G.O., No. 1324, Judicial, dated 15th August 1896.

Read—also the following letter from the Registrar of the High Court of Judicature, dated 5th August 1896, No. 211. :—

In returning herewith the three original estimates and plans (enclosures to Government Proceedings No. 356, Judicial, dated 20th March 1896), I am directed to forward a revised estimate submitted by the District Judge, Kistna, for the erection of a cattle-shed within the compound of the District Munsif of Narasaraopet, and to state that the ryots' shed to which no objection has been taken and the cattle-shed on the reduced estimate may be sanctioned and the work proceeded with. As to the latrine, the High Court is not satisfied that a separate one for the District Munsif's Court is necessary and would adopt the suggestion of Government that the one attached to the Deputy Collector's office be slightly enlarged.

Order—No. 1324, Judicial, dated 15th August 1896.

The revised estimate for a pound for attached cattle, and the original estimate for a ryots' shed to be constructed within the compound of the Taluk office at Narasaraopet for the use of the parties attending that office and the District Munsif's Court, are approved and will be transferred to the Public Works Department. The Public Works Department will also be requested to issue the necessary orders for the extension of the latrine attached to the Deputy Collector's office at that station, so that it may suffice also for parties attending the District Munsif's Court.

paving plans & estimates have
been submitted for Govt. sanction.

(a) Constructing Ryot's shed in the
compound of the Taluk Office Rs 1160

(b) Constructing a cattle pound
in the compound of the Dist. Munsif - (revised estimate) 690

(c) Latrine in the compound of
the District Munsif — 770

Estimate (a) has been based on
the type design circulated with G.O.
No. 1014 W dated 20. Apr 1894.

The nature of soil at site of the
proposed shed is reported to be gravel.
The foundations are proposed to be
laid to a depth of 3 1/2 feet, the lower
3 feet to be of concrete & the upper 6"
together with the basement raised
9 inches, built of burnt stone in chun-
nam. The superstructure pillars
are to be raised 8 1/2 feet & the walls

The seedlings of prof. timber
are correct.

The old rail uprights will be embedded into ~~concrete~~ concrete foundations & the masonry posts laid over concrete foundations, as per design submitted.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper:—

From the Registrar of the High Court of Judicature,
Appellate Side, Madras, No 656, dated 25th February 1896, request-
-ing sanction at an early date for constructing cattle and
ryots shed and latrine in the compound of Narasaraopet
District Munsif's Court-house.

O R D E R :- R No 356, dated 20th March 1896.

It appears to the Government that it will probably be
sufficient for the needs of the Court ~~if~~ the latrine attached
to the adjoining office of the Deputy Collector is slightly
enlarged. The estimate (Rs 1000) for the pound for ~~4~~ attach-
-ed cattle appears to be high. A building of simpler design
would probably fulfil all requirements. The Honourable the
Judges will be requested to favor Government with their
opinion on these points.
