FURTHER PAPERS.

Extract from letter of Lt: Colonel A.W.Smart R.E.Superintending Engineer on special duty Tanjore, No:624 dated 1st October 1896

1.

* * * * *

2. The Executive Engineer, Trichinopoly, has brought to notice that from the way the Coleroon is divided between three ... Districts, a continuous and methodical system of conservancy cannot be carried out. I would suggest that the conservancy operations from the Upper anicut to the Lower anicut should be placed under the charge of the Executive Engineer, Trichinopoly, and from the Lower anicut to the sea under the charge of either the Executive Engineer, South Arcot or the Executive Engineer, Tanjore. The charge of the banks may be left as at present.

No: 76 E.W., dated 9th October 1896.

Forwarded to the Chief Engineer, P.W.D., with the recommendation that the proposals therein made be sanctioned the charge of conservancy operations in the Coleroon river between the Lower Coleroon Snicut & sea being placed under the charge of the Ex-Engineer, Tanjore.

The application
of the S.E. IV circle
to purchase a copy
of the Jones' manual
was refused in this
office on 3505C of 3.10.20.

The reply says

I & III circles now offer
for permission to purchase
each a copy, & similar
applications from other
circles will probably
follow -

For orders whether
the refusal should be
reconsidered, & each
S.E. allowed to purchase
a copy, on the ground
of their being administrative
officers, vide
last clause of para 7
Appendix H. Vol I of the
code.

If sanction is

to be given, a \$0.00
be needed, and if the
refusal is to be main-
tained, the matter may
be disposed of by means -

no 3505C of 3-10-96
has been on precedent -
via no 3046 W of 27-2-88.

The price of the
present edition of the
book is \$6/8/- for
copy planned as for future.
proceedings.

Q
9-10-96

I think the book may
be added to the
the last part of the
of Appendix H. Vol 1
of O. N. Cor.
