Relief Kitchen at Adoni.

Authorizing the Accountant-General to place Rs. 3,000 at the disposal of the Collector of Bellary for opening a —.

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

Read—the following paper:—

G.O., Mis. No. 4816, Revenue, dated 26th November 1896.

Read—the following papers:—

Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 8th November 1896, No. 356.

Read—the following letter from R. H. CAMPBELL, Esq., Collector of Bellary, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated 12th November 1896, Ref. on C. No. 2751:—

I have the honour to report that I have, in anticipation of the Board's orders, sanctioned the opening of a relief kitchen in the town of Adóni. I have heard demi-officially to-day from the Deputy Collector of Adóni that a kitchen is urgently needed for the poorer classes of the population of the town. Relief to weavers has now been actually started at Adóni, and section 66 of the Famine Code recognizes the necessity for kitchens in connection with all large relief works. The relief work at Adóni will certainly come under the category of large works though restricted to the weaving class only.

2. The Deputy Collector, who is also Chairman of the Adóni Municipality, has already started municipal road works to provide employment for the labouring classes of the town. He informs me, however, that these works do not afford sufficient employment to the people and requests my sanction to his opening a test relief work in the town. He has already sent me a programme of such works for which estimates are ready, and I have now given him permission to start one of these works as a relief work under municipal supervision whenever he may find it necessary. Of the test relief works which I have already ordered to be opened the nearest to Adóni is at Harivanam about 12 miles away. This is too far from Adóni to be of much use to the labouring classes living in the town.

3. I have asked him to submit a full official report both about the test relief work and the relief kitchen previously mentioned so that I may apply at once for the necessary funds. At present the municipality has a few thousand rupees with which to open the relief work. As regards the kitchen I request that a sum of Rs. 3,000 may be placed at my disposal as a preliminary measure pending the submission of detailed proposals and estimates of expenditure on kitchen relief. Kitchens will, I anticipate, be required shortly in several parts of the district, and I have some time ago called on all my Divisional Officers to submit proposals and estimates for the same.

4. I regret the necessity which compels me to apply to the Board for piecemeal allotments in this way, but the Board will, I am sure, understand that it is impossible at present to submit the detailed application for funds specified in section 38 of the Famine Code. I hope to be able to do this by the end of the current month.

Resolution—dated 18th November 1896, No. 356.

The Collector's action has the approval of the Board, but admission to the kitchen of others than the children and infirm dependants on the weavers who are being relieved must be most carefully scrutinised by the Divisional Officer, so that no one, professional beggars and others, who are capable of labour on works, receives gratuitous relief without due cause.

2. It will be pointed out to the Collector that, as he has done at Bellary, it will be advisable not to open a test relief work quite close to the town of Adóni.

Copy of endorsement of the Collector of Bellary, dated 18th November 1896, Ref. on C. No. 2868 of 1896, on letter from the Deputy Collector of Adóni.

Submitted to the Board of Revenue, in continuation of this office Ref. on C. No. 2751, dated 13th November 1896. The Board is aware that distress is very acute in Adóni and that the opening of a kitchen was a necessity. The admissions to the kitchen relief are, it will be seen, almost entirely confined to children, and I do not think that the Deputy Collector's estimate of the numbers that will require to be fed monthly is over the mark. The kitchen is, in fact, the inevitable sequel of the opening of a large work of relief to the weavers of the town and will have to be kept up as long as that relief is continued, *i.e.*, for five months at least. If we get rain in May next, relief operations can probably be discontinued. An allotment of Rs. 2,500 × 5, or Rs. 12,500, will thus be necessary. I am asking the Deputy Collector to report whether any of the children now being admitted to the kitchen are over seven years of age and whether the provisions of section 64 of the Famine Code are being strictly enforced in making admissions. I have already applied to the Board for a provisional allotment of Rs. 3,000 for this kitchen and shall apply for a further allotment on receipt of the Deputy Collector's reply.

The kitchen is, in fact, the inevitable sequel of the opening of a large work of relief to the weavers of the town and will have to be kept up as long as that relief is continued, *i.e.*, for five months at least. If we get rain in May next, relief operations can probably be discontinued. An allotment of Rs. 2,500 × 5, or Rs. 12,500, will thus be necessary. I am asking the Deputy Collector to report whether any of the children now being admitted to the kitchen are over seven years of age and whether the provisions of section 64 of the Famine Code are being strictly enforced in making admissions. I have already applied to the Board for a provisional allotment of Rs. 3,000 for this kitchen and shall apply for a further allotment on receipt of the Deputy Collector's reply.

Proceedings of the Board of Revenue (Revenue Settlement, &c.), dated 21st November 1896, Mis. No. 5869.

Order—Mis. No. 4816, Revenue, dated 26th November 1896.

Recorded.

2. Orders will issue in the Financial Department for placing Rs. 3,000 at the disposal of the Collector of Bellary.
