Letter from the Executive Engineer,
Kistna Northern Division, to the Superintend-
-ing Engineer, Circle, No 539 S.C. 97 15th Jany 96.

Pyonk No 1763 K.S. dated 18th November 95
Para 4 of G.O. No 2669 W, dated 25th Octr 95.

I have the honour to report that I am of opinion that the adoption of the Deputy Examiner's proposals would be a retrograde movement and result in increased cost of production in the Work-shops.

It is only by watching and investigating the cost of production of individual jobs that the efficiency of the workshops can be judged and irregularities checked; by the proposed system of lumping the transaction of the year into one account to be balanced yearly all kinds of frauds and malpractices would become possible and there being no constant check on the cost of production, the outturn would, I am convinced be injuriously affected.

2. The result of working the Saw-pit account

account on a System of a yearly check has resulted in a deficit of over Rs 10000/- and the result of Conducting as proposed all the Workshop's Operations on such a System would be, I believe, still more disastrous.

No. 2169 KS / 21.1.96 Forwarded to the Chief Engineer, Public Works Department, in reference to para 4 of G.O 2669 W of 28th October 95.

2. The undersigned is convinced that no practical advantage would result by the adoption of the Deputy Examiner's proposals & strongly recommends that the present practice of accounting for Jobs be adhered to in the Bezwada Workshop.

3. Captn Ellis' argument at re-gards the Sawpit account is un-answerable and it is based on very recent experience. W.M. Barbellion Major R.E. Superintending Engr, Circle.
