FURTHER PAPERS.

Report to accompany the estimate
for a dividing dam across Kanigur
main channel at $4\frac{5}{8}$ miles

Amount of Estimate Rs. 465 193

Kaniyur main channel is No 52 in the list of Minor works P. W. & C. circulated with G. O. No 284 dated 5th May 1880 and receives a supply from the 6th anicut across the Amaravathi river. ~~At 4 3/8 miles below the head~~
A ryot named Venkatakrishna Iyer had permission from the Head Assistant Collector to cut a branch channel at $4\frac{5}{8}$ miles of the main channel to irrigate his portion of field No 292 in Kaniyur village but instead has taken a branch channel from $4\frac{5}{8}$ miles which irrigates 18 acres of his land in addition to 2.55 belonging to a ryot named Subbaroyar or a total of 20.55 acres. The main channel below this point irrigates 60.50 acres.

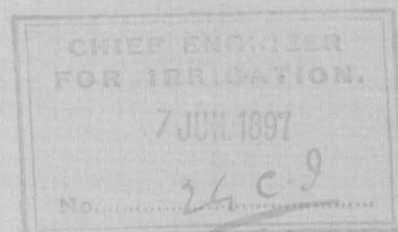

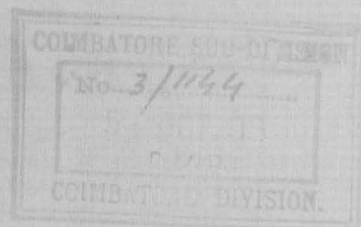

acres and as it is reported that there is plenty of water available it has been decided to construct a dividing dam on condition that Venkatakriشنا Iyer pays for it and that it is clearly understood that whenever there is a short supply the whole of the water available shall be diverted from the branch channel.

2 The accompanying estimate provides for a dividing dam in which the crest is at a uniform level for both channels and the width of the vents in direct proportion to the acreage under each channel. This is slightly in favor of the main channel owing to its greater fall but the depth of water for ordinary supply viz 6 inches ^{is} ~~are~~ so small that the arrangement is practically fair especially when it is remembered that Venkatakriشنا Iyer has no sort of right to water from Kaniyur

Channel

Executive Engineer's Office
Coimbatore Division
3rd June 1897.

From, A. A. G. Malet, Esq.,
Ex. Engineer.
Coimbatore Division.

To, The Superintending Engineer
Fourth Circle

Sir
I have the honor to forward
herewith plan and estimate amounting
to Rs 193 including percentage charges for
Establishment and Tools and Plant for
Constructing a Dividing Dam across Hanijer
main channel No. 52 at 4 5/8 miles and to
request that you will be good enough to
obtain the Sanction of Government for
carrying out the work as the full
amount has already been recovered from
the petitioners.

2. The necessity for the work is
explained in the report.

I have the honor to
A. A. G. Malet
Ex. Engineer
