The Executive Engineer
in G.O. to the Suptg. Engineer
14.12.1895. No. 3995.

The Engineer to bring to your
attention that the
foundations of the
Kistna Cutchery have been found
to be situated on the
left bank of the Kistna
river and the soil for about
the 6 ft is what is called
"Kannagada", a most
descriptive of black cotton
rich in quite suitable to
the foundations and
to permanently not to
be tried but was taken
and water was not
to be ground and
think it will be safe
under the foundations
and to at least 10 feet
and filled in again
and but this will be
very interesting as the
have the Cutchery
to the site and the

The Suptg. Engineer,
2nd Circle.

The Chief Engineer,
P.W.D.
Madras.
