G.O., No. 3004 *tc*

DATED 23rd October 1896

[Despatch Abstract.]

Office : Estimate of Rs. 9550 for On-
Structing an — for the Kistna North River
Division at Buckinghampett, Bezawada,
Sanctioned.

Estimate of Rs. 9,550 for constructing an — for the Kistna Northern division, at Buckinghampett, Bezwada, sanctioned.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers :—

From Major W. L. C. BADDELEY, R.E., Superintending Engineer, II Circle, to the Chief Engineer, Public Works Department, dated Bezwada, 6th July 1896, No. 869 K.N.

I have the honour to forward, for your approval and sanction of Government, a plan and estimate of Rs. 9,550 for the construction of an office for the Kistna Northern division in Buckinghampett.

2. At the time the office was located in its present building it was hoped that the arrangement would meet all requirements, but experience has shown that accommodation is required for the Head-quarters Sub-division office and more store-room for the Boat Superintendent's office, and the most convenient and economical way of doing this is to utilize the present Division office building. In this connection I forward a copy of a letter No. 74 S.E., dated 2nd May 1896, from the Executive Engineer, Kistna Northern division, and I quite agree with his remarks regarding the inconvenience caused by the distance between the residence of the Executive Engineer and his office.

The arrangement now proposed for the Division office, as shown on the site plan, is most suitable and will supply a great want.

The cost of the office should, I think, be debited to Provincial, and not to Irrigation, even if funds were available under the latter head; but this is not the case, as the whole of the provision in the estimate for "unforeseen works" has been used up owing to the large extension of irrigation that has lately been carried out.

From H. T. KEELING, Esq., Executive Engineer, Kistna Northern Division, to the Superintending Engineer, II Circle, dated 3rd October 1896, No. 398 S.E.

With reference to your endorsement No. 1168 K.N., dated 6th August 1896, on Chief Engineer's memo. No. 952 D., dated 1st August 1896, I have the honour to report that the foundations allowed for the Division office are the same depth as those allowed for the Kistna Eastern Division office, which is built on the same kind of soil that the proposed building is to be built on.

The trial pits are 6 feet deep and show sandy loam at a depth of 6 feet.

No. 1848 K.N.

Forwarded to the Chief Engineer, Public Works Department, with reference to paragraph 1 of memo. No. 952 D., dated 1st August 1896.

8th October 1896.

(Signed) W. L. C. BADDELEY, Major, R.E.,
Superintending Engineer, II Circle.

ORDER—No. 3004 W., dated 23rd October 1896.

The estimate, amounting to Rs. 9,550, for constructing an office for the Kistna Northern division, at Buckinghampett, Bezwada, is sanctioned.

2. The Superintending Engineer, II Circle, will report the amount that can be spent on the work during the current year.

3. The sanction accorded in paragraph 1 has been registered as Provincial No. 93 W. of 1896-97, and classified as Civil Buildings—Original Works.

(True Extract.)

Under Secretary to Government.

To the Superintending Engineer, II Circle, with seven enclosures.

Sir,

I have the honour to forward for your approval and sanction of Govt. a plan and estimate of Rs 9,500 for the construction of an office for the District Veterinary Officer, in Buckinghampett.

2. At the time the office was located in its present building, it was hoped that the arrangement would meet all requirements, but experience has shown that accommodation is required for the Head Quartermaster Sub Officer and more storeroom for the Boat Superintendents' Office, and the most convenient and economical way of doing this is to utilize the present division Office building. In this

connection

Connection I forward a copy of a letter
No 74 S.E. 2.5.96 from the Executive
Engineer Krishna Narayan B.A. and I
quite agree with his remarks regarding
the inconvenience caused by the distance
between the residence of the Executive
Engineer and his office.

The arrangement now proposed
for the S^d Office as shown on the site
plan is most suitable and will
supply a great want.

The cost of the Office should I think
be debited to Provincial, and not
to Irrigation, even if funds were avail-
able under the latter head; but this
is not the case as the whole of the
provision in the Estimate for unforeseen
"works" has been used up owing to
the large extension of Irrigation that
has lately been carried out.

I am the humble,
Sir,
Your most obt. Serv^t

W. B. Baddley
