Note.

Under this order, there will

Of 427

(40—4,000—2-11-95.)

[illegible] be 14 additional quarters available for clerks of the Secretariat and Private Secretary's office. The total number improvided this year is 16. All the clerks brought up do not want public quarters, and it is thought, therefore, that the additional quarters now sanctioned will suffice for the present.

L.S.

Ootacamund, 13th May 1896

To

The Honourable Mr. J.F. Price, I.C.S., C.S.I.
Chief Secretary to the Government of
Madras.

(Through the Chief Assistant)

Honorable Sir,

We, the undersigned clerks of the Secretariat, beg to bring to your kind notice the inconvenience we are put to in finding suitable accommodation at Ootacamund and to request that, in the circumstances explained below, the necessary orders may be issued for increasing the number of Government quarters now available for the clerks of the Secretariat, which are considerably below the actual requirements.

2. It may be pointed out that on the last occasion there were 32 applicants (excluding those who were able to procure private quarters) for Government quarters, but only 18 of them could be conveniently accommodated. But, on some of the married clerks expressing a wish that they would be content with a single block of the Bachelors Quarters on ~~in the~~ Stonehouse Hill notwithstanding the inconvenience and difficulties they would have to undergo, three more were squeezed into them, thus making the number 21. The rest of the clerks, eleven in number, are for the present without proper accommodation and are thus subjected to considerable inconvenience. It may be mentioned in this connection that some of the clerks have now actually no accommodation and are dependent on the hospitality of their friends.

3. Owing to the permanent removal to Ootacamund of the office of the Principal Medical Officer, Madras Command, the difficulty in securing houses has considerably increased and we apprehend that in coming years this difficulty will be further enhanced

enhanced in consequence of the removal of the office of the Commissary General from Bangalore to Ootacamund which has been decided upon.

4. We beg to state that the rental charged by private owners for season tenants is exhorbitant, being more than double the ordinary rent, and this, we beg to submit, we cannot well afford to pay out of our slender resources, especially ~~when~~ as most of us have to maintain another establishment at Madras.

5. We therefore humbly beg that Government may be pleased to issue very early orders for the provision of additional quarters for married clerks.

We beg to remain,
Honorable Sir,
Your Most Obedient Servants,

K. S. Tirumalai Aiyangar.

C.S.

I strongly support the ~~prayer~~ request in this petition as I know, from enquiries, that the clerks - especially those on lower pay - are put to great inconvenience in consequence of the ~~lack~~ scarcity of quarters. It is not only better for the men themselves but also better for their work that they should be decently housed close to the Office. In spite of various endeavours to shorten their hours, the clerks in the Chief Secretariat have to work early and late up here and in the monsoon it saves them a great deal of inconvenience if they have not far to travel.

I have inspected the Sapper lines quarters. These are anything but comfortable and badly built. There is lots of space on the hill for a block of married quarters for native clerks.

Perhaps the best way ~~will~~ would be for the C.S. & the Secy. to Govt. P.W.D. to meet and inspect the present quarters to see what can be done. Any further quarters built on the same system as the "Sapper lines" block would be waste of money. These quarters have to be seen to

Accommodation for Secretariat Clerks at Ootacamund

Approving, with remarks, the proposals of the Executive Engineer for accommodating the Secretariat clerks in buildings at Ootacamund.

No. 2559 W., 3RD SEPTEMBER 1896.

READ—the following paper :—

From F. W. ASHPITEL, Esq., Executive Engineer, Coimbatore Division, to the Superintending Engineer, IV Circle, dated Coimbatore, 18th July 1896, No. 2360.

According to verbal orders from the Chief Engineer, I have the honour to forward herewith a statement showing the buildings at Ootacamund, which are available for the clerks who annually accompany Government to the Hills, and how these buildings are at present occupied.

2. The total number of clerks to be provided for is thirty-four in the Secretariat and three in the Private Secretary's office, and in order to provide the sixteen clerks who now live in the bazaar with quarters without any considerable expenditure of Provincial funds, it will be necessary to obtain possession of the European warders' cottages on Jail Hill (33 to 36 in register of buildings) and the Apothecary's quarters (41 in register) now occupied by the Military Department, in accordance with G.O., No. 2107 W., dated 6th August 1891, and to evict the hospital compounder who has no claim to quarters from the dresser's quarters (42 in register). This will provide additional accommodation for eleven clerks. Of the remainder, two of the Private Secretary's clerks can occupy No. 18 Apothecary's quarters, leaving three unprovided for. It will therefore be necessary to build quarters for three clerks only, and two of these may be provided for, if the Sergeant-Major of the Volunteers is turned out of the quarters he now occupies.

3. It will be observed that, in the statement, it is proposed to allow Sub-Conductor T. G. Blake, Supervisor, Public Works Department, to occupy Connemara Cottage (21 in register) which is now occupied by three Native clerks. This change is proposed as the overseer's quarters (50 in register) are quite insufficient for his large family, while Connemara Cottage is much more suitable for a European than for Native clerks. These clerks can occupy the overseer's quarters if certain small alterations are carried out, and sanction to this proposal is requested from November next.

4. In the statement, the European Prison (32 in register) is set apart for either the Assistant Collector or Forest-officer, as the Collector has asked for an addition to his office which, when other Government buildings are available, seems hardly necessary. The rooms in the Jail, now occupied by the Principal Medical Officer, Madras Army, will shortly be vacant and will serve admirably as an office for the Forest-officer, while the Assistant Collector might have the part of the Jail lately occupied by the Volunteers, the central hall being used as a court.

5. Whatever orders are passed, I would suggest that the old Jail buildings on Jail Hill will be required for the Pioneers in the event of sanction being accorded to their employment on the Ootacamund lake reclamation. These buildings should, in that case, be reserved for the accommodation of the troops until the lake work is completed.

6. In the event of the Military authorities preferring to retain the buildings now occupied by them, in accordance with G.O., No. 2107 W., dated 6th August 1891, it is suggested that, with the exception of the Principal Medical Officer's office, they may be permanently transferred on condition that Imperial funds defray the cost of the new quarters for clerks, or, at all events, a considerable part of the expense so incurred. It would doubtless be more convenient to the clerks to live near their offices.

No. 362/W.

Copy submitted to the Chief Engineer, Public Works Department, with reference to his memo. No. 807 D., dated 18th instant.

(Signed) J. HANNAN,
Suptg. Engineer, IV Circle.

23rd July 1896.

Order—No. 2559 W., dated 3rd September 1896.

His Excellency the Governor in Council approves the Executive Engineer's proposals, with the exception that the Connemara Cottage should be reserved for Secretariat clerks. At present it accommodates three distinct families, and as there is no communication between the separate quarters, it would be wholly unsuited for the accommodation of a single family, as proposed by the Executive Engineer. If Mr. Blake's quarters are too small, separate proposals for enlarging them should be submitted, and these will then be considered on their merits.

2. The Apothecary's quarters at Government House should be enlarged, so as to accommodate all the clerks (3) of the Private Secretary's office. An estimate of the cost of the work should be submitted.
