Estimate of Rs. 4,650 for sinking a new well in the —, in the South Canara district, sanctioned, and the amount appropriated from the Provincial reserve.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads,
Civil Works.

READ—the following papers:—

From J. HANNAN, Esq., Superintending Engineer, IV Circle, to the Inspector-General of Prisons, dated 19th October 1896, No. 414/M.

With reference to G.O., No. 2062 W., dated 16th July 1896, I have the honour to forward, for your approval and transmission to Government, for sanction and provision of funds, a plan and an estimate, amounting to Rs. 4,650, for sinking a new well, 18 feet diameter, with the old iron gratings fitted in the Central Jail at Cannanore.

2. An estimate for another well will be prepared, if, after the sinking of the well under reference, the supply of water is found to be insufficient to the requirements of the jail.

Copy forwarded to the Chief Engineer, Public Works Department, for information.

(Signed) J. HANNAN,
Suptg. Engineer, IV Circle.

From E. H. GADSDEN, Esq., Acting Inspector-General of Prisons, to the Chief Secretary to Government, dated Madras, 29th October 1896, No. C./1132.

At the request of the Superintending Engineer, IV Circle, I have the honour to transmit, for the approval and sanction of Government, a plan and estimate, amounting to Rs. 4,650, for sinking a new well in the Central Jail, Cannanore.

2. The preparation by the Public Works Department of these documents was authorized by Government in G.O., No. 1046, Judicial, dated 20th June 1896.

No. 2276, Judicial.

Approved and transferred to the Public Works Department.

FORT ST. GEORGE,
6th November 1896.

(Signed) W. FRANCIS,
Acting Under Secretary.

From J. HANNAN, Esq., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 14th November 1896, No. 574/W.

In inviting your attention to my letter No. 414/M., dated 19th October 1896, copy of which was sent for your information, I have the honour to request you will be good enough to obtain early sanction of Government to the estimate of Rs. 4,650 for sinking a new well in the Central Jail at Cannanore, as the work is reported by the Superintendent of the Jail to be urgent.

ORDER—No. 3520 W., dated 8th December 1896.

The estimate, amounting to Rs. 4,650, for sinking a new well in the Central Jail at Cannanore, in the South Canara district, is sanctioned and the amount is appropriated from the Provincial reserve.

2. The countersignature of the Inspector-General of Prisons to the plan and estimate should be obtained before the work is commenced.

3. This sanction has been registered as Provincial No. 123 W. of 1896-97, and classified as Civil Buildings—Original Works.

Note for His Excellency the
Governor.

With reference to His
Excellency's remark dated
28th November 1896 on the
accompanying draft order,
it is submitted that an
allotment was proposed
to be provided in this
case, as the Superintending
Engineer IV Circle applied
for early sanction to the
estimate, and stated that
the work had been reported
by the Superintendent of
the jail to be urgent
vide Superintending
Engineer's letter No. 574 W
dated 14th November 1896.
(Flagged D).

The Estimate and works are
sanctioned.

NOTE BY TECHNICAL SECTION.

Name of work

Sinking a new well in the
Central Jail at Cannanore.

Amount of Estimate Rs 4650.

The plan & estimate under review amounting to Rs 4650, have been framed with reference to Gov. W. 2062 W dated 16th July 1896 and provide for sinking a new well in the Central Jail at Cannanore.

The Jail at present is reported to be supplied with water by 4 wells Nos. 1 to 4, as shown on site plan. The lower sinking of wells Nos. 2 & 3 are stated to have collapsed on account of the soft clayey soil, an attempt was made to underpin well No. 2, the work had to be abandoned, as it was considered dangerous and well No. 3 was therefore blocked up by the Jail Dept.

A new site is now proposed near the messes shed, this site, it is reported has been approved by the Jail authorities. The depth of the proposed well will be 80 feet & it is stated in the report that

This depth might be reduced should a reliable spring be met with at a lesser depth.

The soil is noted on the plan to be gravel and stone for a depth of 57 feet and below this clayey mixed with water.

The well will be made in two sections and excavated to a depth of 60 feet. The stemming of the lower 20 feet in clayey soil will be of hard latenti masonry in surki mortar $1\frac{3}{4}$ feet in thickness & 17 feet interior diameter with alternative stemming of dry stone packing in sand and in cement as per section on plan & with backing of 6 inches broken stone & gravel to the whole depth, above this stemming the well will be 18 feet in diameter for the remaining depth of 60 feet with stemming 18 inches thick and built with latenti in surki mortar for 30 feet and above with latenti in mortar.

Provision has been made for cedar wood ^{curbings} 4 1/2" in depth, laid in 3 layers of 1 1/2" thick & fixed in position at bed of well by 1" iron bolts with washers & to the masonry stemming.

The existing iron grating to be fixed over the well with new venger beams & a wooden derrick.

The rates are fair, vide date bids submitted.

The plan & estimate have not been

Countersigned by the S.G. of Prisons, they are however approved in the Judicial Dept.

Thos.
24. Nov. 96

As the estimate may be sanctioned the countersignature of the S.G. of should be obtained.

Sanctioned
