OFFICE NOTE No. 2560 *8/A*

To

W.

Your office note No.297I C,dated
1st,August 1896.

The Executive Engineer Kistna Northern Division recommends that the profits arising from improved methods of carrying out quarrying operations should be credited to the outlay already incurred on the construction of the tramway lines etc. instead of reducing the rate of the outturn.

2. The monthly credit at the rate of Rs.102-2-8 for reducing the outlay incurred on tram lines was determined in G.Os.No.2720 W.dated 14th.October 1891;No.1638 W.dated 17th.June 1891;No. 228 W.dated 14th.March 1894.If Govern-
ment approve ~~of~~ the profit referred to by the Executive Engineer may be cre-
dited proportionately to the three works referred to in para 6 of his letter and this would have the effect of reduc-
ing the period within which the outlay

incurred on tram lines etc. to be adjusted by about 8 months.

C.
18/2/96

Letter from the Executive Engineer
Kishna Norton Esq. to the Supg Engineer
2nd Circle, d/17th July 1896, N.O. 223 J.E.

The manufacture of stone at
the Nagalrajapuram Quarry re-
sulted last year in a profit of
Rs 895.9.9.

2. The profit was chiefly due
to improved methods and also
the careful supervision of Mr. Emmett,
the quarry Superintendent.
3. The profit was, therefore, accounted
by credit to the expenditure incurred
on the improvements made, but
the Examiner objects to this mode
of adjustment because Government
have fixed a rate of monthly credit
against this expenditure.
4. The monthly rate was fixed
with reference to P.W. Code, Vol II,
Ch. II, Para 146, which says that
expenditure on "land and kilns" should
be adjusted by instalments to be
fixed "according to the period in which
each item should be cleared or ac-
cording to merits of each case".
The L.O. sanctioning the expenditure
says the amounts should be cleared

within 15 years by monthly credits at the rates fixed but does not say that a larger amount cannot be credited.

5. The credit fluctuates according to the extent of the operations and to the economical working or otherwise of the quarry. However I consider that it is advisable to pay off the amount as soon as possible, and I can see no objection to the course proposed, other than the one mentioned by the Examiner which has been met in para 4. I therefore have the honour to request that you will obtain the sanction of Government to my proposal.

6. The annexed statement shows how the account stands.

	Expenditure incurred	Adjustments already made	Balance still to be adjusted.	
	Rs	Rs	Rs	
1. Laying tram line	5538	2080	2958	Monthly credit 28/- = Rs 5035-
2. Constg. town way & wharf	7515	3507	4008	50/- = 9000-
3. Taking up & relaying old tram way	4353	2417	1936	24 2/8 = 4350-
Total	16906	8004	8902	R 102.2-0
