G.O., No. 583 I., 28th June 1897.

JUNE.

Sanctioning the execution, by the Public Works Department, of the contribution work of constructing a cast-iron pipe — at the head of Dadamiah Sahib's irrigation channel, taking off from the left bank of Coonoor river above Nellithorai channel, Coimbatore division:

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

READ—the following paper:—

From J. HANNAN, Esq., Superintending Engineer, IV Circle, to the Chief Engineer for Irrigation, dated 13th June 1897, No. 107/I.

I have the honour to submit, herewith, a plan and an estimate amounting to Rs. 55 including percentage charges for establishment and tools and plant, for constructing a cast-iron pipe sluice at the head of Dadamah Sahib's irrigation channel, taking off from the left bank of Coonoor river, above Nellithorai channel, and to request that you will be good enough to obtain sanction of Government, for carrying out the work, as the full amount of contribution is reported to have been recovered from ryots concerned.

It will be observed from the report that this irrigation channel has an open head which takes off a larger quantity of water than is required, depriving Nellithorai channel No. 104 of its mamool share of supply.

ENCLOSURE.

REPORT to accompany the estimate for a cast-iron pipe sluice to be built at the head of Dadamiah Sahib's irrigation channel taking off from the left bank of Coonoor river, Coimbatore taluk.

Amount of estimate	...	...	...	...	...	...	Rs.
branch channel							55

The branch channel has an open head and takes a very much larger quantity than is required for the ayacuts under it. Much of the quantity thus taken is being washed into the Kullar river depriving Nellithurai channel (taking from the Coonoor river further down) of its "mamool" share of supply. It is therefore now proposed to build a pipe sluice at the head of the branch channel at the expense of the ryot concerned.

6th February 1897.

(Signed) T. GNANASAMBANDAM PILLAI,
Sub-Divisional Officer.

ORDER—No. 583 I., dated 28th June 1897.

The execution by the Public Works Department of the work referred to is sanctioned.

(True Extract.)

Under Secretary to Government,
Irrigation Branch.

To the Chief Engineer for Irrigation.
 „ Superintending Engineer, IV Circle.
 „ Examiner, Public Works Accounts.
