Letter from A. Joyce Esquire, Executive Engineer, Tr. adura Division, to the Supt. Engineer 6th circle, Tr. 1085-2. dated 28th May 96.

In reply to your No. 321 M.D. of March 28th 1896, I have the honor to forward herewith copies of papers received from the Madras P.W.D. office bearing upon the case in question.

You can see I think that they are most admirable rules if enforced. If they are supposed to be in force at present, now that the head works are practically completed and the post of Superintendent of Works is abolished, I do not know.

At any rate from information I received from Mr. S. D. Peats the late Superintendent of works I am led to believe that they must certainly were not much respected by the Travancore authorities upon one occasion alluded to in my No 563. S.2 of March 26th 1896

I would further add that all British Judicial authority ceases here I believe at the end of this financial year.

I have myself no authority to

. Settle these matters; but I think that it would be best for the Madras Government to have all these matters definitely settled.

We are as I think you know paying the Travancore Government a most exorbitant sum annually for the use of the water &c. But as this matter has once been settled by treaty I imagine that it cannot be reopened. But I think we might get such small concessions as I have asked for in return.
