188. The Governor in Council observes that the Executive Engineer's argument is not sound, watching being different from ordinary labour - An old man past work can do it, and would be glad of the money - The Executive Eng^r is directed to look for a pensioner at Chicasole for Rs 3 per month, and to offer Rs 5 per mensem at Lohagudi to a local man.

+ His Easy apparently waves
his objections to this item

2. The employment of a
watcher on Rs 4 per mensem
at Boirani is sanctioned.

Endorsement by the Superintending Engineer,
Circular, No. 688 G. N., dated 3rd October 1896 on letter
from the Executive Engineer, Ganjam Division, No. 3125,
dated 28th September 1896.

FOR ORDERS.

Mr. De Morgan's argument is not sound.
Watching is different from ordinary labour.
An old man with eyes can do it, and we
be paid of the money. Let a pensioner be
looked for at Chikachik, for Rs. 3 per
month. Let Rs. 5 be offered at Loh.
- (under) to a local man. However, on
of the O. P. W. will perhaps want more,
but why employ them. In the present
time of scarcity, wages should be
abnormally low.

Submitted with
reference to His Excellency's
note dated 2nd September
1896 on the draft order
in the file. Under the
explanation afforded
by the Executive Engineer,
the charges may, it is
submitted, be passed.
The Executive Engineer
states that he cannot
reduce them, and that
he appreciates the
necessity for economy.
I have no reason ^{whatsoever} to
doubt his statement.

Sir,
With reference to your No C 204 dated
19-9-96, I have the honor to inform
that I cannot obtain watchmen
less wages than I have already paid
at Chicacole, I have already
explained that the Railway has
raised all prices..

There is very little to choose between
Boirani and Lohagudi in point
of healthiness. I must respectfully
point out - " " 203 her memo.

lonely and unhealthy place for a
less average rate of payment than
he can obtain elsewhere. I am fully
alive to the necessity of strict
economy, and am doing my best
to enforce it, but I must represent
that the rates I have proposed are
minima' and I do not see any way
to reduce them.

I have the honour to be,
Sir,
