READ—the following paper :—

From the Rev. S. MORLEY, M.A., Bishop's Chaplain, to the Chief Secretary to Government, dated Coonoor, 28th August 1896, No. 1568.

I have the honour, by desire of the Right Reverend the Bishop, to represent, for submission to His Excellency the Governor, that there is urgent need of a suitable house at Wellington for the use of the Chaplain; and to request that, under sanction of paragraph 3 of Mr. Mackenzie's letter in G.O., No. 645 W., dated 16th March 1895, and G.O., No. 2431 W., dated 3rd October 1895, page 43 (n), the Government will be pleased to order the erection of a house at an early date.

2. The necessity arises from the following facts :—

- (i) The number of officers connected with Wellington cantonment is greatly in excess of the number of houses for their accommodation. The general and three other officers, viz., the Deputy Assistant Adjutant-General, the Head of the Commissariat Depot, and the Executive Engineer, Military Works Department, are obliged to live in Coonoor.
- (ii) Whereas Wellington was originally intended for a convalescent dépôt only, there has also been quartered there since 1884 a great part of a regiment; but new houses have not been built, only blocks of subalterns' quarters.
- (iii) Owing to the limited accommodation in the church the Chaplain has to hold a succession of service on the Sunday morning, including one at the hospital, occupying him from 7-30 A.M. till 1 P.M. There is no lavatory or bath-room in the church compound; and owing to the distance of his present house from the church, it has happened that he has had to give up a service in order that he might return to his house.
- (iv) His present house is most inconveniently small, having no dining-room and only two bed-rooms. Besides, it is not near either the church or the hospitals.
- (v) There is an excellent site for a Chaplain's house in the church compound, approved of by the two preceding Chaplains of Wellington, as well as by the present one, conveniently near to the hospitals as well as to the barracks.

3. The Chaplain states that the Engineer told him he could build the house for Rs. 15,000.
