given to understand that
if they give satisfaction,
they will be confirmed
when the future of the
Conservancy establishment
is satisfactorily settled.

As it is under contemplation to replace gradually the existing conservancy establishment by lower subordinate establishment, orders are solicited as to whether the accompanying application for two Irrigation Superintendents may be considered with the general scheme, sanction being accorded to the entertainment in the meanwhile as a temporary measure of two Irrigation Superintendents on Rs 40 each per mensem. It is observed that members of the conservancy establishment are usually appointed on fixed pay and not on progressive salary as proposed by the S. E. VI Circle.

THE CHIEF ENGINEER,

P. W. D.

SIR,

ENCLOSURES. 1-

I have the honor to submit a proposal for revision of the Water Regulation Establishment of the Periyar Project, Madurai Division. I think it will be necessary to have two Irrigation Superintendents and that they should be appointed, at once, as many applications for water will have to be reported on, and distributing channels laid out. There are also over 1000 tanks to be reported on in order that a decision may be come to regarding their abandonment or maintenance.

I have the honor to be
Sir
Your most Obedt. Servant.

W. Hughes.
