Sanctioning the execution by the Public Works Department of the contribution work of "excavating the — to the Sithanvalur channel, Vettar left bank, 58/7, Tanjore division."

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.

READ—the following paper:—

From Lieutenant-Colonel C. C. RAWSON, R.E., Superintending Engineer, V Circle, to the Chief Engineer for Irrigation, dated Camp, Lower Anicut, 27th May 1897, No. 72 E.I./C.

I have the honour to request sanction under Code, paragraph 79, chapter IX, Volume I, to the work "Excavating the surplus channel to the Sithanvalur channel, Vettar left bank, 58/7, in Kumbakonam taluk, Tanjore division," as per enclosed plan and estimate, being undertaken by this department.

The interested ryots have agreed to pay the cost of the proposed work, including the usual centage charges for establishment and tools and plant.

The work will be put in hand after the amount of the estimate has been recovered.

ENCLOSURE.

REPORT to accompany the Estimate for "excavating the surplus channel to the Sithanvalur channel, Vettar Left Bank, 58/7."

Amount of estimate, Rs. 338 (including establishment and tools and plant charges).

The Sithanvalur channel work is now completed, but in the estimate no provision was made to carry off the surplus entering the leading channel, which work was to be undertaken by the interested villagers.

2. It now appears that the said villagers are precluded from doing the work by those who own the land through which the surplus channel will pass, by the exorbitant rate of compensation demanded. The work, therefore, must be undertaken by the department at the cost of the ryots concerned.

3. The surplus channel is a necessity, for if not carried out, the leading channel will no doubt be rapidly silted.

4. It is believed that the interested ryots are willing to pay the cost of this work.

5. The ryots have been called upon to remit the amount into the Taluk treasury, and the work will be carried out when the money is deposited by them.

1st May 1897.

(Signed) C. H. T. NORFOR,
Executive Engineer.

ORDER—No. 556 I., dated 15th June 1897.

The execution by the Public Works Department of the work referred to is sanctioned.

(True Extract.)

Under Secretary to Government,
Irrigation Branch.

To the Chief Engineer for Irrigation.

„ Superintending Engineer, V Circle, with four enclosures.
„ Examiner, Public Works Accounts.

Report to accompany the Estimate
for "Excavating the Surplus Channel to
the Lithuanian Channel, Vetter L.S. $\frac{58}{7}$ "

Account of Edmunds A. 33P+

The Lithuanian Channel work is now completed, but in the estimate no provision was made to carry off the surplus entering the leading channel, which work was then undertaken by the interested villagers.

2. It now appears that the said Villagers are precluded from doing the work by those who own the land through which the surplus channel will pass, by the exorbitant rate of compensation demanded. The work therefore must be undertaken by the Department at the cost of the rights concerned.

3 The Surplus Channel is a necessity, for if not carried out the leading Channel will no doubt be rapidly filled.

It is believed that the interested spots are willing to pay the cost of this work.

5. The reports have been called upon to remit the amount into the Sinking Treasury and the work will be carried out when the money is deposited by them.
