Letter from H. T. Keeling Esquire, Executi Engineer, Kistna Northern Dn. to the Supg: Engineer II Circle, dy 29th November 1896, No. 544 S.E.

With reference to your No. 42 G.L. dy 21st Inst: communicating Memo: of the Chief Engineer for very early submission of a list of works which can be postponed and the amou that can be surrendered on each, I have the honour to state that I can surrender at once Rs 4000 from the Church Rs 1,000 recently asked to be transferre from Cutcherries to Narasarowpett District Munsif's Court and Rs 700 asked to be transferred from the same source to the repairs to warders lines Guntur Jail. More I cannot at present surrender without enquiry into liabilities occurred which enquiry is being made. The total now surrender is Rs 5000, but I hope it will be understood that the surrender is only made under orders to do so and that if, before the expiry of the official year I am required to resume the grants, I shall not be able to do so entirely and that the amount that could be resumed will depend on the notice given.

2. In addition to Rs 5,700 now surrendered Rs 2300 have already been surrendered in this office application d/ 18th November 96 and the total surrender from the Kistna Northern Dn is Rs 8,000/-

3. The favour of early orders is requested, for it will not be possible to fully spend these grants if they are again placed at my disposal late in the year.

4. It may be observed that quite recently my attention has been called to the necessity of fully spending all grants on Civil Buildings, while before the receipt of that order, I was directed to arrange to surrender as much as possible under the same head.

1. This form should be used by the Executive Engineer or the local Government in any of the following cases:—
   (*a*).—When a grant, or an addition to an existing grant, is required for carrying on a sanctioned major work.
   (*b*).—When a grant for a work is found to be in excess of requirements, and it is proposed to resign it, either wholly or in part.
   (*c*).—When it is proposed to utilize the grant for one work upon some other.
2. Either of the columns for "Proposed new grant" or for "Proposed reduction," or both, may be used as required.
3. If it happens that the grant already allowed has been reduced, the entry in the column "Existing grant for current year" would o course be the amount less such reduction.
4. In the case of Irrigation works, the entries in the column "Departmental and service head" should show distinctly whether the proposed re-appropriation is debitable to Capital or Revenue, and the entries in the column "Works" should be so arranged as to show the project to the Capital or Revenue account of which the charge is debitable, and the class of service to which the charge is debitable, thus:—

Copy of letter from J. H. Somers per
Executive Engineer Bellary Divisional
to Lieut J. Kelly Assistant Engineer
No 1792 Dated 20th April 1895.

Has the honour to inform him that he had no right what ever to proceed to Bellary without permission. Mr Kelly was detailed to the Sanguar Project, and he will remain on it until he has permission to come off it. The "Explanation to be given personally" about the plans could have been done by means of a report. Mr Kelly will now explain how many days he" was absent from his work, & the undersigned will then deal with the matter.

The undersigned has no intention of returning to Bellary.

Mr Kelly's excuse of stopping in

no either office could tell.

llary until the bank is open, is ted, & will be further commented on.

Mr Kelly will now proceed to Check all the B. Nos he can find, reporting every three days the work done each day. He will send in a similar report from the 1st day he started work up to date.

Siruguppa are the present head quarters of the Asst Engr.

Mr Kelly is entitled to one Lascar who he may appoint on Rs 6.

He can also employ monthly men on Rs 6 per surveywork.

After he has Checked the B Nos he will have some knowledge of the Channel he will submit a report on it giving his opinion freely as to what course should now be taken to put the project into proper shape for submission of detailed plans and Estimates.

Mr Kelly should fully appreciate the fact that he has been sent to the undersigned with anything but a satisfactory Character. It remains for him to redeem it by good solid hardwork when he will find that the Ex: Engr will take but little notice of any previous remarks. The Exe: Engr however is determined to obtain work from his subordinates or to make things unpleasant for others.

The Sagar Channel appears to be a very interesting & promising work, and Mr Kelly has a grand chance of re-establishing his reputation, a result no one will

be

be more glad of than the undersigned.

The Executive Engineer
Bellary Division

Sir

Referring to your No $\frac{1792}{20-4-95}$ received on the 28th inst. I have the honor to explain as follows.

I On leaving Trichinopoly I received a months pay as an advance out of which I paid over Rs 225 for rail fare alone leaving but a small balance for myself and family to subsist on till my next months pay was drawn.

II On reporting my arrival the accountant shewed me a note from you to the following effect "If Mr Kelly arrives "before my return hand him the Surgur "papers to check B.Ms"

III On receipt of the papers I enquired in S.E's Office as well as E.E's where the Surgur account was but not one in either office could tell

in conict
man sold
states
did so

I thought my contractors would know or
be able to find out so told them to
take me to Soogur they brought me
to a village near Soda Soogur
called Bogawada which I learned
on enquiry not was at the East end of that
channel for which portion the plans
were missing. Not wishing to go back
after travelling such a distance, I
asked the Kurnam of the village to
point out the fields through which
the proposed line would pass. and I
followed after him levelling.

perfectly useless & a mere waste of good time & money
JR.

In this manner I got over the fields
of two villages but when I came to the
3rd village the Kurnam said he
could not point of the line, this
was on the 11th ultimo by which time
I had spent the little money I had in
paying for coolies and cart men and
not having received no salary for the
previous month and the Easter Holidays
being on I returned to Bellary which
I considered as my Hd Qrs (and was so
shown in the previous months Journal
to which no objections was raised) to
draw my pay, get an Imprest and at the
same time consult the Ext Engineer
regarding the missing plans.

Why

✓

I was in camp in the Anantapur Dist- & had been, which records easily have ascertained.

✓

On the 13th ultimo I received a Cheque for
my pay and Imprest but owing to
the Bank being closed I had to wait
till the 17th idem the Bank opened on
which date I paid what was due to
survey coolies and started for Soogur
and commenced checking B. Ms [illegible]
I had completed the work around

✓

On the 28th I received the above memo
fixing my Hd Qrs at Seringapatam
from which date I have considered it so

I noted the B. Ms on the four sheets of tracing given to me by the Accountant and returned the sa with this office No $\frac{15}{13.5.95}$. If you will please return them I will out a list of B. With regard to going on furlough I have not the least objection to going but it is a question of means as to how I am to support a wife and nine children on the small balance of furlough pay that will be left after paying the 2nd instalment towards the advance received. However since it is your wish that I should go on furlough I herewith enclose my application for the same which please forward on with your favorable recommendation.

With reference to your No. 2618 dated 18 November 1896, I have the honour to forward a re-appropriation statement. I think it may be advisable to give up Rs 5000 on Madakasira, as the wood work Contracto has given much cause for delay. The *actual* Contractors (i.e. the Capitalists) are now on the work, and I trust will push things. The police station at Adon is in a very cramped position, and quick work is difficult, except at prohibitive rates.

Sir,

Before replying to your No. 834 forwarding Executive Engineer's No. $\frac{5302}{2-11-95}$ I shall quote a few orders of Government laid down for the guidance of all.

Remarks made by Lieut Mildred Ex. Eng & S.D.O.
Quite so!

I "Executive Engineers are responsible for the "good quality of all work done under their "orders and cannot without proper authority "transfer to any one the Executive charge "entrusted to them — Vol 1, Chapter VIII para 80"

No one said they could!

II "No person below rank of an Executive Engineer "can accept, or cancel a contract vide para 8.

III "Before giving work on contract the Executive "Engineer shall prepare contract documents "~~to~~ include complete set of drawings specifi-"cation ~~&c~~ vide para 13 and Clause 1 to 4 ~~vide para 13~~

Yes.

3. to make remarks nor was I to give || W

orders to dismantle bad work ~~at~~ without first obtaining your Approval.

4 Considering I had works in three talugs to go over (and now four) you know that it is impossible for one person to be every where, at the same time, and as I cannot be every where at the same time I ask you wheather it is reasonable that I should be answerable for Mistakes made by a maistry or Contractor when I am miles away.

Yes. I am not an idiot I hope.

Mr Kelly was I believe at Anuppe while the concrete was being laid or just before, & his progress reports may show this.

5 When I find anything being done Contrary to plan, specification or Estimate I bring the matter to your notice (Vide case rule and [illegible])

For instance I brought to your notice that stone in mortar was being used for school House for which Estimate provides stone in clay. You said that the Estimate was incorrect though it is written plain.

My copy of Estm shows in Detail Estm "Cutstone in mud for foundn" which is an evident mistake. whereas the abstract shows "C.R. Stone in chunam for foundn & ba of School Hou

6 I find the Estimate provided for certain portion of foundation to be of Concrete but the plan shows the whole to be of Concrete and I brought it to your notice and after the maistry showed the plan ~~to you and~~

~~and~~ you told him to go on with the work || this preventing me from having it taken up and at the same time ~~from me~~ for me to understa you approved of what was done, and after reported me.

don't understand.

I approved but had no power to sanction the deviation I did not report you!

7 In my Tenday Report from 1st & 10th Oct you remark against "Tadpatri Cutchery" "bad work". If the work was bad why not || order it to be taken up and remove and have the Contractor fined. The bad work you meant, was that bricks were not laid flat over terrace bricks and Surki was not used in the terrace. Now this is Contrary to the general specification. Although such is the Case had you given the order it would have been Complied with. Not finding such an order I asked you to quote your No. to which no reply was given.

This is cheek!

No. it was not The bricks were not soaked properly before use. You were present when the Exec. Engr inspected the work at Gooty & must have known that Surki was to be used.

I find now that on the 11th of October/95 you have written in the order Book "From this date bricks are to be laid flat over your terrace bricks on edge & Surki mortar used".

Then you did not take the trouble to read the order book before?

Instead of tiles as done at Gooty

This rambling letter is apparently an answer to a memo from the Divn. Office, asking why Mr Kelly shd not be called upon to pay for a supposed excess due to ~~a sup~~ an alleged mistake in carrying out founds.

It appears from the SDO's report that the plan had been altered but the Estimate had not.

There is no excess, but a saving.

All Mr Kelly had to do was to point this out instead of sending up a somewhat impertinent letter of this description.

The matter may be dropped.
