GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

From the Venerable W. WESTON ELWES, M.A., Archdeacon of Madras, to the Chief Secretary to Government, dated 23rd October 1895, No. 2325.

I have the honour to enclose a letter from the Rev. James Sharp, Chaplain of St. John's, Bangalore, to the Right Reverend the Bishop, dated 18th October 1895, and to request that Government will be pleased to sanction the enlargement of St. John's Church, Bangalore, by the addition of a portico, two vestries and a chancel at a cost of Rs. 7,646.

2. The Right Reverend the Bishop approves of the proposed enlargement.
3. The plans and estimates have been prepared by Major Badgley, R.E., of the Military Works, Bangalore Division.
4. The required sum has been deposited in the Mysore Government Savings Bank to the credit of the Enlargement fund.
5. The plans and estimates in a sealed case accompany this letter.

ENCLOSURE.

From Rev. JAMES SHARP, Chaplain of St. John's, Bangalore, to the Right Reverend the Bishop of Madras, dated Bangalore, 18th October 1895.

I have the honour to forward plan and estimate (under a separate cover) for the enlargement of St. John's Church, for your Lordship's approval and submission to Government for sanction. They have been prepared by Major Badgley, R.E., the Military Works officer of the Bangalore division, who is also one of our Lay Trustees.

The proposed enlargement consists of a portico and two vestries, at the west end, and a chancel.

The estimated cost, according to Military Works rates, is Rs. 7,646. This amount is on hand, and is lodged in the Mysore Government Savings Bank to the credit of the Enlargement fund.

In anticipation of sanction, the committee propose that the foundation stone of the chancel be laid during your Lordship's approaching visit to Bangalore.

I approve.

MADRAS,

MILITARY WORKS.

To

The Chief Engineer,
P.W.D., Madras

Military Works Department

Sir,

Dated 1st January 1896.

With reference to your telegram
dated the 29th instant, I have the
honour to report that the soil in the
foundations for the additions to St.
John's church is the hard red soil,
common here. It is the same
from the surface to a considerable
depth, and is capable of supporting
great weights.

Current No. 8794,
Letter No. 2694,
Dated 8th November 1895
From the Secretary to the Dep.

TECHNICAL NOTE

Name of work *Enlarging St. Johns Church
at Bangalore.*
Amount of Estimate *Rs 7646*

The plans & estimate under re-
view have been drawn up by Major
Badgley R.E. of the Diocesan Works
Dep^t and provide for enlarging
St. John's Church at Bangalore.
In the report attached to the es-
timate, it is stated that the
Church is very inconveniently
crowded, especially at Sunday
evening services. The estimate
therefore provides for enlarging
the same, as per plan submitted.

The extension consists in removing the existing arch between the body of the church & the chancel together with the side walls of the two vestries so as to throw out the space thus obtained into the body of the church for additional accommodation & build a new chancel at the east end 32' x 23' inner dimensions, of which 9 feet will form the sanctuary & the remaining portion towards the body of the church to contain the choir.

which he cannot but
be the chief worker.

Dept. at Bangalore.

Does this allotment

from Provincial funds

appear in the breast
of the cancerous all be

Spent within the year

If funds are given

the address for the two girls' things
best place

Thus a comparison which it is
proposed to be

I do not know what the

present channel is like - It is not

known as the plan. And it is to
clear that the Cherokee will have

require accommodation than it had
before

The existing vestries which are
the demerited are to be removed
to the west end of the church &
built on each side of the tower,
each 12'6" x 11'6" with a new
carriage porch in front 18'0" x 12'8".
The small existing southern porch
is slated to be practically useless.

The extensions are to be in keep-
ing with the existing structure
except that more ornamental
trusses are now proposed to the
chancel than the body of the church
& to marble floor in chancel.

The nature of soil has not
been reported.

The foundations are proposed
to be sunk 4 feet deep, the lower
one foot to be laid with concrete &
the upper 3 feet in two footings
built of concrete rubble in mortar
2^d class. The basement is to be
raised in varying heights owing
to the slope of the ground & the
superstructure walls as per heights
indicated in the estimate & built
of brick in chambers with arch:
work over doors windows & the
walls plastered both interior & ex-
terior with 3 coats of best shell
lime polished. The floor of the
chancel is to be of marble stone
laid over 3" of concrete & the ves-
tries & extension of the body of
the church with stone slates set
on 3" of concrete & painted with
cement. The roof is to be of flat
& port tiles laid over teak rafters
rafters, purlins &c. & supported
by ornamental trusses. The
doors & windows are to be of the
description noted in the estimate
of teakwood & painted with 2 coats

where do they exist?

of which we have
no plan

clothes
12/96

Costs of Chanting Silenti pains
The calculations for roof
timbers in chancel are stated
to have been prepared by Major
Love R.L. with his diagrams
& calculations as to stress,
wind pressure &c. attached.

The section proposed for the
new vestries & chancel
appear to be slightly weak viz
3" x 4 1/2" against 3" x 6 1/4" required.

The ratios are fair.

Concrete foundations to be
laid in this case, it is sub-
mitted, will not answer owing
to the slope of ground, unless
laid in steps.

The plan & estimate have not
been countersigned by the Ven.
the Archdeacon of Madras, but
they have been forwarded by
that officer for the sanction of
Govt. with the remarks that
the Rt. Rev. the Bishop approves
of the proposed enlargement of the
church & that the sum required
for the extension has been de-
posited in the Mysore Govt. Sav-
ings Bank to the credit of the
enlargement fund.

The estimate has been ap-
proved in the Ecclesiastical
Dept.

on

The works will be 15. XII. 95
a contribution over

12/96

Cr 8794

no funds have been
provided for the extension
Govt. for the enlargement
of the church
Mysore

The Govt. has refused
to sanction the grant of
public funds for the purpose
here, & the congregation
has now raised the
required amount by
subscription apparently.

The only allotment
made of late years for
Govt. churches out
Mysore, have been
for repairs. The sum
thus granted is provided
annually in the V. W.
Provincial Budget, &
placed at the dis-
posal of the Eccl. Serv-
icing Works.

Cr
26.12.95

In the report it is stated
that a new grant will have
to be provided: but such a
statement can not be
accepted without an explana-
tion of the necessity for
such a provision.

(5) We know know something
as to the nature of the soil
but whether it may be
sufficient for the purpose
is here to be insufficient.

(3) There is no section of the
ground to show its inequalities
and consequent necessity
for building the basement of
at varying heights.

If you have any remarks
there please enter them
in the half register.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following

Endorsement in the Ecclesiastical
Dept in letter from the Archbishop
of Madras N^o 2325 d/23rd Oct 1895. (H. E. N^o 2694 d/18 Nov 95)

Letter from the Ex. Eng^r, Bangalore
Mission, Military Works (" " 256 d/24 Jan 96)

Letter from — do — do — do (— " 350 d/1st Feb. 96)

Note by the Chief Eng^r P. W. Dept. of 96

His Excellency the
Governor in Council sanctions
the proposed enlargement
of St. John's Church, Bangalore,
at an estimated cost of
Rs. 7,646, the work being
carried out by the
Executive Engineer Bangalore.

(40-4,000-2-11-95.)

(a)
There is no plan showing
existing verities ~~and~~ or
existing chance. At least
I have not received one
and unless you had one
I do not understand how
you received the
estimate. (b) These drawings
do not show that the space
will be increased by as
much as a square foot.

(c) No Extensions are shown.
Except a porch
apparently for vestries
and a chancel are
to be demolished, and
two new vestries each $12\frac{1}{2}'$
and $11\frac{1}{2}'$ and a new
chancel $32' \times 28'$ are
to be built in their places.
But there can hardly be
considered Extensions. The
present choir is not heavy,
and there is nothing in
the plan to show that
additional accommodation
will be provided.

(2) The necessity for a new press is not explained.

(2.) The necessity for a new line is to support the roof of the present sanctuary as the partition wall marked T in blue is proposed to be removed in order to afford additional accommodation.

(f) The nature of soil has not been reported on & the depth & section of foundations provided are apparently taken according to the existing foundations of the church.

2) No complete plans showing sections of ground, existing & proposed works to have been submitted according to our rules, as the design apparently has been prepared gratuitously by Major Badgley R.E. of the Military Works Dept. for the benefit of the Church Committee.

The estimate has been very carefully examined as far as possible & found to be correct with slight trifling errors.

The proposed extension is
cross by broad hatched lines
on the tracing & the proposed
demolition shown in pencil
with dotted hatched lines.

Please bring this
by notice personally ~~to~~ ^{to}
arrange at about 15 Jan 56.

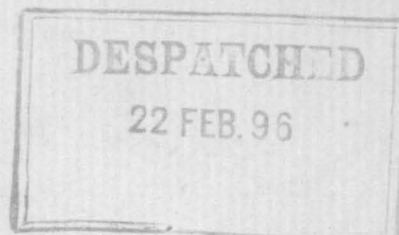

Division, Military Works,
