With reference to this office
Memo No. 2428C dated 4th June
1896, the S.E. IV Circle submitted

for constructing masonry drain
in the Central jail at Salem,
as supplemental to the estimate
also sanctioned in G.O. No. 2411
& 304 W dated 31st Aug 1892 &
6th Feb 1893 respectively.

- (1) Masonry drains in the Close
prison cells — Rs 2100
- (2) do. Civil Debtors ward — 330.

The S.E. explains that the es-
timate of Rs 2100 provides for
constructing only such drains

the bath & from where cooking
& feeding utensils are washed
in the Close prison cells & that
the estimate of Rs 330 is for a
drain in the Civil Debtors yard

and when the prisoners bath.
The estimates have already
been examined in this office
vide T's note dated 4 March

From

The Chief Secretary

To

The Secretary to Government,

Public Works Department.

The undersigned regrets that he can-
not counterinitial the accompanying draft
order from the Public Works Department.

From the G.O's. noted in the ~~Mar~~ margin,
it will be seen that the Government ob-
jected to the construction of any masonry

drains in the new Civil Debtors Yard and
the close prison attached to the Central
Jail, Salem, other than those required to

carry off waste water from the baths and
from the places where cooking and feeding
utensils were washed. It is not clear

which of the drains now proposed to be
constructed in the close prison are re-
quired for the above purposes no expla-
nation having been afforded as to the use

to which the different sections of the
drains will be put. The estimate marked
B provides for the construction of mason-
ry drains in the compound of the Civil

Debtors Yard to carry off rain water.
This provision is opposed to the orders
of Government referred to above. Further,

it will be noted that this is apparently
the identical estimate of which the
Government in those orders refused to ap-
prove. The procedure followed in this

case of submitting to one Department of
Government

G.O's. 2764 J/14-11-'94 &
170 J/25-1-'95 (forwarded
in original with the request
that they may be returned
when no longer required)

Please date of Mr. Cardew's

Government without remark an estimate which has already been rejected in another Department is open to much objection, and it is suggested that an explanation may be called for from the officers concerned as to the causes which led to its adoption in this case. It is requested in conclusion that the plans and estimates may be returned to the Superintending Engineer with the intimation that they should be submitted to the Judicial Department through the Inspector General of Prisons in accordance with paragraph 3 of G.O. 483W dated 21st February 1884.
