from
personal knowledge.

3. If a Supt. Engineer
explains or implores that
extra establishment is
needed for a

work of
responsibility and
cannot be done
by the

in charge given but in
the Providence except one,
and know that the work
in many divisions is extremely
easy. When I am in charge,
as the time Engineer of the
Godavari Central Division,
and the station master for
the place is a ^{station} ~~station~~
and I am to have to work
in a ^{station} ~~station~~ till 8 p.m. with
an ^{station} ~~station~~ at 10 p.m.

5. The amount of work
varies at different periods,
hence it is not thought
advisable to increase the
strength permanently and
it is usual to sanction a
temporary increase of
establishment which can
be reduced when work
is slack.

6. I have called in a
station master for a

P. W. D.

Note for His Excellency the
Governor -

His despatch of June 23rd 1896.

I am aware of the
fact that complaints are
made of the large expenditure
of establishments in the
Public Works Department
especially by some of the
Anti-Slavery Members and
it seems to be forgotten
that the Public Works
Department is a spending
one and that every pie
has to be accurately accounted
for.

would of them who are
opponents of the
economy of the Department and
who give no thought to
the results of their actions.

Yours faithfully
P. W. D.

tendency of some officers
to try and get increase
of establishments and my
best endeavor will be
used to prevent such attempts
but the matter is a
difficult one. The Supt
Engineers are selected
officers of long experience
who are supposed (and it
must be presumed)

carefully into the wants of
their several Divisions and
if they give good reasons
why an increase is required
I am unable to go contrary
to them from personal knowledge

If a Supt Engineer ^{submits}
^{with the proper} ~~good reasons~~ ^{good reasons} why an extra
^{assistant} establishment is required and
it is not granted, he is
likely to feel that the
refusal is not of course
an

I have been myself in
charge of every article in the
Presidency except me and
I know that the work in
many divisions is extremely
heavy. When I was in charge
as Engineer of the
Lodovian Central Division
and the Western Eastern
Division the officers at the time
used often to come to
work from 8 a.m. till
8 p.m. with an hour interval.

The amount of work
varies at different
periods since it is not
thought advisable to increase
the strength permanently
and it is usual to make
a temporary increase of
establishment for a short
time.

I am aware of the fact
that Amb. Lincoln was made
of the Lib. to stand in the
opinion of the O. N. State
applies of the Lib. to the
Nation but I seem to be
forgetful that the O. N. State
is a splendid one and that
only for her to be secured,
secure to be a state nation
one should not of the O. N. State.

[illegible]

If a boy has given good
reason of his conduct
in ~~the~~ ^{the} ~~case~~ ^{case} it is not
granted he is better & free
from the responsibility of ~~action~~
can't I live on him?

I have been myself in charge
of boys and in the morning
except on one I have the
the best in many churches is
a very heavy. When I
was in charge of the boys
Carter & the other boys
in the office & others were
often to have it out for
8 or 10 & have it out in
the morning.

~~That~~ The ~~boys~~ & ~~children~~
at different periods there is
in the morning around the
where the other ~~boys~~ ^{children}
& it is a great deal of trouble
in the morning of the boys & children

In the morning when I am out in the
I have called for a collection for
the morning

the morning

C. P. 11.

A 1 class Division is allowed
7 clerks.
Kurnat (Kurnat)
Kurnat (Kurnat)

Both of them are in the
in the Division, even up
the same
in the

Western is with the only
Bianchi in mind - this
is a very good illustration
of the fact that the only way

Note for His Excellency the
Governor:-

His Excellency's Note dated
20 June 1896.

I can only give an
opinion as to whether the
Supt. Engineer's explanation
regarding the necessity
for the extra establishment
is satisfactory, and I
consider it is so.

The Supt. Engineer, who
is the inspecting officer
and head of the circle,
having given satisfactory
reasons why extra establishment
is required I think it
should be sanctioned.

The duty of investigating

A. I have noted the

is expressly laid on the
Supt. Engineer by para 40,
Chap. III Vol I of W. Code.

W

C No. 5372

It is held 20 June 76

It is submitted that the
Chaplain, being with the
Head Quarters of the 1st.
Can form no reliable opinion
on a matter of detail of
this kind. The Supt.
Engineer the Inspecting
officer and head of the
Circle reads his opinion
that "a permanent addition
of 15 men
is decidedly necessary"
and no better opinion
can be had. The
of having the
in the
made it
not
the

It can only be in person
as to whether the report
explains regarding the
necessity of the water works
in this part of the country
it is to be.

The High Engineer is the
inspecting officer & head of the
Civil Engineering Department
responsible for the water works
system & I think that is the
best arrangement.

Being the first time of the
can you be satisfied with
the plan on the matter of water
& water works. The problem of
the water.

The duty of investigating the
advising a scheme of water
works is to be done in
the light of the present & future
needs of the country.

Read the following:—

Letter from the Hon. Secy. of the Interior
dated 10th Sept.

FOR ORDERS. with reference to
the order of the
dated 29th Sept.

FOR ORDERS.

For - 7-22-14

432

Mr. Paul with the assistance of a very able manager had carefully allocated the duties of each clerk. The duty of maintaining the Receipts Register is very heavy, and quite a man's work. Under the present arrangement the

1. The Despatching clerk
2. The Record Keeper of The fair
Copyist.

The duties of the Despatching
clerk are -

Despatch of all letters, upkeep
of Despatch registers, noting
disposals in Receipt registers
and (A) upkeep of Receipt
register of Eastern Sub Divi-
-sion.

Of the Record Keeper - Responsible
for all records, upkeep of
index files methodically, com-
pare all fair copies and
(B) keep up Receipt registers
of Western and Tank Sub
Division offices.

Of the Fair Copyist - Fair-
copying all drafts of letters
and statements unconnected
with monthly accounts. Assist-
ing Head Clerk in translating
petitions and (C) upkeep of
Petition Receipt registers and
Receipt Register of Superin-
-tending Engineer and
Miscellaneous officers.

The number (A+B+C) should
be maintained by the
clerk.

clerk now proposed, as
there is no prospect of the
work becoming less, I think
clerk should be a permanent
one. The upkeep of these Receipt
Registers is a big job and
it is not possible for one man
to do it among 3 clerks.
As it is now done, not only is the
upkeep neglected but the legiti-
mate work of the other clerks
is also neglected.

Head Clerk
of the Eastern Sub Division

Head Clerk
of the Western Sub Division

Head Clerk
of the Tank Sub Division

Head Clerk
of the Superintending Engineer

Head Clerk
of the Miscellaneous officers

Mr. Chief Engineer
Water Works Dept.
