From G. P. CARLESS, Esq., Executive Engineer, West Coast Division, to the
Superintending Engineer, IV Circle, dated Calicut, 18th June 1896,
No. 291 S.E.

I have the honour to bring to your notice that the officers of the detachment of the South Stafford Regiment at Malapuram have refused to use the Officers' mess-house there from the 1st instant on the score that the rent claimed is excessive. The construction of the mess-house was sanctioned in G.O., No. 3120 W., dated 19th November 1891, and the building was completed in March 1894 at a cost of Rs. 8,312. It has been used as a mess-house from 13th June 1894, but through a misapprehension of the rent rules in this office, no rent list for the recovery of rent was sent until recently, when the irregularity was brought to notice by the Examiner, Public Works Accounts. The rent of the building was fixed at Rs. 56 per mensem in G.O., No. 1907 W., dated 31st July 1895, calculated in accordance with rules laid down in Public Works Department Code, I, X, 28. As the officers of the Dorset Regiment, who were at Malapuram prior to the arrival of the Stafford Regiment in this district in October 1895, have paid rent at this rate without any complaint, I do not see any reason why the officers at present there should not pay the same, considering that the mess-house was built solely for their use (*vide* Code, II, X, 154).

It is a question if rent cannot be fairly claimed for the building whether occupied or not, and I request therefore your orders on the point.

No. 307 W.

Submitted to the Chief Engineer, Public Works Department, for favour of orders. It is understood that there are only two officers at Malapuram and one of them is a married man.

From the Deputy Adjutant-General, Madras Command, to the Joint Secretary to the Government of Madras, Public Works Department, dated Ootacamund, 25th August 1896, No. B./M.W. 7810.

His Excellency the Lieutenant-General Commanding the Forces is of opinion that, owing to the paucity of officers with the detachment at Malapuram, the mess at that station should be considered as closed from the 1st June 1896, until re-opened at an early date.

2. Instructions will be issued to the General Officer Commanding Southern District, to the effect that the number of combatant officers at Malapuram should never be allowed to fall under three, and that the mess should be re-opened from the 1st proximo.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β . It is shown that the system of equations (1) has solutions for arbitrary values of the parameters α and β if and only if the condition $\alpha + \beta = 1$ is satisfied. This condition is also necessary for the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β .
