Chief Secretary to the Government of Madras.

Printed Copy

Honourable Sir,

In the original estimate for the Law Court buildings provision was made for 40 carriage sheds and 60 horse stalls for the use of officers of the Court. Subsequently 14 Carriage sheds and 16 horse stalls were added for the use of Barristers and Vakils on payment of rent. As however no such distinction was drawn between the two in G. O. No 2027W, dated 15th August 1894, which fixed the rates of rent to be charged on the various parts of the buildings, or previously, the officers of the Court took possession of 103 stalls for their use, of which 92 were of the former, or more expensive kind, and 11 of the latter.

2. In December last the Consulting Architect to Government took exception to the officers of the Court occupying 3 more stalls than had been originally built for them without the sanction of Government. On his explaining the grounds of his objection the stalls were, on January 31st 1896, vacated. He now requests that the sanction of Government may be obtained to their occupation from the 23rd February 1893 until that date.

3. I am directed therefore to request that this sanction may be accorded. I may point out in this connection that in consequence of 8 stalls of the lesser value being occupied by Officers of the Court instead of the superior ones Government has throughout been deriving an excess rent of Rs. 5 a month which may be set

against

against the amount lost through the occupation of 3 stalls too many.

I have the honor to be,
Honourable sir,
Your most obedient servant,

C G Todhunter

The Suptg. Engr has not expressed his own opinion on the proposal, as requested in this office No 1165 D dated 11 Octr 1895. He is requested to state whether he recommends the purchase of the building, & if so, at what price. The Presidency Port officer recommended that Mr Winckler's offer of Rs 8,000 should be accepted; but the P.W. valuation amounts to Rs 7230. If the S.E. considers that no more than the latter sum should be paid, he should ascertain & report whether the owner will accept that figure.

SIR,

In connection with the question of providing suitable bungalows for coast Port Officers to reside in, an offer has been made by Mr. J. E. Winckler, late Port Officer, Cochin, to sell his house at that port (which will be a suitable residence for the local Port Officer) for the sum of Rupees (8000) Eight thousand. I recommend this offer being accepted, after an inspection

3. The difference between Mr. Winckler's price and the Public works department valuation is but trifling and without the valuation Estimate, sent to you with this office No. $\frac{243}{W}$, dated 22d May 1896, I cannot see if any peculiarity of rate would account for it.

The delay in reply to this subject is owing to a reference having been made to Mr. O'Connell.

Sir,

In reply to your Memorandum No. 2543, dated 15th instant, I have the honor to state that Mr. Winckler's Bungalow at Cochin has been inspected by Mr. O'Connell, Executive Engineer as well as by the Presidency Port Officer. The latter recommends the purchase of the bungalow. The former reports, that the ceilings of the lower rooms are low and that though the house is on shallow foundations, he could find no cracks, that it was in good order and that we could not build a house with the same accommodation for the price asked by Mr. Winckler (Rs 8,000). Under these circumstances, it appears to be entirely a question for the Marine Department

BOARD'S GEN. REC. No 3563 OF 1896
LAND REV.

From
V. A. Brodie Esq C.S.
Collector Godavari

To
The Secretary to the
Commissioner of Land
Revenue

Sir,

Referring to B.P. No 2694 Revs of the 11th instant, I have the honour to state that I have since inspected the building of the Taluk Office at Ramachandrapur, & find that the construction of a first class building according to the revised type design is very necessary.

2 The present building is, as observed by Government, not only very defective in accommodation, but contains an open court yard in the centre, which is very objectionable, on account of the sun, rain & wind which it lets in. The fact that the Sub jail rooms are inside the building is another unhealthy feature about it.

the sooner, therefore, the present building is abandoned, the better. For want of any other suitable site for the new office, it seems necessary to demolish the present building, and erect the new one in its place, the office being accommodated somewhere else in the meantime. For this, arrangements will be made, when work on the new building is ready to be begun.

3 The enclosures of the Board's Proceedings are herewith returned.
