READ—the following papers :—

From Major W. L. C. BADDELEY, R.E., Superintending Engineer, II Circle, to the Chief Engineer for Irrigation, dated 23rd July 1895, No. 296 N.L.

I have the honour to forward herewith, for your approval and sanction of Government under "Open capital account," estimate amounting to Rs. 1,940 for constructing a surplus weir, Venkannapalem tank, Penner anicut system.

2. The necessity for the work has been explained in the report accompanying the estimate.

ENCLOSURE.

REPORT to accompany the plan and estimate for constructing a surplus weir for Venkannapalem tank, II Circle.

	RS.
Amount of estimate	1,940

This is the terminal tank under the Potlapudi channel. The old weir is 42 feet long and is completely ruined. It is therefore necessary to build a new one to secure the efficiency and safety of the tank.

Memo

With reference to letter No 296 N.I. of 23 July/95, from the Supt. Eng., Second Circle, the undersigned has the honor to point out that as the proposed surplus weir for Venkamma-palem Tank is to replace a ruined one, the original cost of the latter should have been reported with reference to para 37, Chapter V, Vol II, P.W.D. Code, & to request that this information may now be furnished. If the actual cost of the work cannot be ascertained, its pro bable cost should be reported. It should also have been stated whether the proposed work should be classed as "remunerative" or "unremunerative" vide para 35, rule II of the chapter of the Code above quoted.
