Copy of Memorandum no: 1212 of 25th
July 196 from the Superintending
Engineer IIIrd Circle Bellary to the
Executive Engineer Gadagah Division.

With reference to his letter no: 125 of 13.7.96, the attention of the Executive Engineer Coosapah Division is drawn to para 82, Chapter II Vol II of Government of India Code and he is informed that he should recover 10 percent on the value of Tools sold to the Local Fund Department to cover supervision, storage and contingencies.

The Executive Engineer Bellamy
division who has sold similar tools
at the same rates as those commu-
nicated to him, to the Local Indian
Engineers, Bellamy has received
the above percentage.

PRESIDENT,

DISTRICT BOARD,

CUDDAPAH.

CUDDAPAH No. 2809

To

The CHIEF SECRETARY TO GOVT.,

LOCAL FUND DEPARTMENT,

FORT SAINT GEORGE.

Sir,

I have the honor to submit for the orders of Government the following case of a demand made on the District Board of Cuddapah by the Superintending Engineer IIIrd Circle, in the matter of certain tools purchased from the D. P. Co for the use of the Local Fund Board.

In October last the Superintending Engineer IIIrd Circle of his own motion informed me by his letter No: 2283 that these
14.10.96

was a "large surplus" of Mamooties
and pick-axes in his circle and
wished to know if any of them &
if so how many of each were required
and added "a fair valuation will
be fixed on receipt of the information".

In a subsequent letter no: $\frac{2677}{22.11.96}$
he fixed Rs 10-8-0 and Rs 9-12-0
per dozen of pick-axes & Mamooties
respectively which rate was considered
fair by the Local Fund Engineer
and 450 of each kind was ordered
for the use of this Board. The
amount as per rate let for the above
was also paid on 14.9.96 and accounts
cleared.

Subsequently on 6th
August 1896 the Executive Engineer
Buddapah Division in his letter
No: 1099 demanded from the
Local Fund Engineer a sum

3/

sum of Rs 75-16-0 being 10% of the
value of tools purchased according
to the rates agreed, and forwarded
in support of this charge a copy
of Memorandum from the
Superintending Engineer IIIrd circle.
No: 1212 dated 25th July 1906. The
Memorandum bases the demand
on para 82 chapter II Vol: II of
Government of India Code and
states that it is "to cover supervision,
storage and contingencies." Again
on 9th September 1906, the Superintending
Engineer forwarded a copy
of a letter from the Examiner of
Public Work Accounts intimating
that 24 1/2% is the appropriate
rate for this Presidency according
to G. O. 884 W dated 30.3.93
which does not seem to have been

The amount sent
24/10/96

communicated to this District.

I take objection to the demand of both of 10 + 24 1/2% on the following grounds + submit the matter for the decision of Government.

This is not a case of the Local Fund Department seeking the help of the D.P.W. to get articles for use, in which case it would be quite justifiable that the latter should get the charges of "Supervision storage + Contingencies".

In this case the D.P.W. had a large surplus of tools much above the requirements for the department were lying idle in their Godowns + perhaps also rusting + deteriorating. They wanted to dispose of these useless articles and found on enquiry

a market for the same in our Bazar, having promised to sell them at a "fair valuation". The "fair valuation" having been fixed + agreed to by both parties, it seems difficult to justify an extra demand for "storage, Supervision + Contingencies".

The Public Works department helped themselves in clearing their stock of all useless + superfluous articles, + if they incurred charges for "storage, Supervision + Contingencies," it was certainly not for the benefit of the Local Fund Department.

Again if the Local Fund Boards did not require these articles and no other Government department under them they would have been sold by Public auction being surplus

There is no reason why the purchaser by private agreement should pay over & above the "fair valuation" agreed to by the parties. The addition of these charges might probably raise the price higher than what the articles could be got for in the market.

otherwise & the rule applies to
cases like the present also. I
respectfully submit that the
rule itself requires alteration
as it does not seem to be based
on any intelligent principle.
Copies of the correspondence
referred to above are submitted
for perusal.

your most obedient
P. Dace & Co agents
