Sir
1. advertising to B.P. No. 1592 Mis, dated 9th April 1896, I have the honor to forward herewith a plan of the Fort at Palghat showing the existing buildings in it, and to state that the construction of a new Taluk Cutcherry was recommended by me because the present building is unsuited for the purpose. It is about 158 feet long and 34 feet broad, and is divided into three rooms. The Treasury Room which is at the Eastern end is so badly lighted that on rainy days it is necessary to use lamps during office hours. The Room at the Western end is used as the record room, while the one in the middle is occupied by the Tahsildar and his establishment. This latter is also badly lighted and badly

badly ventilated. The building
is in my opinion quite unfitted
for a Taluk Catechery, and worse
than many buildings which have
been condemned in other districts.

I have the honor to be,

Sir

Your most obedient servant.

J. Hewitt
Ag. Collector.
