also

Read the following paper :-

From the Commissioner of Police, Madras, No 86, dated 8th September 1896:-

Government in their order No. 1114, Judicial, dated 4th July 1896, were pleased to sanction the preparation of plans and estimates for the construction of a new Police station on Trivettore High Road, Washermanpettah. Since then I have learnt that the Regiment stationed at Washermanpettah will shortly be removed to Saint Thomas Mount and much of the land now in possession of the Military Department, will soon be available.

2. I have, therefore, the honour to request that the preparation of the plans and estimates above referred to may be deferred till such time as I am in a position to inform Government of a better site for the new Police Station than the one on which the Old Station is now situated. To build a new station on the present site will involve the demolition of the old building, stalls for horses and cattle pound, at a heavy expenditure and with loss to Government, as the materials would hardly fetch a couple of hundred Rupees, whereas if the new station be constructed on another and better site, the present building could be sold as it stands, for between 2 and 3 thousand Rupees.

3. A copy of this letter has been forwarded to the Consulting Architect to Government for information.
