Report to accompany the revised
estimate for constructing sluices along Dorapad
pad 446 Et Rs 14¹⁰/₃₀

In G.O. No 6498
24-7-93 Estimates amounting
to Rs 530 were sanctioned for providing
certain pipe sluices for Dorapad channel.

2. In order to prevent the ryots from tam-
pering with the sluices and facilitate regulation,
revised designs have been prepared allowing
for screw gearing shutters.

3. The sanctioned pipe sluices at 9/5 and 12/2
were intended to give a separate source of supply
to the high level bothies branching from
Ravulapad and Jorinapad channels respec-
tively but in order to avoid extra offtakes
from the main channel it is proposed instead
to provide sluices to the branches themselves
which will enable water to be held up for the
high level lands when required.
