Read—the following papers :—

From A. H. GARRETT, Esq., Executive Engineer, in Charge I Circle, to the Chief Engineer for Irrigation, dated Waltair, 27th February 1896, No. 2698 G.D.

With reference to G.O. No. 414 I., dated the 16th May last, I have the honour to inform you that a Committee met at Tumbur on the 2nd instant, to settle all matters connected with the water-supply to the Lingasamudram tank, Gódávari district, and I enclose herewith a copy of their Proceedings.

2. I request to be informed whether orders may be passed giving effect to the proposals of the Committee.

Enclosure.

Proceedings of the Committee appointed to settle the water-level of the Subbakunta tank in His Highness the Nizam's Dominions and the Lingasamudram tank water-supply held at Tumbur on 2nd February 1896.

* * * * *

It was unanimously resolved that the F.T.L. of the Subbakunta be reduced to 1′ below the platform of the present masonry sluice and a masonry bye-wash be constructed by His Highness the Nizam's Government at the western end of the above-named tank.

2. It was unanimously resolved that, if the ancient Tammiler anicut be reconstructed and the feeding channel leading to the Lingasamudram tank be restored, the channel should not pass through the irrigable lands below the Subbakunta in His Highness the Nizam's Dominions, and with a view of any suggestions to be made by His Highness the Nizam's Government, the designs showing the alterations, if any, be sent to His Highness the Nizam's Government, before undertaking the project by the British Government.

3. Resolved unanimously that no land in the British territory be irrigated in future by the Subbakunta tank water.
