From

J. C. Harrison Esquire

officiating Accountant-General to the
Government of Madras

To
The Collector of North Arcot

Leiz

ser,
I find that in 1892 a temporary currency chest was opened in your Treasury but owing to want of space it was subsequently closed. Its reestablishment is very necessary from considerations of resource; for the surplus which accrues during your collection season has to be drawn away to Madras, while I have to remit your money from here for about 6 months in the year to meet your requirements during the deficit months. The opening of a chest will enable me to retain in your Treasury the funds required afterwards. Thus not only will the expenses of remitting your surplus to Madras be saved but also that of sending remittances in aid of your Treasury. This double saving will amount annually to a considerable sum.

In the circumstances I have the honor to

request that you will be good enough to address the proper authorities on the subject with a view to your treasury accommodation being sufficiently enlarged before the next collection season. The initial cost of this undertaking should be more than covered by the annual saving to Government as pointed out above.

To The collector of North West.

Sir, With reference to your Refon. no. 2453 of 1896 of 25th July 1896, I have the honor to inform you that I have recommended to the Superintending Engineer that the defects of the present Huzar treasury building be remedied and that a separate building — measuring inside 31' x 12' be constructed adjoining and connected with the former.

2 In any case the work will exceed Rs 500 and orders of Government should be obtained to enable me to prepare necessary plan and estimate.

W. Harrison
Sir,

I have the honor to state that, in its
order (Public Works Department) No. 1471^x dated
8th May 1896, communicated with Board's Proceedings
(Land Revenue) No. 2614 dated the 8th June 1896,
the Government instructed the Superintending
Engineer, IVth Circle, to arrange for the early
execution of the requisite repairs to prevent
the leaking of the roof of the Huzur Treasury
building at Chittoor, but this has not yet
been done.

this treasury in 1892, but it was subsequently closed for want of space, and, in his letter No. $\frac{9.2.}{94}$ of the 12th May 1896 (copy enclosed), the Accountant-General intimated that its re-establishment was very necessary from considerations of resource and requested me to address the proper authorities on the subject with a view to the treasury accommodation being sufficiently enlarged before the next collection season. The Executive Engineer, who was thereupon addressed, informs me in his letter No. 578 D. dated 7th instant (copy enclosed) that he has recommended to the Superintending Engineer that the defects of the present Hugur Treasury building be remedied and that a separate building measuring inside 31' x 12' be constructed adjoining and connected with the former, and that, as in any case the work will exceed Rs. 500, the orders of Government should be obtained to enable him

to prepare the necessary plan and estimate. I request, therefore, that the Board will be pleased to move the Government to issue orders in the matter.

3. I may add that, pending the provision of the required additional accommodation, a temporary currency chest has been already opened in this Treasury under pressing orders from the Accountant-General, and that, by his directions, one of the two whole rupee chests is used for the purpose in disregard of the provision in note 1 to article 305 of the Civil Account Code.

I have the honor to be,

Sir,

Your most obedient servant.

To, The Secretary to the Commissioners
of Land Revenue Department
Madras

Sir,

In a letter dated 13th May last, the
Accountant-General informed me that he found
that he could manipulate funds with great economy
to Government by storing money at the District
Treasury here for supply to other centres, and asked
that I should obtain sanction to extend the Treasury
building, so as to provide accommodation to hold
not less than 10 Lakhs in whole Rupees in the temporary
Currency Chest opened here every year, under Article
625 of the Civil Account Code. I asked the Executive
Engineer early in June to meet me in the Treasury
to decide how the wishes of the Accountant-
General could be met. The Executive Engineer
proposed to meet me on the 1st July, but was
unable to do so. We, however, met on the 22nd Idem.
and decided on the exact mode and extent of
the additional accommodation required. As
the Accountant-General was anxious that

I asked the Executive Engineer
whether he would be able to do so,
and he informed me on the
6th August last, that he had directed
his Sub-Division Officer to prepare
an estimate. In a letter dated
the 17th instant, however, he requests
