READ—the following papers :—

From S. D. PEARS, Esq., Superintendent of Works, No. I Periyár Division, to the Chief Engineer for Irrigation, dated Periyár, 26th March 1896, No. 237 C.E.

I have the honour to submit, for the sanction of Government, a revised estimate, with comparative statement, for annual repairs to floating plant, 1895-96. The amount of revised estimate is Rs. 8,000 against Rs. 7,100 original, and the excess is due almost entirely to the wooden barges having been originally constructed with green unseasoned planking requiring incessant caulking and renewal. On the steam launches, the steel barges and the steam dredgers, the expenditure has been considerably below the estimate.

Office-note to the Examiner, Public Works Accounts, dated 9th April 1896, No. 150.

Please let me know what outlay has been incurred against the estimate of Rs. 7,100 sanctioned in G.O. No. 587 I., dated 29th July 1895, and whether a completion report has been submitted for the annual repairs.

(Signed) F. J. WILSON,
for Chief Engineer for Irrigation.

Office-note from the Examiner, Public Works Accounts, dated Madras, 14th April 1896, No. 1048 D./A.

The outlay to end of February 1896 (the latest month for which accounts have been received) is Rs. 7,838-7-4, and the excess over the estimate is reported in the Provincial Objectionable Item statements.

2. No completion report has been received up to date.
