From the Executive Engineer, Trin-
chopoly, to the Super Engineer,
Trichinopoly, No. 490 S.E. dated 27th
November 1895:—

I have the honor to
bring to your notice that in connection
with the investigation of the Ponmery
Reservoir Project, an estimate for Rs.
350, prepared in your office was com-
municated to me at the first instance.
Provision had been made in the above
estimate for the employment of a Sur-
veyor on Rs. 100 per month and 6 lascars
at Rs. 6 each, for 2 months & Rs. 75 under
the head "Contingencies". But in G.O.
No. 1046 W of 4.5.95 sanction has been
accorded only for the entertainment
of the Surveyor and 6 lascars. In G.O.
No. 1869 W of 26.7.95 the re-
newal of the Survey Establishment was sanc-
tioned for a further period of 2 months
which expired on 2.9.95 and due
intimation of the same had been
given to the Surveyor. As the work
however had not been fully completed,
it was under contemplation to apply

for a fresh sanction for the retention of the establishment a little longer, but on receipt of a telegram from you, the services of the surveyor & his lascars were ordered to be dispensed with and the same was given effect to on the 16th September/95. The establishment was paid only up to 2nd September (the sanctioned period) as the Surveyor was already aware of it but the lascars who were only appointed from time to time claim their wages up to the date on which their services were dispensed with.

2. Subsequently, again the Inquest Subordinate Student was employed on the work and an expenditure of Rs 33-4-0 has been incurred in September 1895 and Rs 1-0-6 in October/95 in the shape of casual labour & other contingent charges and the Examiner P. W. accounts, has already objected to the former. I have therefore submitted herewith an estimate to cover the cost of establishment and other casual labor

and contingent charges and request that sanction of Government may be obtained at an early date.
