Letter from the Executive Engineer
Thiruvananthapuram to the Sub Engineer
and Circle, of 8th May 1896, No 629

With reference to your No
147 K. E. of the 16th instant ordering
that the extra establishment have
tioned in G.O. No 1147 W of 1.4.1896
should enable the preparation
of work abstracts in the Sub
Divisional Offices. I have the
honour to represent that, as already
explained fully in my letter
No 685 of the 11th May 1895 that by
that the work abstracts will
greatly help the Sub D. Officers
in giving them handy information
as to the progress of outlay on each
work, immediately after end
of each month. It can be realized
in this D. is as much as when
they are prepared in the Sub D.,
they can contain only the cash &
payments made by each Sub
Divisional Officer during the
month.

2. In addition to the Cash expenditure
there are every month a very large
number

* with CN 5384
sent to W on 17-6-96

number of adjustments made
in the Division Office on account of
debts from & for them D.^u for materials
from quarries and stones and
for workshop works &c.

3. This information must ne-
cessarily be supplied by the
Division Office to the Sub D.^u
Offices before the work abstracts
can be completed in the latter
Office and it is therefore in
my opinion much simpler for
the work abstracts to be prepared
completely in the D.^u Office.

4. With regard to the extra
establishment sanctioned, I have
to point out that as already reported
an additional Clerk has been
employed for some time past
in each Sub D.^u Office and his
pay charged to works. There
has therefore been no real
increase of establishment
and I am strongly of opinion
that the two Clerks in the Sub
Divisions have quite enough

Against
rules -

Suppose the men
charged to works have
been sanctioned and
that proper & so
there is no increase
of establishment -

to do without making them prepare the work abstracts which, if done, will be merely throwing additional work on them to no useful purpose.

5. The Sub D. Officers are kept fully informed of the expenditure on works by means of Form 91 which is very suitable for the purpose and nothing more is required.

6. Under the above circumstances I have the honour to request that you will be so good as to reconsider your decision.

No 511 KE
27.5.96

Forwarded to the Chief Engineer, P. W. Department with reference to para 12 of the Office Note no 3207 B d 16th Sept 95 from the Examiner P. W. Accounts, printed with G. D. No 2390 W d 30th Idem for sanction of Government being obtained for the preparation of work abstracts in the Mitha Eastern

2nd Office as a special Case instead
of in the Sub 2nd Offices as directed
in G.D. No 518 W & 6th March 1895.

2. Mr. Smith's arguments for
reverting to the old system appear
to be unanswerable.
