SIR,

In reply to your letter No. 433 M., dated 16th October 1896, and telegram No. 462 M., dated 2nd November 1896, I am directed to forward the statement of expenditure on stores for 1895-96, completed as far as possible.

2. The English cost of certain articles has not been entered in the statement, their prices being unknown, and it is not possible to give even their approximate value, as the weight in each case has not been reported by the Superintending Engineers concerned. 3. A memorandum giving the substance of the reasons for sanctioning the local purchase, prepared by the Examiner, Public Works Accounts, is attached to the statement.

Note

In returning the statement of expenditure on stores for 1895-96, the Government of India draw attention to paras 2 and 3 of their letter No. 1280 dated 12th January 1886 and the requirements of these paras have now been complied with by the submission of a memo giving the substance of the reasons for sanctioning the local purchase. Vide para 3 of the letter to India. The statement is however incomplete as it does not give the English price of certain articles. The Government of India has not noticed this omission and if it is to be supplied, information will have to be obtained from Superintending Engineers and this will entail much delay. As the Government of India has sent

a telegraphic reminder
for the return, it is proposed
to forward the statement
without the English price
being entered in a few cases.
