In order to prevent the Ryots from
putting a mud dam to raise the
channel water level to irrigate their
high level lands 65.54 acres and to
minimise the ever raising disputes,
a dam is proposed to be constructed
across the Ariagosti channel, 2000 ft. above
the Kurinjipadi Road culvert in the
limits of Thottam village; and the
murai will be revised and sent to the
Executive Engineer's approval. The Ryots,
on my persuasion, promised to contribute
Rs 100 towards the construction of the
Dam and this written agreement to that
effect is herewith enclosed.
