The Examiner of P.W. Accounts declines
to pass the marginally noted contingent
expenditure incurred in getting certain
local forms printed in private press for
want of certificate as required by L. O. No
4647 d/26-2-95, from the local officers in
charge of the Government Press, who however,
refuses to grant the same on the score
of the forms in question not being sent
to him for being printed before they are
sent to the private press. As the forms
were urgently required, they were therefore
sent to the private press; I have the
honor, therefore to request that you
will be good enough to move Govern-
ment to authorize the Examiner

Department for favor of sanction.

As some difficulty is often experienced
in getting the forms printed early in the
Government press, the Executive Engineer
seems to have got them printed locally
to save delay. He ^{has} ^{been} now informed that
in future he should not get any forms printed
locally without first obtaining the certificate
required by G.O. No. 464 W. dated 26-2-95 from
the Local Officer in charge of the Government
Press.
