MARCH.

Budget.

Reviewing the Gódávari District Board — for 1896–97.

To
the S.E. I circle.

No. 457 L., 10th March 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following papers:—

From V. A. BRODIE, Esq., President, District Board, Gódávari, to the Chief Secretary to Government, dated 23rd December 1895, Dis. No. 2802-D.B.

I have the honour to submit the consolidated revised estimate for the current official year and the consolidated budget estimate for the next official year as passed by the district board at its meeting held on the 10th December 1895. The prescribed statements as per list enclosed and a tracing of the district map showing the particulars required by rule 12 of the Local Fund Rules accompany.

Revised Estimate for 1895–96.

Receipts.

2. The estimate of the year as now revised opens with a balance of Rs. 4,69,739 (which is the figure intimated by the Inspector of Local Fund Accounts, Madras, after the audit of the previous year's accounts) against Rs. 3,50,760 anticipated in the budget. The increase is chiefly due to short expenditure under Grant I in the previous year. The estimate of the current receipts as now revised amounts to Rs. 6,76,098 against Rs. 6,85,570 the budget estimate, the total receipts, including the opening balance, amounting to Rs. 11,45,837 against Rs. 10,36,330. The most important of the variations in the several detailed heads are noticed hereunder:—

(1) *Land-cess.*—The receipts as per revised estimate amount to Rs. 5,08,600 against Rs. 5,18,000 estimated in the budget. The decrease is due to the prompt collection of the demand of land revenue in the previous year.

(2) *House-tax.*—The income under this head amounts to Rs. 27,054 against Rs. 25,860 the budget figure, the increase being due to the collection of arrears in some of the unions and the careful revision of the house tax registers in certain others subsequent to the budget.

(3) *School Fees.*—There is a decrease of Rs. 3,235 under this head when compared with the budget estimate. It is the net result of the removal from the estimate of the estimated receipts belonging to the Taylorpettah high school at Narsapur, as the proposed transfer of the school to the management of the Narsapur Taluk Board has not been sanctioned by Government and of the increased receipts expected under fee collections in certain other schools.

(4) *Choultry Rents.*—The revised estimate amounts to Rs. 16,312 against the budget estimate of Rs. 16,800, and the decrease is due to certain lands attached to the endowed choultry at Razole having been made over to the legal heir of the original founder of the institution, in accordance with the terms of a decree passed in his favour by the Subordinate Court at Cocanada (*vide* this office No. 2371-D.B., dated 30th October 1895, read in G.O., Mis. No. 2151 L., dated 11th November 1895).

(5) *Market Rents.*—The assets under this head as now revised aggregate Rs. 19,525 against Rs. 17,640 estimated in the budget, the increase being due to the increased amounts actually realized in the case of certain markets owing to keen competition among the bidders.

(6) *Public Works—Contributions from Municipalities.*—At the instance of the present Chairman of the Municipal Council, Cocanada, a careful inquiry has been instituted into the question of the balance due from the council on account of its share of the cost of repairing the iron girder bridge at Cocanada, and in the result it has been found that the correct balance was Rs. 1,520 and odd and not Rs. 4,700 and odd as stated in paragraph 14 of the current year's budget covering letter. Hence the decrease under this head in the revised estimate compared with the amount taken credit for in the budget.

(7) *Contributions from Provincial Funds under Public Works.*—The amount of Rs. 600 taken credit for under this head represents the yearly contribution paid from the agency funds, in accordance with an agreement entered into by the district board with the Government Agent, Gódávari, towards the cost of maintaining a portion of the road running from Ellore to Tallapudi and lying within the agency tracts. Up to the beginning of the current year portions of some of the local fund roads lying within the agency limits also were maintained at the cost of the district board. But the board resolved on the 30th March 1895 to make over the said portions to the agency department, with effect from 1st April last, as the duty of maintaining them belongs to the agency department and not to the district board. At the instance of the Government Agent, however, the board agreed to maintain the portion of the Ellore-Tallapudi road above referred to on condition of receiving from Provincial funds an annual contribution of Rs. 600. This arrangement was not anticipated when the budget was drawn up.

(8) *Allotments from the District Fund.*—The increase of Rs. 30,000 under this head, when compared with the sum estimated in the budget, is due to allotments of Rs. 25,000 and Rs. 5,000 subsequently made to the Narsapur and Cocanada Taluk Boards, respectively, the former to make up the deficit balance against the taluk board and the latter towards the cost of constructing the bridge over the Divili river, which was originally a district board work but subsequently transferred to the Cocanada Taluk Board (*vide* G.Os., Mis. Nos. 1450 L. and 1864 L., dated 16th August and 9th October 1895).

Expenditure.

3. *Grant I, Public Works.*—The total estimated expenditure under this grant is Rs. 5,01,640 against Rs. 5,00,390 estimated in the budget. The deviations in the detailed heads from the allotments provided in the budget are noticed below :—

(*a*) *New Works.*—The probable expenditure estimated under this head is Rs. 1,78,153 against Rs. 1,76,340, the budget estimate. The net increase is due to the allotments made subsequent to the budget for the execution of incomplete and untouched works relating to the previous year. There is a decrease, when compared with the corresponding budget figures, under the sub-heads "Buildings" and "Miscellaneous public improvements," and this is due to the surrender of the large allotments provided by the taluk boards concerned for the construction of school, hospital and choultry buildings and market sheds, as the necessary plans and estimates were not ready and it had not been possible to procure sites in the case of some of them.

(*b*) *Repairs.*—The estimated outlay under this head amounts to Rs. 2,33,789 against Rs. 2,18,260 estimated in the budget. There is an increase under all the sub-heads which is chiefly due to subsequent allotments made from the reserve in favour of the several local boards for the execution of "Special repair" works left incomplete at the close of the previous year and for repairing certain school and choultry buildings and public bungalows.

As in the last year, the probable expenditure as now estimated under the several heads of public works, differs greatly from the total grants including subsequent allotments and transfers as shown in the last column of statement IX. The estimated short expenditure under road works is attributed by the District Board Engineer to the several contracts having been given out very late in the year by the presidents of the local boards concerned. This is no doubt partly correct, but one main reason is also the general inefficiency of the subordinate engineering staff, to reorganize which

proposals have recently been submitted to Government. I may further add that the present system of giving out contracts for local fund works admits of improvement in certain directions, and I have already placed myself in communication with the presidents of the taluk boards in view to substitute a more workable system, in place of the existing arrangements, from next official year. In the case of the other works, the short expenditure anticipated is due to the plans and estimates relating to the same not having been ready and to the difficulty of procuring suitable sites for some of the school buildings.

(*c*) *Tolls and Ferries.*—The budget estimate of Rs. 2,560 under this head is reduced to Rs. 1,000 as arrangements are being made very late in the year for the working of the proposed Narsapur ferry, the construction of the stern-wheel steamer for the said ferry having been completed only at the end of last month.

(*d*) *Tools and Plant.*—The net decrease under this head compared with the budget estimate is attributable to the removal of the provision for the construction of a steamer for the use of the proposed ferry between Rajahmundry and Bhadrachalam, as the project in question was condemned by the Superintending Engineer and has been abandoned by the district board on reconsideration (*vide* correspondence ending with G.O., Mis. No. 1883 L., dated 11th October 1895).

4. *Grant II, Education.*—The probable outlay as now estimated amounts to Rs. 1,38,820 against Rs. 1,48,630, the amount allotted in the budget. The decrease is mainly due to (1) the removal of the provision originally made for the Taylor high school at Narsapur, as the proposal of the Narsapur Taluk Board to take over the school under its management has not been sanctioned by Government, (2) the late opening of some of the newly sanctioned primary schools, (3) the delay in filling up the vacancies among teachers in certain schools.

5. *Grant III, Medical Services, &c.*—Rs. 1,44,744 are now estimated under this grant against Rs. 1,56,830 estimated in the budget. The net decrease is chiefly due to (1) the closure of certain dispensaries for some months in the year on account of the absence on leave of the hospital assistants in charge, (2) no provision having been made, as originally proposed, for the accommodation of in-patients in some of the dispensaries for want of suitable buildings, (3) the provision under "Midwives" having been reduced to a great extent, as the services of trained midwives could not be secured, (4) the surrender of certain allotments under the heads "Improvement of water-supply" and "Improvement of village-sites," there being no necessity for the utilization of the same, (5) the reduction of the establishment attached to the endowed choultry at Razole consequent on the decree of a civil court directing certain lands constituting a portion of the endowment of the institution to be made over to the heir of its original founder, and (6) the savings anticipated under charges relating to water-pandals maintained by the several taluk boards during the hot season.

6. *Grant IV, Miscellaneous.*—The revised estimate under this grant comes to Rs. 37,959 against Rs. 35,830, the budget estimate. The net increase is mainly due to (1) the increased amounts required to be spent under the several items comprising the sub-head "Contingencies," the amounts provided in the budget having been found to be inadequate, (2) the provision under the head "Pension" having been raised, there having been an addition to the list of local fund pensioners subsequent to the budget, and (3) the increased provision made by the Narsapur Taluk Board under the head "Law charges" to meet the payment of a decree passed in favour of the heir of the original founder of the choultry at Razole for Rs. 1,465 and odd being the mesne profits of certain lands, hitherto included in the endowment, ordered to be made over to the said heir, as the said lands were found not to form part of the endowment. It appears to me that the amount of Rs. 1,465 and odd referred to above should properly be debited to the head "Refund of receipts" under Grant III and not to "Law charges" as has been done by the Narsapur Taluk Board.

7. The grand total of expenditure as per revised estimate (including Rs. 15,654 debited in the treasury account to debt heads for the first six months of the year and Rs. 8,500 shown under the reserve) aggregates Rs. 8,47,317 against Rs. 9,06,630,

the estimated expenditure as per budget. A closing balance of Rs. 2,98,520 is thus left against Rs. 1,29,700 in the budget. Of this balance, however, Rs. 43,568 appertain to the canal and ferry fund, Rs. 14,603 to union funds and Rs. 76,457 to endowment funds, and the net balance available for general purposes is Rs. 1,63,892.

BUDGET ESTIMATE FOR 1896–97.

Receipts.

8. The budget opens with a balance of Rs. 2,98,520, which is the closing balance of the revised estimate for the current year. The current receipts amount to Rs. 9,13,840 against Rs. 6,85,570, the current year's budget estimate, and Rupees 7,16,976, the actuals of 1894–95. The most important of the variations in the detailed heads are noticed below. The total receipts estimated, including the opening balance, amount to Rs. 12,12,360 against Rs. 10,36,330 estimated in the current year's budget and Rs. 11,72,105, the actual receipts of 1894–95.

9. *Land-cess.*—The receipts estimated under this head are Rs. 5,36,000 against Rs. 5,18,000 estimated in the current year's budget and Rs. 5,28,377 the actuals of 1894–95. The increase, compared with the current year's estimate and the actuals of the previous year, is due to the expected increase of land revenue under revised settlement rates and the enhanced water-rate. The proportion of the district fund transferred to the several taluk boards in this district, under section 55 of the Madras Local Boards Act V of 1884, has heretofore been only one-half of the land-cess collected in the several taluks within the jurisdiction of the respective taluk boards. This proportion being evidently insufficient to meet the growing demands on the resources of the taluk boards, each board fell into the habit of framing its demands upon the district fund with an eye rather to what it could persuade the district board to give it, than on consideration of what it might claim to be fairly entitled to. Each taluk board came to think under this system that the more it asked the more it got. Accordingly the boards asked freely and increasingly. They took credit for large allotments from the district fund and forced the hands of the district board to allot funds which they could not even utilize in some cases. In this connection attention is invited to the remarks made by Mr. Wynne, my predecessor, in paragraph 20 of the covering letter for the budget for 1894–95. This procedure acted in a manner most unfavourable to economy. Owing to unpunctuality in the submission of the yearly estimates by the taluk boards, the district board had not sufficient time, every year, to scrutinize carefully these estimates which were generally permitted to stand. The only way of checking these increasing demands and of enforcing economy on the part of taluk boards is by raising the share of land-cess collections hitherto assigned to them, which was no more than the minimum prescribed by the Act, and by imposing on them a real and effectual responsibility for maintaining equilibrium in their finances, without asking, under ordinary circumstances, for any additional allotment from the district fund. This step is further rendered necessary by the re-classification of the taluk and district roads effected in 1894–95 under which certain roads which belonged formerly to the district board were transferred to the taluk boards concerned (*vide* paragraph 18 of the budget covering letter for 1895–96). Accordingly the district board resolved at its meeting held on 7th October 1895 that the share of the land-cess collections assigned to the Ellore, Narsapur and Cocanada Taluk Boards should be raised from one-half to two-thirds from next year and that of the Rajahmundry board —the richest of all—allowed to stand as before. The taluk boards were also advised to take credit for the land-cess collections in accordance with the above resolution of the district board and they have done so. I solicit, therefore, the sanction of Government to the arrangement in question. Practically, the same procedure has been followed in the case of the Rajahmundry board also, for that board following the old practice took credit for an allotment of no less than Rs. 69,000 and odd from the district board funds in framing its budget, but the district board has allotted Rupees 35,000 only, which is just about one-sixth of the land-cess collected within the limits of the local fund taluk. The question of laying down similar rules for regulating the allotments made to the unions by the taluk boards will shortly be taken up.

10. *House-tax.*—The amount estimated is Rs. 27,130 against Rs. 25,860, the current year's budget estimate, and Rs. 25,287, the actual collections of 1894–95. The increase is due to the proposed revision of the house-tax registers in some of the unions.

11. *School Fees.*—The estimate under this head is Rs. 31,890 against Rs. 30,090 estimated in the current year's budget and Rs. 27,941, the actuals of 1894–95. The increase, when compared with the current year's budget, is chiefly due to the increase expected in the strength of certain schools under the Rajahmundry and Cocanada Taluk Boards.

12. *Sale-proceeds of Books.*—No amount is taken credit for under this head, as no books are proposed to be purchased for sale among the several board schools, there being no necessity for the same.

13. *Education—Income from Endowments.*—The amount of Rs. 2,200 * taken credit for under this head represents the capital with interest in the hands of the managing committee attached to the Taylor High school at Narsapur, which the Narsapur Taluk Board again proposes to take under its management, with effect from 1st April 1896, apparently against the policy recommended by the Education Commission in the case of maintaining upper secondary schools. Whatever may be said as to the expediency of taking the particular institution under the management of the board, there is no doubt that the step tends to increase the responsibility of the local boards in the matter of education.

	Rs.
* Capital	2,000
Interest	200

14. *Medical.*—The estimated receipts under this head are Rs. 160 against Rs. 130 estimated in the current year's budget and Rs. 220 actually collected in 1894–95. The items comprising this head are of a purely fluctuating nature.

15. *Choultry Rents.*—The assets under this head amount to Rs. 18,230 against Rs. 16,800 estimated in the current year's budget and Rs. 18,746 the actuals of 1894–95. The net increase, when compared with the current year's budget estimate, is due to the rents expected to be realized from the lands attached to the Kruttiventivari choultry at Dowlaishweram, the management of which has newly been transferred to the Rajahmundry Taluk Board.

16. *Market Rents.*—The receipts estimated are Rs. 19,240 against Rs. 17,640 estimated in the current year's budget and Rs. 17,299 actually collected in 1894–95. The increase is due to the increased amounts expected to be realized from some of the markets at the sales in the next year although that at Tallapudi is proposed to be abandoned. In this connection, the President of the Ellore Taluk Board writes thus:—

> "The taluk board has resolved to put a stop to the system of leasing out the market at Tallapudi. There is no suitable place in which the market can be held and it has consequently to be in the main bazaar street. The greater part of the market produce is sold by the shopkeepers who have permanent shops in the bazaar street; a small quantity of articles will be sold on the road side. If the system of leasing out the market in Tallapudi is continued it is likely to lead to disputes between the renter and the bazaarmen, as the former wishes to collect fees from the bazaarmen. The market was leased out for the first time this year and the sale amounted to only to Rs. 115. The lessee requests that his bid may be cancelled unless he is permitted to collect fees on all articles sold both in the shops and on the road side. Under the circumstances the board resolved to cancel the lease of this market, and I request that the sanction of Government for the cancelling of the system of leasing out this market may be obtained."

17. *Ferry Rents.*—Rs. 40,000 are estimated under this head against Rs. 37,000 the current year's estimate and Rs. 32,855 the actuals of the previous year. The increase is due to the collections anticipated from the Narsapur steam ferry, which is now being established, and the increased rent derivable from the Rajahmundry steam ferry in accordance with the agreement entered into with the East Coast Railway authorities for the current fasli year.

18. *Sundry Receipts.*—The amount estimated under this head is Rs. 3,950 against Rs. 3,520 the current year's estimate and Rs. 399 the actuals of 1894–95. The

increase is mainly due to the Rajahmundry Taluk Board having shown under this head the fees to be levied on slaughter-houses, cart-stands and pandals and the fines realized under the Police Act which should properly be shown under the head "(*t*) Fees and fines" *supra*.

19. *Contributions from Private Individuals for Public Works.*—The income expected under this head is Rs. 8,000 against Rs. 3,200, the current year's budget estimate. The increase is chiefly due to the very liberal contribution of Rs. 5,000 offered by M.R.Ry. Badam Venkataratnam Garu, the Chairman of the Native Chamber of Commerce of Cocanada and a nominated member of the district board, towards the cost of constructing a suitable building for the female out-patients dispensary opened by the district board at Cocanada. With reference to this offer, the board recorded a resolution in the following terms on the 16th November 1895 :—

"The board has much pleasure in accepting the most generous offer of M.R.Ry. Badam Venkataratnam Garu and heartily accords him its warmest thanks for having in such a liberal and public spirited manner come to its assistance in the matter of providing suitable accommodation for the female out-patients dispensary and enabling the board to double its sphere of usefulness by converting it into an hospital; when the building is erected, it is further resolved that some permanent memorial of the gift shall be erected in a suitable place within the building."

20. *Contributions from Provincial Funds for Public Works.*—The amount of Rs. 2,01,900 shown under this head includes (1) Rs. 1,300 taken credit for by the Rajahmundry, Narsapur and Ellore Taluk Boards as building grants on school buildings proposed to be constructed by them, (2) Rs. 600 taken credit for by the district board as contribution from agency funds towards the cost of maintaining the agency portion of the road from Ellore to Tallapudi (*vide* remarks in paragraph 2 (7) *supra*) and (3) Rs. 2,00,000 taken credit for by the district board as a loan from Government towards the cost of constructing a light railway from Samalkot to Yeleswaram *viâ* Peddápuram. The district board has unanimously resolved to get a light railway constructed between the places above referred to as the project will (besides promising to be a very paying concern) confer a great boon on the people in general of this district. The cost of the project is roughly estimated at about 7 lakhs of rupees and the board proposes to meet the cost (1) by borrowing in all about three lakhs from Government, (2) by admitting the public as share-holders to the extent of another three lakhs and (3) by contributing the balance of one lakh from its own funds. The matter will form the subject of a separate communication and an application in the prescribed form for the loan now taken credit for from Government will then be submitted.

21. *Allotments from the District Fund.*—Notwithstanding the fact that a larger share of the land-cess collections had been assigned to them, the Taluk Boards of Cocanada and Narsapur failed to balance their budgets, as they were not able to provide the 5 per cent., balance required by the rules. The Rajahmundry Taluk Board, as stated above, closed its budget with a deficit of about Rs. 17,000 even after taking credit for an allotment of no less than Rs. 69,000 from the district fund. The district board was, therefore, obliged to revise the budgets of these taluk boards in the following manner :—

Rajahmundry Taluk Board—Grant I—

(1) To reduce the provision made under "New Works—Communications" by Rs. 13,600.

(2) To reduce the provision made under "New Works—Civil Buildings" by Rs. 9,000.

(3) To reduce the provision under "Repairs—Communications" by Rs. 9,500.

Grant II—

(4) To remove the provision for an additional teacher on Rs. 50 in the Amalapuram High school.

(5) To remove the provision for the increase of pay of the gymnastic instructor, the night watcher and the drawingmaster attached to the same school.

(6) To remove the provision for a Telugu Pandit for the Lower Secondary school at Dowlaishwaram.

(7) To remove the provision for fourteen new schools.

(8) To remove the provision for entertaining an additional servant in each of the Primary schools at Chinnurukoya and Duppalapudi.

Grant IV—

(9) To remove the provision for the increased pay proposed for certain clerks of the taluk board's office establishment.

Cocanada Taluk Board—Grant I—

(1) To remove the provision under "New Works—Communications" by Rs. 2,500.

Grant II—

(2) To remove the provision for increasing the pay of the headmaster of the night school at Samalkot and for raising the pay of the servant attached to the Vernacular Lower Secondary school at Jaggammapéta.

Grant III—

(3) To remove the provision for raising the pay of one of the cooks and the peon attached to the endowed choultry at Peddapuram.

Narsapur Taluk Board—Grant I—

(1) To remove the provision under "New Works—Communications" by Rs. 6,000.

Grant IV—

(2) To remove the provision for a temporary clerk for sorting the records of the taluk board's office.

(3) To remove the provision for increasing the pay of one of the two bill collectors in the Narsapur union.

(4) To remove the provision made for local fund inspectors and gumastahs in taluk offices. From the above, it will be seen that increases in the pay of teachers of schools and other establishments have been generally disallowed in all cases where no cogent reasons were assigned for the increases recommended. The revision of the budgets of the taluk boards on the above lines has resulted in showing an excess balance of Rs. 1,893 in favour of the Cocanada Taluk Board and Rs. 1,456 in favour of the Narsapur Taluk Board over and above the 5 per cent. balance prescribed by the rules. In the case of the Rajahmundry Taluk Board there is still a deficit of Rs. 40,520 and, as there is no possibility of reducing its budget expenditure any further, the district board has resolved to make an allotment of Rs. 35,000, as a special case, from its own funds and to leave the budget with a closing balance of Rs. 2,980 available for general purposes, which is less than the prescribed 5 per cent. balance by Rs. 5,520.

On a careful examination of the estimates of the taluk boards above referred to and in view of the various claims of a pressing character on the district fund, the district board has come to the conclusion that the taluk boards should not be permitted to exceed their own resources and has revised their budgets in the manner indicated above. The revision of the budgets, especially that of the Rajahmundry Taluk Board which was very carelessly prepared, has seriously increased the work of the district board's office, and I am calling the attention of the presidents of the taluk boards concerned to the matter, with a view to putting a stop to this unsatisfactory state of things in future. To increase the salaries of establishments under the taluk boards from year to year, without any fixed scale, is really a needless waste of local funds and I am glad to note that the district board voted against all such increases pending a general reorganization of the different departments which will soon engage the attention of the board. In no year are measures of economy more imperatively necessary than in this year, when a scheme entailing a permanent additional expenditure of about Rs. 22,000 per annum in connection with the reorganization of the Local Fund Engineering establishment is awaiting the sanction of Government. It has further struck me that the time has arrived for a detailed examination of the expenditure in the different departments in view to ascertain in what directions the existing

arrangements call for revision. A sub-committee has been appointed to investigate this question and submit definite recommendations to the board and pending the results of such enquiry, it is but fair that the district board should insist, as it has done, on each taluk board refraining from spending any portion of the increased allotment given to it upon any item of expenditure which cannot be regarded as *absolutely necessary*.

Expenditure.

22. *Grant I.*—The total allotment made under this grant amounts to Rs. 6,23,110 against Rs. 5,00,390, the current year's estimate, and Rs. 3,86,522, the actuals of 1894–95. There is a net increase when compared with the current year's budget estimate, and this is due to the expenditure of Rs. 2,00,000 proposed to be incurred on the project of the light railway from Samalkot to Yeleswaram *viâ* Peddápuram referred to in paragraph 20 *supra*. The more important of the detailed heads under this grant are noticed below.

23. *Public Works.*—(1) The following abstract compares the amounts allotted under the different sub-heads with those provided in the current year's budget and the actual expenditure incurred in 1894–95 :—

—	Budget estimate, 1896–97.	Budget estimate, 1895–96.	Actuals, 1894–95.
	Rs.	Rs.	Rs.
A. New works—			
1. Communications	3,07,700	1,21,760	1,17,737
2. Buildings	23,000	25,070	5,102
3. Miscellaneous Public Improvements.	16,720	29,510	14,032
B. Repairs—			
1. Communications	1,67,160	1,91,390	1,63,708
2. Buildings	4,700	6,580	4,650
3. Miscellaneous Public Improvements.	15,600	20,290	19,510

(2) Statements III-A and III-B give, in detail, the several works provided by all the local boards. The total allotment made under "New Works—Communications" includes the provision of Rs. 2,00,000 for the project of a light railway already referred to, and of Rs. 15,650 for ferry works. Out of the allotment made for ferry works, Rs. 5,650 are allotted for the construction of ballacuts required to meet the demand of the several ferries in the district, and Rs. 10,000 for the proposed bridge over the ferry between Coringa and Patanala, the cost of which is roughly estimated at Rs. 60,000. The District Board Engineer has been called upon to prepare and furnish for the sanction of the District Board and of Government detailed plans and an estimate for the same. The project is of considerable public utility benefiting a large population residing in villages in the Coringa division, besides others in the Amalápuram taluk. In consideration of the importance of this line of communication, the district board has already constructed two bridges on the line at Chollangy and Mattapalem at considerable cost and this large outlay can be turned to little practical good until the Coringa ferry is bridged as proposed. The board is, therefore, unanimous in recommending the utilization of the large balance under the canal and ferry fund for this work. As the work is of an emergent nature and as it has been thought of since the board abandoned the Bhadrachalam steam ferry project provided in the current year's budget, it is now included in the budget in anticipation of the sanction of its estimate by competent authority.

(3) In the case of other works, *i.e.*, road-works, pure and simple, probable balances on estimates relating to most of them are provided, and a provision of Rs. 10,000 is also made for a bridge over the Yeleru river near Simson's lock at Cocanada, the construction of which the board has taken upon itself agreeably to an arrangement entered into with Cocanada Municipal Council—(*vide* correspondence ending with G.O., Mis. No. 1377 M., dated 23rd August 1895. The estimate for the work has recently been submitted to Government for sanction through the Superintending Engineer, I Circle.

(4) Out of Rs. 23,000 provided under "New Works—Buildings," Rs. 13,000 are provided by the several taluk boards for the construction of school, choultry, dispensary and hospital buildings and Rs. 10,000 by the district board for the construction of a building for the dispensary for women and children at Cocanada. The working of the dispensary for women and children at Cocanada has been carried on very successfully under the management of a local committee. It is gratifying to note that the institution has already attained a high degree of popularity and is being largely taken advantage of by those for whom it is intended. There has been a steady and marked increase in the number of out-patients treated in the dispensary and it is noteworthy that among such patients are to be found, not only caste and gosha ladies who have come to Cocanada from the rural parts of the district, but also such as have come down all the way from the Ganjám and Vizagapatam districts.

(5) I look upon the handsome donation of Rs. 5,000 referred to in paragraph 19 *supra*, as a tangible proof of the recognition and appreciation, on the part of the public, of the good work done by this institution. The want of a suitable building is keenly felt and the sooner it is supplied, the better. It is roughly estimated that the proposed building would cost about Rs. 15,000, of which Rs. 5,000 will be required for the acquisition of the site. The District Board Engineer will be called upon to furnish detailed plans and estimates, and in view of the board utilizing the donation of Rs. 5,000 promised as aforesaid, an allotment of Rs. 10,000 is made for the work in the budget. It is also hoped that some other wealthy and public-spirited residents of the district may come forward to make additions to the proposed building by erecting separate wards. In the circumstances above set forth, I earnestly solicit the sanction of Government to the proposal for the construction of the building in question. Under "New Works—Miscellaneous Public Improvements," Rs. 12,900 are provided for the construction of market sheds and Rs. 3,820 for the construction of tanks and wells.

(6) Out of the total allotment under "Repairs—Communications," Rs. 1,11,670 are allotted for the maintenance of several roads and bridges, Rs. 49,490 for "Special repair" works, Rs. 3,000 for repairing ferry boats and Rs. 3,000 for the maintenance of certain works in charge of the Public Works Department as per G.O., No. 2582 L., dated 12th December 1894. No further provision is made for works in charge of the Public Works Department for want of information similar to that furnished in the Government Order above quoted. The Superintending Engineer, I Circle, who has been addressed on the subject, reports that there are no works to be carried on by his department. The provision under "Repairs—Buildings" is intended chiefly for repairing school, choultry, dispensary and hospital buildings, while, under "Repairs—Miscellaneous Public Improvements," Rs. 6,250 are allotted for the maintenance of avenues, Rs. 850 for repairing market sheds and Rs. 8,500 for repairing tanks and wells.

(7) For reasons specified in paragraph 20 of the current year's budget covering letter, no lump provisions are made separately for land compensation under any of the local boards. In providing allotments for communications, the instructions [illegible] G.O., No. 1686 L., dated 14th September 1895, have been adhered to as far as possible. From statement III-C, it will be seen that after excluding the allotments made for the project of a light railway, and for ferry works, the ratio of the allotment for road works to the land-cess received exceeds the prescribed limit of 50 per cent. in the case of the Cocanada and Ellore Taluk Boards, while, in the case of works within the local area of the other taluk boards, the ratio is 33 and 46 respectively. The ratio for the whole district is, however, 48 per cent., *i.e.*, a little less than the minimum prescribed. There is thus no doubt whatever that the prescribed limit will be attained in this district seeing that subsequent allotments will have to be made from the reserve by the several local boards for the incomplete and untouched works of the current year and for any unforeseen works that may arise in the course of the year under report.

24. *Establishment—(a) Public Works Department Supervision and Scrutiny of Plans and Estimates.*—The current year's provision under these two heads is repeated in the absence of information similar to that furnished in G.O., No. 2582 L., dated 12th December 1894.

(*b*) *Local Fund Engineering Establishment including contingencies.*—The provision made under this head amounts to Rs. 76,000 against Rs. 53,780 provided in the current year's budget. The increase is due to the increased provision made with reference to the proposals recently submitted to Government for the reorganization of the Local Fund Engineering establishment. The cost under this head together with the outlay on tools and plant is debited as usual to the district and taluk boards at percentage rates arrived at with reference to the instructions conveyed in G.O., No. 1942 L., dated 5th August 1890.

(*c*) *Tolls and Ferries.*—A lump provision of Rs. 4,000 is made under this head in order to meet the cost of the establishments required for (1) the Narsapur steam ferry, which is now being established, (2) the ferry between Rajahmundry and Polavaram proposed to be established with reference to the correspondence ending with G.O., Mis. No. 1883 L., dated 11th October 1895, and (3) the existing ferry between Achutapuram and Kovvur. A lump provision of Rs. 1,000 is also made under the head "Contingencies" to meet the contingent charges of the first two ferries.

25. *Tools and Plant.*—The amount of Rs. 3,360 shown under this head includes Rs. 40 in round figures provided for "Tools and Plant" by Public Works Department calculated at the prescribed percentage rate on the outlay to be incurred by that department under "Repairs—Communications," exclusive of the works exempt from this charge. The remaining amount of Rs. 3,320 is the sum arrived at at 1 per cent. of the total outlay on works exclusive of the allotments made for works to be executed by the Public Works Department and for the project of a light railway.

26. *Miscellaneous.*—The amount estimated under this head represents, as usual, a moiety of the receipts derived from the ferries between the French and the British territories in this district payable to the French Government in accordance with the terms of the convention entered into with that Government.

27. *Grant II, Education.*—The total outlay estimated under this grant is Rupees 1,46,050 against Rs. 1,48,630, the current year's budget estimate and Rs. 1,25,476, the actuals of 1894–95. The variations from the current year's estimate are attributable to the proposals noticed below.

28. *Inspection.*—The estimated expenditure under this head amounts to Rupees 8,200 against Rs. 8,100 estimated in the current year's budget and Rs. 6,207, the actual expenditure of the previous year. The increase compared with the current year's figure is the net result of (1) the reduction of the provision under "Contingencies" by Rs. 200 as the same has been found to be unnecessarily high and (2) the proposal to raise the pay of the existing staff of inspecting schoolmasters on Rs. 20 to Rs. 25 each per mensem (inclusive of the pensionary contribution) in accordance with the recommendations of the Educational authorities. The Assistant Inspector of Schools, II Division, proposed the total reorganization of the existing staff of schoolmasters and the Director of Public Instruction, Madras, in supporting the Assistant Inspector's proposal, remarked as follows:—

"The salary of the lowest grade at present is too low for a district like Gódávari where travelling is difficult and expensive and where the work of inspecting officers is heavy."

The district board, agreeing with the Director, has resolved upon raising the salaries of inspecting schoolmasters of the lowest grade alone. The Assistant Inspector's proposal regarding the opening of an industrial school by the district board on the lines on which a similar institution is maintained in the Kistna district was neither supported by the Director of Public Instruction nor approved by the district board.

29. *Training and Sessional Schools.*—The current year's provision under these heads is repeated for the next year.

30. *Secondary schools—Salary System.*—The estimate under this head amounts to Rs. 30,310 against Rs. 30,870, the current year's estimate, and Rs. 22,981, the actuals of 1894–95. The net decrease is due to the reduction effected under the

sub-head "Contingencies." The following are the new proposals made under "Establishment":—

(1) To raise the provision made under fixed charges of the high school at Amalápuram, so as to provide for the annual increments in the salaries of some of the teaching staff.

(2) To revise the scale of establishment of the lower secondary school at Veeravasaram, as per proposition statement enclosed. In connection with this proposal the President of the Narsapur Taluk Board writes thus:—

The pay of the headmaster only is sanctioned to continue as in the current year. The Director, while approving of the Assistant Inspector's scale, advised at the same time that the rates of salary should be so fixed as not to affect the existing permanent incumbents. Acting upon this advice, the board has sanctioned the new scale for working purposes. The result is that the headmaster will be entitled to receive an increment of Rs. 4 at the beginning of the next official year. As for the remaining establishment, the minimum salaries proposed do not exceed the figures as per scale approved by the Director.

(3) To entertain a Sanscrit pandit on Rs. 15 (including pensionary contribution) in the lower secondary school at Bhímavaram to keep it on the same footing as its sister school at Veeravasaram, the entertainment of a pandit being a great advantage.

(4) To transfer the gymnastic teacher on Rs. 10 attached to the primary school at Tuni to the lower secondary school at the same place, on the understanding that he will teach gymnastics to the boys in the primary school also.

(5) To raise the pay of the night-watcher attached to the lower secondary school at Pithápuram from Rs. 2 to Rs. 3 as the pay is inadequate for the duties required of him.

(6) To reduce the scale of the lower secondary school at Tallapudy where the daily average attendance is only 39. The cost per pupil, viz., Rs. 2–9–0 is heavy as remarked by the Director of Public Instruction.

(7) To entertain a Sanscrit pandit on Rs. 12 (inclusive of pensionary contribution) in the lower secondary school at Tanuku, in accordance with the recommendation of the assistant inspector of schools.

(8) To take over under the management of the Narsapur Taluk Board the Taylor High school at Narsapur. In recommending this proposal, the President of the taluk board makes the following observations:—

The total estimated cost of the maintenance of this school is Rs. 5,966 including the cost of library books and miscellaneous charges. The net cost to the board is estimated at Rs. 70; it will probably not exceed Rs. 300. This was proposed by the taluk board and recommended by the district board in the budget for the current year; but the Government in its review of the budget vetoed the proposal, directing that the attention of the taluk board would be drawn to the remarks of the Director in clause 6 of his letter embodied in the said Government Order in which the Government concurred. The Director, in clause 6 of his letter above referred to, said at last that at any rate the proposal should form the subject of a special communication. The school is nearly self-supporting and the taking over will only mean giving it a helping hand, whereas if allowed to its own fate, a high school will soon be wanting to the Narsapur division, and it will be a more difficult process for Government or other agency to have a new school opened than to keep up a working one. The Amalápuram high school, to quote a precedent, is under the management of the Rajahmundry Taluk Board, and were it not for fear of losing so useful an institution with no prospect of the Government or other agency supplying the need, the taluk board would not advocate the taking over of its management. Apart from the college at Rajahmundry, each division of the district has now the advantage of a high school.

The President of the taluk board has also addressed a special communication on this subject to the Director of Public Instruction, Madras, a copy of which is enclosed (*vide* enclosure marked A).

31. *Secondary Schools—Salary-result System.*—The estimated outlay under this head is Rs. 11,370 against Rs. 9,020 provided in the current year's budget. The increase is the net result of the following new proposals made by the taluk boards concerned:—

(1) To convert the salary-result primary schools at Penukonda and Kanuru under the Ellore Taluk Board into the vernacular lower secondary schools, without any increase in the teaching staff.

(2) To convert the primary schools at Achanta and Mogalturru under the Narsapur Taluk Board into vernacular lower secondary schools.

(3) To convert the vernacular lower secondary school at Bhímavaram under the same taluk board into a primary school on the salary-result system.

32. *Elementary Schools—Salary-result System.*—The total expenditure under this head is estimated at Rs. 83,780 against Rs. 87,580 estimated in the current year's budget and Rs. 86,627, the actuals of 1894–95. The decrease when compared with the current year's estimate is the net result of the following proposals:—

Rajahmundry Taluk Board.—(1) To grade the salaries of the teachers in the following schools with reference to the average attendance, the scale adopted being chiefly based on that proposed by the Assistant Inspector of schools and recommended by the Director of Public Instruction, Madras:—

Angara	Draksharama (Muhammadan)
Tamarapalli	Taki
Kuyyeru	Inavilli
Biccavolu	Gangalakurru
Devarapudi	Sanapillilanka
Kapileswarapuram	Komaragiripatnam
Kotipalli	Ambajeepela
Medapadu	Palagummi.
Vedumpaka	

The scale recommended by the educational officers is as follows:—

		Rs.
In schools having average attendance between 20 and 40 one teacher on		7
Do. do. 40 and 60, two teachers	one on	8
	„ on	7
In schools having average attendance between 60 and 10, three teachers	„ on	10
	„ on	8
	„ on	7
In schools having average attendance between 80 and 120, four teachers	„ on	12
	„ on	9
	„ on	7
	„ on	5

The salary of Rs. 5 for any teacher, although he may be an assistant, being unduly low, the taluk board resolved that such teachers should be paid Rs. 6 and not Rs. 5 each as proposed by the educational officers, and the district board has also approved of the same.

(2) To constitute a strong upper primary school in place of the two schools hitherto existing at Dowlaishweram, in order to serve as a feeder to the lower secondary school at the same place.

(3) To abolish the feeder primary school attached to the high school at Amalápuram and the lower secondary school at Kottapeta whose retention has not been recommended by the educational officers.

(4) To raise the pay of the servants attached to the following schools from As. 4 to As. 8 each:—

Rámachandrapuram	Amalapuram (Muhammadan)
Anaparti (Muhammadan)	Inugantinaripeta (Muhammadan)
Anataram	Velivelapalli.
Palivela (Muhammadan)	

(5) To raise the pay of the servants attached to the school at Korumilli from As. 8 to Rs. 2. Certain new primary schools have also been proposed to be started by this taluk board, but the proposal has been vetoed by the district board for reasons explained in paragraph 21 *supra*. The board is rather disposed to improve the schools already existing before opening new schools. No possible good can arise from multiplying schools with teachers on salaries ranging from Rs. 5 per mensem, and I should think that the pay should in no case be less than Rs. 7 in these days in this district.

Ellore Taluk Board.—(1) To abolish the schools at Marenpalli, Pedatadepalli, Parempudi, Pittala-Vemanaram, Ankanagudem and Jalipudi (night) owing to the low average attendance.

(2) To dispense with one teacher in each of the primary schools at Unguturu, Pippara, Jalipudi, Madapalli, Vatluru and Kovvali on account of the poor average attendance exhibited at these schools.

(3) To reduce two teachers in the primary school at Chattaparru, as the number of teachers is found to be in excess of requirements.

(4) To provide an additional teacher for each of the primary schools at Iragavaram, Kovvuru and Yernagudem to meet the present increased requirements.

(5) To revise the staff of the teachers in the schools at Duvva and Relangi owing to rise in the average attendance.

(6) To open new Panchama schools at Kykaram, Mupparru and Madhavaram.

(7) To abolish the Muhammadan school at Tállapúdi and to transfer the same to Duvva, as the Muhammadan population at Duvva is comparatively large.

(8) The proposal referred to in paragraph 31 (1) *supra*.

(9) To open new schools at Badampudi, Koppaka and Gundugolam (night).

(10) To raise the pay of the servants attached to the schools at Duvva and Relangi from As. 12 each to Rs. 3 and Re. 1, respectively.

Narsapur Taluk Board.—(1) To revise the scale of the teaching staff in the following schools in accordance with the scale recommended by the educational officers:—

Jinnuru	Tatipaka
Narsapur (Muhammadan)	Lankala-Gannavaram
Nagaram (Hindu)	Battilanka
Gummaluru	Akividu (Muhammadan)
Kadali	Yendagandi
Vemavaram	Undi
Vedangi	Toleru
Penumadam	Korukonda
Manepalli	Ganapavaram.
Razolu	

The scale referred to has not been applied to Panchama schools which deserve special consideration. The proposal to fix the pay of the lowest grade of teachers at Rs. 5 has not also been approved for reasons stated in paragraph 32 (1) *supra* regarding the schools under the Rajahmundry Taluk Board.

(2) To convert the primary schools at Achanta and Mogalturru into vernacular lower secondary schools owing to the gradual rise in the average attendance and that of the vernacular lower secondary school at Bhímavaram into a primary school with a reduced scale of salaries for the teachers as the highest class in the same has been transferred to the (English) lower secondary school at the same place—*vide* also paragraph 31 (3) *supra*.

(3) To abolish the following schools in accordance with the recommendation of the educational officers owing to a large falling off in the average attendance:—

Gumparru	Gopavaram
Kallakurru	Kaligotla
Cherukunada	Valluru
Kondovapadu	Veeravasaram (night).

(4) To open new schools in the villages of Garagaparru, Dagguluru, Digamarru and Narsapur (night).

In the first three places the want of facilities for education is reported to be keenly felt by the villagers. At the last place a night school has already been maintained by a certain person, who being no longer able to maintain it, has applied to the taluk board to take up the school under its management, and the sub-assistant inspector of schools has recommended the same. Consequently, the board has transferred the Veeravasaram (night) school proposed to be closed to this place.

(5) To reduce the pay of one of the teachers in the schools at Rustumbada and Perupalem from Rs. 12 to Rs. 10, to raise the pay of one of the teachers at Rayakuduru school from Rs. 4 to Rs. 6 and to raise the pay of two teachers in the school at Mogallu from Rs. 8 and 4 to Rs. 9 and 6, respectively.

The present staff of teachers in the schools at Rustumbada, Perupalem, Rayakuduru, Mogallu, Pedakapavaram and Bhímavaram is retained, although their average attendance is apparently low. The attendance given in statement IV-A is only temporary, and there is every prospect of its rising steadily. The school at Kovvada, whose average attendance is 19, is also proposed to be retained, although it is recommended to be closed by the educational officers, as one of the taluk board members, who is a resident of the village, attributes the low attendance to the inefficiency of the present teacher, and strongly presses the board to try it for another year with an efficient teacher, which the board has agreed to do. "There are two more schools at Burugapalli and Kommuchikkala, the average attendance of which is shown in statement IV-A as *nil*. The first of these two is newly sanctioned to be opened for the current year, but it has not been opened up to September and the average attendance having been taken for the first six months, it has been shown as *nil*. It has since been opened and in working order. As to the second school, it is an old one continuing for some years and in fact the attendance is precarious. It was once closed temporarily and it has been revised only in September last and is now working with sufficient strength. As there was no school opened up to September, the average attendance has been shown as *nil*."

Cocanada Taluk Board (1).—To reduce the scale of the establishment in the schools at Yeleswaram, Mallavaram, Neelapalli, New Coringa and Virava in accordance with the scale recommended by the educational officers.

(2) To abolish the primary school at Burugupudi and the Panchama school at Kondayapalem on account of the decrease in the average attendance.

(3) To provide for the Hindu boys' schools at Ragampeta and Viranada newly opened by the taluk board in the current year.

(4) To establish a Muhammadan school at Talluru and two Panchama schools, one at Gorinta and the other at Senkavaram.

(5) To entertain an additional teacher in the school at Pithápuram agraharam.

(6) To raise the pay of the servants attached to twenty-three schools from As. 4 to As. 8 each per mensem.

(7) To remove the provision for the gymnastic teacher in the primary school at Tuni with reference to the proposal referred to in paragraph 30 (4) *supra*.

With reference to the scale of teachers recommended to be adopted in the primary schools and the other proposals made by the educational offices, the president of the taluk board says :—

The taluk board considers that the salaries of head and last teachers in a school having four teachers are very low. It is, therefore, resolved for the present to retain the old scale. The entertainment of additional teachers in the schools at Vadlamuru, Veeravaram, Karapa Samalkot (Panchama), Injaram, Nagulapalli, Dharmavaram, Uppada, Pithápuram agraharam and Titagunta is also recommended. But the board sanctioned the entertainment of an additional teacher in the school at agraharam alone, as one has already been entertained. No additional teachers can, for the present, be sanctioned for the other schools, as the scale, from the saving of which the cost is proposed to be met, was disapproved by the board. But due consideration for the entertainment of additional teachers in these schools will be given in due course. It is found that there are additional teachers in some schools where the average attendance is less than the schools for which the additional teachers were proposed by the Educational Department. But it is not known whether the fall in attendance in those schools is temporary or permanent; if it is permanent, the additional teachers thereof will be transferred to places where they are needed at the close of the current year. The establishment of a Muhammadan school at Jaggampeta is not also approved of by the board for want of funds.

33. *Grants-in-aid, Results Grants*.—The estimate under this head is Rs. 10,040 against Rs. 10,420 estimated in the current budget and is based chiefly on the recommendations of the educational officers. The Ellore, Narsapur and Cocanada Taluk Boards resolved to pay these grants at the maximum rates, while the Rajahmundry Taluk Board has omitted again to furnish information on this point, although its attention has several times been drawn to the omission.

34. *Grant III, Medical Services, &c.*—The total outlay estimated under this grant is Rs. 1,66,570 against Rs. 1,56,830 provided in the current year's budget and Rs. 1,26,983, the actuals of 1894–95. The increase when compared with the current year's estimate is due to the causes specified under the several detailed heads noticed below.

35. *Hospitals and Dispensaries*.—The total allotment under this head is Rupees 48,750 against Rs. 43,080 estimated in the current year and Rs. 36,946, the amount actually spent in 1894–95. The increase is the net result of the following proposals :—

(1) To transfer the provision for the lady apothecary in charge of the female out-patients' dispensary at Cocanada from the head "Medical Practitioners" to the head "Medical Subordinates," as the same appears to be the right classification.

(2) To provide for the increased pay of the hospital assistants at Akividu and Peddápuram, with reference to G.O., No. 104, Public, dated 13th February 1892, as they have passed the colloquial examination in Telugu.

(3) To open a new dispensary at Potavaram in the Yernagúdem taluk. The President of the Taluk Board, Ellore, supports this proposal in the following terms :—

Potavaram is situated in the centre of the Yernagúdem taluk, the area of which is 585 square miles. There is, at present, only one dispensary in the whole taluk at Tállapúdi which is situated at one end of the taluk, at no great distance from Rajahmundry. Many parts of the taluk are malarious and unhealthy. There is at present no dispensary or hospital within a radius of 15 or 20 miles from Potavaram. There is a police station in the place and it is the head-quarters of a revenue inspector. The board has therefore resolved to establish a dispensary at this place, as it is strongly of opinion that a dispensary is required. I am aware that the District Surgeon is opposed to the opening of new dispensaries, but the circumstances in regard to this dispensary appear to be exceptional.

I fully endorse these remarks.

(4) To raise the pay of the hospital assistants attached to the hospital at Tállapúdi and the dispensary at Chintalapudi, with reference to the grade of the present incumbents.

(5) To raise the pay of the hospital assistant at Narsapur from Rs. 58–10–8 to Rs. 63–4–0.

(6) To provide for the increased pay of the compounders attached to the dispensaries at Bendamurlanka and Gollalamamidada, they having completed nine years service.

(7) To provide for the increased pay to which the compounders attached to the hospitals at Razolu, Tállapúdi and Pithápuram are entitled under G.O., No. 1662 L., dated 26th July 1889.

(8) To raise the pay of the assistant compounder attached to the hospital at Narsapur from Rs. 6 to Rs. 9 per mensem and to reduce the pay of the compounder attached to the Bhímavaram hospital from Rs. 15 to Rs. 9, as recommended by the District Medical and Sanitary Officer.

(9) To entertain a female clerk on Rs. 10 for the female out-patients' dispensary at Cocanada, as the same has been found to be absolutely necessary, the lady practitioner in charge of the dispensary not being able to cope with the clerical duties, in addition to her legitimate work.

(10) To provide for accommodation for in-patients in the hospital at Tállapúdi.

(11) To increase the provision under "Medicines and Surgical instruments" for the several dispensaries and hospitals, as the value of European medicines, &c., has risen on account of the depreciation of the rupee.

(12) To reduce the provision under "Contingencies" of the reserve hospital assistant by Rs. 40 with reference to actual requirements.

(13) To provide for the cost of four students recently proposed by the district board to be sent to the Madras Medical College to be trained as hospital assistants.

(14) To remove the sweeper on Rs. 2 attached to the District Medical and Sanitary Officer's establishment, as his services are not required.

(15) To raise the pay of the second clerk of the District Medical and Sanitary Officer's office from Rs. 13–8–0 to Rs. 18 (exclusive of pensionary contribution), as his present pay is represented to be insufficient for the duties performed by him. The District Medical and Sanitary Officer strongly recommends the increase and the board has approved of the same.

(16) To provide house-rent for hospital assistants in charge of dispensaries and hospitals where no provision has been made for free quarters, agreeably to the instructions conveyed in G.O., No. 154 L., dated 24th January 1895.

(17) To provide for the increased cost under "Miscellaneous," chiefly due to the proposed opening of a new dispensary at Potavaram.

The District Medical and Sanitary Officer recommended the transfer of the dispensary at Achanta to Pálakollu in consequence of the difficulty reported to have been felt in procuring a suitable rented building at Achanta for locating the dispensary and the want of appreciation, on the part of the villagers, of the advantages of having a dispensary in their midst. The Narsapur Taluk Board, instead of acceding to the District Medical Officer's proposal, proposed, however, to abolish the dispensary altogether, saying that no dispensary is needed at Pálakollu, which is only six miles from Narsapur, where there is a hospital already. But the district board has not approved of this proposal and resolved to retain the provision for the dispensary and to ask the taluk board to select some suitable place within its jurisdiction, if not Pálakollu, for locating the said dispensary, as the step taken by the taluk board appears to be a retrograde one. There is considerable room for the extension of medical relief and to curtail the provision under this head is anything but desirable. The sanction of Government is, therefore, solicited to the district board's proposal in this respect.

36. *Vaccination.*—The provision under this head is Rs. 14,310 against Rupees 14,300 provided in the current year's budget, and the increase is due to the district board's proposal to raise the pay of the peon attached to the Deputy Inspector of Vaccination, Ellore Range, from Rs. 6 to Rs. 7, this being the pay drawn by the peons of the Deputy Inspectors of the other ranges.

37. *Sanitation.*—The total expenditure estimated under this head is Rs. 55,350 against Rs. 55,270, the current year's estimate. The net increase is made up of a decrease under the sub-heads "Improvement of village-site" and "Arrangements at fairs and festivals" owing to provision having been made with reference to actual requirements as now estimated and an increase under the other sub-heads. The increase under "Improvement of water-supply" is chiefly due to larger allotments provided (1) by the Narsapur Taluk Board to meet the cost of repairing the tanks and wells in several villages which are reported to be greatly out of order, and (2) by the Cocanada Taluk Board to meet the requirements of the unions newly formed in the current year. The increased provision under "Other sanitary outlay" is mainly due to the large amounts provided for the construction of latrines in some of the unions. The increase under scavenging establishments is, on the other hand, due to the following proposals:—

(1) To transfer the provision for the sanitary maistries sanctioned in G.O., No. 483 L., Mis., dated 13th March 1895, from the head "Other sanitary outlay" to which it has hitherto been erroneously debited to the head "Scavenging establishments" in the case of the Ellore Taluk Board.

(2) To abolish the sweepers sanctioned for the following villages under the Narsapur Taluk Board, as no sweepers could be secured and as those whose services have been secured with much difficulty, have been found to be utterly useless:—Vemavaram, Penumadam, Yellamanchili, Mogallu, Poduru, Jagannadhapuram, Kavitam, Kodamanchili and Rayakuduru.

(3) To dispense with the services of one of the sweepers at Ganapavaram under the Narsapur Taluk Board as being unnecessary and to raise the pay of the other sweeper from Rs. 3 to Rs. 4.

(4) To increase the pay of the sweepers at Konitivada and Valluru under the Narsapur Taluk Board from Rs. 3 to Rs. 4 per mensem, "as they have been serving for some years on the same pay of Rs. 3 per mensem, and the tahsildars recommend the increase."

(5) To entertain an additional sweeper on Rs. 4 per mensem at Sivakodu, an important village in the Sivakodu division.

(6) To reduce the pay of the sweeper at Mori from Rs. 5 to Rs. 4.

(7) To dispense with the services of one of the sweepers attached to the village of Anaparti and of the sweepers at Vellasavaram and Teki under the Rajahmundry Taluk Board as no sweepers can be obtained.

(8) To entertain an additional sweeper on Rs. 4 in the village of Tapeswaram under the Rajahmundry Taluk Board.

With reference to G.O., No. 1791 L., dated 30th September 1895, I have to state that, although clear instructions were issued on receipt of the Government Order to the Presidents of the several taluk boards to furnish the information required by Government, the Presidents of the Ellore and Cocanada Taluk Boards alone have dealt with the subject, while the reports of the Presidents of the other taluk boards are silent on the point. The attention of the latter officers will be drawn to this omission and the necessary information, so far as the scavengering establishments under their control are concerned, will be submitted to Government on receipt of the same from them The President of the Cocanada Taluk Board reports that the sweepers employed for the removal of rubbish from the village-site do that business alone and do not consent to remove in addition fœcal matter especially. He also states that they remove such matter when it is intermixed with the ordinary village rubbish and that no special establishment is maintained for the purpose, except in recognized latrines in the unions. The President of the Ellore Taluk Board reports that the scavengers employed in the unions of Tanuku, Attili and Penukonda remove fœcal matter, while the scavengers remove rubbish only in the other unions as well as in non-union villages. The difficulty of securing totties is felt everywhere in the district as the work is considered degrading and is a disadvantage in the way of sanitary reform and improvement, which it is not easy to cope with.

38. *Choultries.*—The outlay estimated under this head is Rs. 17,470 against Rs. 14,910 provided in the current year's budget. The increase is the net result of the following proposals:—

(1) To provide for the entertainment of a cook on Rs. 5 and a servant on Rs. 2–8–0 for the Kruttiventivari choultry at Dowlaishweram recently transferred to the management of the Rajahmundry Taluk Board.

(2) To provide for the increment accruing in the pay of the Peddápuram choultry gumastah as per G.O., No. 483 L., Mis., dated 13th March 1895.

(3) To raise the pay of the female Sudra servant attached to the endowed choultry at Nallacheruvu from Re. 1 to Rs. 1–8–0 per mensem, as the present pay has been found to be inadequate.

(4) To reduce the establishment in the endowed choultry at Razole as some of the lands comprising the endowment have recently been made over to the heir of the original donor under the decree of a Civil Court, and as it is not possible to maintain the present establishment with the diminished income of the endowment.

(5) To reduce, for the same reason, the provision under "Feeding charges" and "Contingencies" of the said institution.

(6) To raise the provision under "Feeding charges" of the Podagatlapalli choultry with reference to actual requirements.

(7) To reduce the provision under "Contingencies" of the unendowed choultry at Mogalturru.

(8) To provide for the purchase of utensils, &c., for the use of some of the unendowed choultries under the Rajahmundry, Ellore and Narsapur Taluk Boards.

(9) To provide for the payment of peishcush, local cess, salary of village establishment, remissions and law charges, &c., for the village of Hukumpeta, in Rajahmundry taluk, which is the endowment of the Kruthiventivari choultry at Dowlaishweram, the management of which has been transferred to the Rajahmundry Taluk Board.

38-A. *Public Bungalows.*—The amount estimated under this head is Rs. 610 against Rs. 670 provided in the current year's budget and the decrease is due to the proposal of the Ellore Taluk Board to dispense with the services of the servant on

Rs. 5 attached to the public bungalow at Jangareddigudem as they are not required.

39. *Contributions to Provincial Services on account of Medical College, &c.*—The actuals of 1894–95 are repeated under the existing orders of Government on the subject.

40. *Contributions to Private Individuals.*—The amount of Rs. 600 shown under this head represents as usual the contribution paid by the Cocanada Taluk Board towards the cost of maintaining the Prince of Wales' choultry at Cocanada, founded by the late Pydah Ramakristniah Garu of Cocanada.

41. (*h*) *Miscellaneous*, (1) *Miscellaneous Endowed Institutions.*—The usual provision of Rs. 60 is not made under this head by the Rajahmundry Taluk Board, as it is doubtful whether the necessary probate for the administration of the trust relating to the Dwadasi fund will be obtained next year, owing to certain complications caused by the loss of the original will of the testator in the absence of which the board will not be in a position to obtain probate early and draw the interest due on the investments relating to the said trust.

42. (*h*) *Miscellaneous*, (3) *Miscellaneous.*—The amount of Rs. 14,400 shown under this head represents as usual (1) charges on account of water-pandals established in the hot season of the year and (2) lighting charges. The total allotment for the latter item is Rs. 8,200 against Rs. 8,110 in the current budget. Steps are being taken by the several taluk boards to restrict expenditure under these two items as far as possible, with reference to the orders of Government to that effect.

43. *Grant IV, Miscellaneous.*—The total outlay estimated under this grant is Rs. 37,550 against Rs. 35,830, the current year's estimate, and Rs. 32,770, the actuals of 1894–95. The variations under the detailed heads are noticed below.

44. *Controlling Establishments at the Presidency.*—A provision of Rs. 4,300 in round figures is made under this head, with reference to the percentage rates advised in G.O., No. 2190 L., dated 19th November 1895.

45. *Local Boards' office establishments.*—An amount of Rs. 12,530 is estimated under this head against Rs. 12,940, the current year's figure. The net decrease is chiefly due to the fact of certain temporary clerks having been sanctioned in the current year for sorting the records of the offices of the Rajahmundry and Narsapur Taluk Boards. The following are the new proposals made under this head for the next year:—

(1) To provide for the increments accruing in the pay of the establishments of all the local boards' offices and

(2) to entertain a clerk on Rs. 15 for six months for sorting the records of the Ellore Taluk Board's office, which are reported to be in a confused state. The taluk board proposed the entertainment of the clerk for one year, but the district board was of opinion that a period of six months would be quite enough. There was also a proposal to raise the pay of the third clerk of the same office from Rs. 12 to Rs. 15, which was disallowed by the district board. No provision has been made for the establishments of Local Fund inspectors and gumastahs in taluk offices, as the proposals recently submitted to Government regarding the same have not yet been sanctioned.

46. *Contingencies.*—There is an increase of Rs. 430 under this head when compared with the current year's estimate, and it is due chiefly to the increased amounts provided under "Stationery", "Postal charges" and "Travelling allowance to non-official members," with reference to the revised estimate under these heads for the current year and the requirements as now estimated for the next year.

47. *Loans—Interest.*—An amount of Rs. 2,130, in round figures, is provided under this head to provide for interest at $4\frac{1}{4}$ per cent. for three months on the loan of two lakhs of rupees proposed to be obtained from Government, with reference to the railway project already adverted to. It is calculated that the money will not be wanted until the 1st January 1897 or the beginning of the working season of 1896–97 for such a work.

48. The grand total of the estimated outlay under all grants, together with the reserve of Rs. 70,900 calculated at the prescribed percentage rate (after excluding from the receipts the loan of two lakhs taken credit for from Government), aggregates Rs. 10,44,180 against Rs. 9,06,630 estimated in the current year and Rs. 7,02,366, the actuals of 1894–95. The budget closes with a balance of Rs. 1,68,180, distributed among the several funds as noted below:—

	Rs.
District fund—	
General	36,422
Canal and Ferry fund	19,918
Taluk funds—	
General	23,372
Endowments	87,715
Union funds	753
Total	1,68,180

The balances available for general purposes under the District and Taluk funds, including Union funds, are 13·8 and 5·4 per cent., respectively, of the estimated current receipts exclusive of the loan taken credit for from Government in the case of the District fund and of endowment receipts in the case of the Taluk funds.

49. From the above it is clear that the closing balance in favour of endowment funds is still very large. The President of the Cocanada Taluk Board promises to take the necessary steps to utilize the very large balance in favour of the endowed choultries under his control, the balances in favour of the markets not being very large. The Presidents of the other taluk boards do not state what steps they propose to take in this matter and their attention will be drawn again to the importance of utilizing the balances. Steps will also be taken to utilize, at the earliest possible date, the balance still remaining under the Canal and Ferry fund.

50. I regret the delay of a few days in the submission of this report and statements which is entirely due to the late submission of its report and statements by the Rajahmundry Taluk Board. It was only the reports of the Ellore and Cocanada Taluk Boards that were received in this office on or about the due date, *i.e.*, the 15th of November. The report of the Narsapur Taluk Board was received on the 25th November, while that of Rajahmundry was received on the 29th November, about fifteen days after the due date. The President of the Rajahmundry Taluk Board attributes the delay to the incompetence of his head clerk, who has since been removed, and to the fact of there having been a change in the holder of the office of President just at the time of the preparation of the budget. In fact, Mr. Meyer had to wade through all the figures and prepare the budget covering letter since he joined the sub-division on the 16th November last, and were it not for the expedition shown by him, I fear that the report would have been still further delayed.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., Director of Public Instruction, to the Chief Secretary to Government, dated Madras, 16th January 1896, No. 324.

I have the honour to submit the following remarks on the educational portion of the budget estimate of the Gódávari District Board for 1896–97.

2. *Receipts.*—(i) The board has again provided for the transfer of the Taylor High School, Narsapur, to the management of the Taluk Board, Narsapur, and has taken credit for Rs. 4,500 under fees, Rs. 2,200 under endowments and Rs. 1,200 under grants from Government. I cannot recommend the proposal to Government for reasons urged in my letter, embodied in G.O., No. 483 L., dated 13th March 1895. If Government agrees with me the above items should be omitted from the receipt side of the budget.

(ii) Omitting the grant expected for the Taylor High School, the Provincial grant for education is calculated at Rs. 10,960. The estimate should be reduced to Rs. 8,960, with reference to the actuals of the previous years. The total educational receipts will then be Rs. 36,450.

3. *Charges.*—The allotments proposed under the several heads of Grant II seem adequate and may be approved, with a reduction of Rs. 5,970 under secondary schools on account of the Taylor High School.

4. The net expenditure, with the above modifications, under Grant II will be Rs. 1,03,630 (Rs. 1,40,080 — 36,450), which is about 19 per cent. of the estimated revenue from cess on land. The expenditure on board primary schools is susceptible of reduction. Schools which are poorly attended or located in places already provided with results schools may gradually be closed. The so-called Anglo-Vernacular secondary schools cost the board (Rs. 11,376 — 2,835) Rs. 8,541 *net*. These schools should be made much more nearly self-supporting than at present, or they should be reduced to the upper primary standard.

From V. A. BRODIE, Esq., President, District Board, Gódávari, to the Chief Secretary to Government, dated 23rd January 1896, Dis. No. 119 D.B.

In continuation of this office No. 2802 D.B. of 1895, dated 23rd December 1895, submitting the district board's budget for 1896–97, I have the honour to state as follows:—

(1) *Statement No.* 1.—Consolidated budget for 1896–97. The amounts given under actuals for 1894–95 under receipts and expenditure differ by *one* from those given in Appendix IV to the General Local Fund review for 1894–95 under the corresponding heads.

(2) In the same statement, Rs. 3,447 and not Rs. 3,450 as already given should be shown as actual receipts for 1894–95 under "fees and fines" of the taluk, the remaining Rs. 3 being shown under "grass rents."

(3) The contribution of Rs. 600 payable by the Cocanada Taluk Board on account of the upkeep of the Prince of Wales' choultry should be shown under Grant III (*h*) Miscellaneous (1) Miscellaneous Endowed institutions, and not under Grant III (*g*) Contributions (iv) Private individuals as already shown. The modifications proposed in (2) and (3) are based on the classification adopted in Appendix IV of the general Local Fund review for 1894–95.

(4) The marginally-noted amounts have to be substituted for those already given in column 2 under Grant I in statement No. 1 of budget estimate for 1896–97 as they have been revised with reference to G.O., No. 2391 L., dated 9th December 1895, and necessary alterations have to be made in the figures affected by the substitution in paragraph 25 of the covering letter.

	Rs.
(*c*) "Establishment"—	
(1) Public Works Department supervision	850
(2) Scrutiny of plans and estimates..	1,420
(*d*) "Tools and plant"	1,545

(5) With reference to G.O., No. 2069 M., dated 9th December 1895, I beg to state that there being no such casual receipts as special provincial grants and loans as are referred to in the Government Order, no alteration need be made in the amount provided under Grant IV (1) controlling establishment at the Presidency.

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated Fort St. George, 29th January 1896, No. 179 S.

I have the honour to state that I have no remarks to offer on the provision made for vaccination and sanitation in the budget estimate of the Gódávari District Board for 1896–97. The allotment for the latter purpose is 6·1 per cent. of the estimated current receipts. This is a smaller percentage than afforded by the majority of district boards, and contrasts badly with the net expenditure on education during 1894–95, namely, 13·5. Including the works proposed under Grant I, the total sum set apart for the improvement of water-supply is Rs. 27,910.

2. Statement VI furnished to me does not specify the particulars of the scavengering establishments that will be employed in the villages which it is proposed to conserve. I am therefore unable to say whether or not they are suitable. The necessity for employing scavengers in lieu of more sweepers of rubbish is recognized by the President: but he points to the well-known difficulty as to securing toties. The board could not do better than import families at certain centres, and provide them with suitable house-accommodation or patch of land. When thus carefully looked after, they are likely to make permanent colonies.

Order—No. 457 L., dated 10th March 1896.

The estimated local fund receipts and charges of the Gódávari district for 1896–97, as passed by Government, are compared below with the budget and revised estimates for 1895–96 and the actuals of 1894–95:—

Revised Estimate for 1895-96.

2. The current receipts and charges are now estimated at Rs. 6,76,100 and Rs. 8,47,320, respectively, against Rs. 6,85,570 and Rs. 9,06,630 in the sanctioned budget. The decrease in the receipts occurs chiefly under land-cess, school-fees and public works, being counterbalanced by an increase under debt heads; while the decrease in the charges appears under Grants II and III and the reserve, being partly met by an increase under debt heads. The amount paid to the heir of the original founder of the Razole choultry, referred to in paragraph 6 of the President's first letter, should, as remarked by him, be debited to refunds under Grant III and the necessary correction will accordingly be made in Statement IX.

Budget Estimate for 1896-97.

3. *Receipts.*—The receipts for the ensuing year are placed at Rs. 9,13,840 against Rs. 6,76,100 in the revised estimate, the increase appearing chiefly under land-cess, school-fees, choultry and ferry rents, public works and contributions from Provincial

funds on account of public works, partly counterbalanced by a decrease under debt heads. The district board's proposal in paragraph 9 of the President's first letter to raise the share of land-cess assigned to the Ellore, Narsapur and Cocanada Taluk Boards from one-half to two-thirds is approved. As the proposal of the Narsapur Taluk Board to take under its management the Taylor High School does not meet with the approval of Government, the credits taken under school-fees, income from endowments and contributions from Provincial funds on account of this school will be struck out, as recommended by the Director in paragraph 2 of his letter read above, and the total provincial grant for education will be reduced to Rs. 8,960. Under section 51 of the Local Boards Act, the sanction of Government should be obtained for the transfer of the Kruttiventivari choultry at Dowlaishweram to the Rajahmundry Taluk Board, if this has not already been procured. The taluk board's proposal to discontinue the levy of fees in the market at Tallapudi, referred to in paragraph 16, is approved. The loan of Rs. 2,00,000 from Provincial funds, for which credit has been taken on account of the railway, referred to in paragraph 20, will be allowed to stand, pending receipt of the separate communication and application promised by the President.

4. *Charges.*—(1) The probable charges are put down at Rs. 10,44,180 against Rs. 8,47,320 in the revised estimate, the increase under all grants and the reserve being partly met by a decrease under debt heads.

(2) *Grant I.*—None of the new works provided for in the budget should be undertaken until the plans and estimates have been sanctioned by competent authority. The proposal is approved to construct a building for the dispensary for Women and Children at Cocanada, which is referred to in clauses (4) and (5) of paragraph 23 of the President's first letter, and towards the erection of which the Government is pleased to notice that M.R.Ry. Badam Venkataratnam Garu has made the very handsome contribution of Rs. 5,000. The allotments for the maintenance of the Kovvur-Manjair junction canal and for clearing silt in the old landing channel will be raised from Rs. 2,600 and Rs. 100 to Rs. 2,800 and Rs. 900, respectively, with reference to G.O., No. 2391 L., dated 9th December 1895. For supervision by the Public Works Department and tools and plant, Rs. 850 and Rs. 1,540, respectively, will be provided, as requested by the President in paragraph 1 (4) of his second letter read above. As regards the President's proposal to provide Rs. 1,420 as contribution to the Public Works Department for the scrutiny of local fund plans and estimates, he will be referred to paragraph 2 of the memorandum of the Public Works Department, No. 3842 C., dated 5th December 1895, communicated with the Government order above quoted, from which it will be seen that the amounts entered in statement C appended to it were based on the actuals of previous years, as the necessary information was not furnished by the Presidents. In the absence of correct information, however, the amount above referred to will be provisionally entered.

(3) *Grant II.*—The provision of Rs. 5,970 made for the Taylor High School, will be struck out as recommended by the Director in paragraph 3 of his letter. The remaining additions to and alterations in the educational establishments proposed in paragraphs 28, 30, 31 and 32 of the President's first letter are sanctioned. The attention of the taluk boards concerned will be drawn to the remarks of the Director in paragraph 4 of his letter, and they should revise their lists of schools accordingly. The President of the Rajahmundry Taluk Board should be called upon to report the rates at which results grants are to be paid to schools under the board's control, and to explain the omission to furnish this information.

(4) *Grant III.*—The remarks of the Surgeon-General on the provision for medical services will be awaited. The additions to and alterations in the vaccine, sanitary, choultry and bungalow establishments proposed in paragraphs 36, 37, 38 and 38-A of the President's first letter are sanctioned. The information from the Presidents of the Rajahmundry and Narsapur Taluk Boards, promised in paragraph 37, will be awaited, and the attention of the taluk boards will be drawn to the Sanitary Commissioner's recommendation in the latter portion of paragraph 2 of his letter read above. Arrangements should be made as far as possible for the removal of the fœcal

matter as well as rubbish from villages. A sum of Rs. 4,440 will be provided for the Local Fund inspectors and peons, whose employment has been sanctioned in G.O., No. 314 L., dated 14th February 1896.

From Statement VIII it appears that no contribution has been made from taluk funds to meet the lighting charges to be incurred in the Peddápuram union, and that the allotment for payment to the Mandapeta union for this purpose is inadequate. The necessary provision will now be made. It is to be regretted that notwithstanding the remark in paragraph 4 (4) of G.O., No. 483 L., dated 13th March 1895, the contributions from taluk to union funds are steadily increasing. Great care should be taken to limit these contributions as much as possible, so that the inhabitants of the unions may not benefit at the expense of the general population of the taluk.

(5) *Grant IV.*—The entertainment of a clerk on Rs. 15 for six months for sorting the records of the Ellore Taluk Board's office, proposed in paragraph 45 (2) of the President's first letter, is sanctioned. A sum of Rs. 2,310 will be provided to meet the cost of the taluk gumastahs whose entertainment has been approved in G.O., No. 39 L., dated 8th January 1896.

5. *Reserve and Balance.*—The reserve calculated at 10 per cent. of the estimated receipts is Rs. 63,450. The budget, as revised by Government, closes with a balance of Rs. 1,64,310, of which Rs. 1,160 appertain to unions, Rs. 87,720 to endowed institutions and Rs. 19,920 to the canal and ferry fund, leaving Rs. 55,510, or 9 per cent. of the receipts available for general purposes. The deficit with which the transactions of the Pithápuram market are expected to close the year should be made good either by a loan or contribution from general revenues, as required by No. 25 of the Local Fund rules, and early steps should be taken to expend the large balance under the other endowed institutions.

(True Extract.)

G. S. FORBES,

MARCH.

Budget.

Reviewing the Gódávari District Board — for 1896–97.

To
the S.E. I circle.

No. 457 L., 10th March 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following papers:—

From V. A. BRODIE, Esq., President, District Board, Gódávari, to the Chief Secretary to Government, dated 23rd December 1895, Dis. No. 2802-D.B.

I have the honour to submit the consolidated revised estimate for the current official year and the consolidated budget estimate for the next official year as passed by the district board at its meeting held on the 10th December 1895. The prescribed statements as per list enclosed and a tracing of the district map showing the particulars required by rule 12 of the Local Fund Rules accompany.

Revised Estimate for 1895–96.

Receipts.

2. The estimate of the year as now revised opens with a balance of Rs. 4,69,739 (which is the figure intimated by the Inspector of Local Fund Accounts, Madras, after the audit of the previous year's accounts) against Rs. 3,50,760 anticipated in the budget. The increase is chiefly due to short expenditure under Grant I in the previous year. The estimate of the current receipts as now revised amounts to Rs. 6,76,098 against Rs. 6,85,570 the budget estimate, the total receipts, including the opening balance, amounting to Rs. 11,45,837 against Rs. 10,36,330. The most important of the variations in the several detailed heads are noticed hereunder:—

(1) *Land-cess.*—The receipts as per revised estimate amount to Rs. 5,08,600 against Rs. 5,18,000 estimated in the budget. The decrease is due to the prompt collection of the demand of land revenue in the previous year.

(2) *House-tax.*—The income under this head amounts to Rs. 27,054 against Rs. 25,860 the budget figure, the increase being due to the collection of arrears in some of the unions and the careful revision of the house tax registers in certain others subsequent to the budget.

(3) *School Fees.*—There is a decrease of Rs. 3,235 under this head when compared with the budget estimate. It is the net result of the removal from the estimate of the estimated receipts belonging to the Taylorpettah high school at Narsapur, as the proposed transfer of the school to the management of the Narsapur Taluk Board has not been sanctioned by Government and of the increased receipts expected under fee collections in certain other schools.

(4) *Choultry Rents.*—The revised estimate amounts to Rs. 16,312 against the budget estimate of Rs. 16,800, and the decrease is due to certain lands attached to the endowed choultry at Razole having been made over to the legal heir of the original founder of the institution, in accordance with the terms of a decree passed in his favour by the Subordinate Court at Cocanada (*vide* this office No. 2371-D.B., dated 30th October 1895, read in G.O., Mis. No. 2151 L., dated 11th November 1895).

(5) *Market Rents.*—The assets under this head as now revised aggregate Rs. 19,525 against Rs. 17,640 estimated in the budget, the increase being due to the increased amounts actually realized in the case of certain markets owing to keen competition among the bidders.

(6) *Public Works—Contributions from Municipalities.*—At the instance of the present Chairman of the Municipal Council, Cocanada, a careful inquiry has been instituted into the question of the balance due from the council on account of its share of the cost of repairing the iron girder bridge at Cocanada, and in the result it has been found that the correct balance was Rs. 1,520 and odd and not Rs. 4,700 and odd as stated in paragraph 14 of the current year's budget covering letter. Hence the decrease under this head in the revised estimate compared with the amount taken credit for in the budget.

(7) *Contributions from Provincial Funds under Public Works.*—The amount of Rs. 600 taken credit for under this head represents the yearly contribution paid from the agency funds, in accordance with an agreement entered into by the district board with the Government Agent, Gódávari, towards the cost of maintaining a portion of the road running from Ellore to Tallapudi and lying within the agency tracts. Up to the beginning of the current year portions of some of the local fund roads lying within the agency limits also were maintained at the cost of the district board. But the board resolved on the 30th March 1895 to make over the said portions to the agency department, with effect from 1st April last, as the duty of maintaining them belongs to the agency department and not to the district board. At the instance of the Government Agent, however, the board agreed to maintain the portion of the Ellore-Tallapudi road above referred to on condition of receiving from Provincial funds an annual contribution of Rs. 600. This arrangement was not anticipated when the budget was drawn up.

(8) *Allotments from the District Fund.*—The increase of Rs. 30,000 under this head, when compared with the sum estimated in the budget, is due to allotments of Rs. 25,000 and Rs. 5,000 subsequently made to the Narsapur and Cocanada Taluk Boards, respectively, the former to make up the deficit balance against the taluk board and the latter towards the cost of constructing the bridge over the Divili river, which was originally a district board work but subsequently transferred to the Cocanada Taluk Board (*vide* G.Os., Mis. Nos. 1450 L. and 1864 L., dated 16th August and 9th October 1895).

Expenditure.

3. *Grant I, Public Works.*—The total estimated expenditure under this grant is Rs. 5,01,640 against Rs. 5,00,390 estimated in the budget. The deviations in the detailed heads from the allotments provided in the budget are noticed below :—

(*a*) *New Works.*—The probable expenditure estimated under this head is Rs. 1,78,153 against Rs. 1,76,340, the budget estimate. The net increase is due to the allotments made subsequent to the budget for the execution of incomplete and untouched works relating to the previous year. There is a decrease, when compared with the corresponding budget figures, under the sub-heads "Buildings" and "Miscellaneous public improvements," and this is due to the surrender of the large allotments provided by the taluk boards concerned for the construction of school, hospital and choultry buildings and market sheds, as the necessary plans and estimates were not ready and it had not been possible to procure sites in the case of some of them.

(*b*) *Repairs.*—The estimated outlay under this head amounts to Rs. 2,33,789 against Rs. 2,18,260 estimated in the budget. There is an increase under all the sub-heads which is chiefly due to subsequent allotments made from the reserve in favour of the several local boards for the execution of "Special repair" works left incomplete at the close of the previous year and for repairing certain school and choultry buildings and public bungalows.

As in the last year, the probable expenditure as now estimated under the several heads of public works, differs greatly from the total grants including subsequent allotments and transfers as shown in the last column of statement IX. The estimated short expenditure under road works is attributed by the District Board Engineer to the several contracts having been given out very late in the year by the presidents of the local boards concerned. This is no doubt partly correct, but one main reason is also the general inefficiency of the subordinate engineering staff, to reorganize which

proposals have recently been submitted to Government. I may further add that the present system of giving out contracts for local fund works admits of improvement in certain directions, and I have already placed myself in communication with the presidents of the taluk boards in view to substitute a more workable system, in place of the existing arrangements, from next official year. In the case of the other works, the short expenditure anticipated is due to the plans and estimates relating to the same not having been ready and to the difficulty of procuring suitable sites for some of the school buildings.

(*c*) *Tolls and Ferries.*—The budget estimate of Rs. 2,560 under this head is reduced to Rs. 1,000 as arrangements are being made very late in the year for the working of the proposed Narsapur ferry, the construction of the stern-wheel steamer for the said ferry having been completed only at the end of last month.

(*d*) *Tools and Plant.*—The net decrease under this head compared with the budget estimate is attributable to the removal of the provision for the construction of a steamer for the use of the proposed ferry between Rajahmundry and Bhadrachalam, as the project in question was condemned by the Superintending Engineer and has been abandoned by the district board on reconsideration (*vide* correspondence ending with G.O., Mis. No. 1883 L., dated 11th October 1895).

4. *Grant II, Education.*—The probable outlay as now estimated amounts to Rs. 1,38,820 against Rs. 1,48,630, the amount allotted in the budget. The decrease is mainly due to (1) the removal of the provision originally made for the Taylor high school at Narsapur, as the proposal of the Narsapur Taluk Board to take over the school under its management has not been sanctioned by Government, (2) the late opening of some of the newly sanctioned primary schools, (3) the delay in filling up the vacancies among teachers in certain schools.

5. *Grant III, Medical Services, &c.*—Rs. 1,44,744 are now estimated under this grant against Rs. 1,56,830 estimated in the budget. The net decrease is chiefly due to (1) the closure of certain dispensaries for some months in the year on account of the absence on leave of the hospital assistants in charge, (2) no provision having been made, as originally proposed, for the accommodation of in-patients in some of the dispensaries for want of suitable buildings, (3) the provision under "Midwives" having been reduced to a great extent, as the services of trained midwives could not be secured, (4) the surrender of certain allotments under the heads "Improvement of water-supply" and "Improvement of village-sites," there being no necessity for the utilization of the same, (5) the reduction of the establishment attached to the endowed choultry at Razole consequent on the decree of a civil court directing certain lands constituting a portion of the endowment of the institution to be made over to the heir of its original founder, and (6) the savings anticipated under charges relating to water-pandals maintained by the several taluk boards during the hot season.

6. *Grant IV, Miscellaneous.*—The revised estimate under this grant comes to Rs. 37,959 against Rs. 35,830, the budget estimate. The net increase is mainly due to (1) the increased amounts required to be spent under the several items comprising the sub-head "Contingencies," the amounts provided in the budget having been found to be inadequate, (2) the provision under the head "Pension" having been raised, there having been an addition to the list of local fund pensioners subsequent to the budget, and (3) the increased provision made by the Narsapur Taluk Board under the head "Law charges" to meet the payment of a decree passed in favour of the heir of the original founder of the choultry at Razole for Rs. 1,465 and odd being the mesne profits of certain lands, hitherto included in the endowment, ordered to be made over to the said heir, as the said lands were found not to form part of the endowment. It appears to me that the amount of Rs. 1,465 and odd referred to above should properly be debited to the head "Refund of receipts" under Grant III and not to "Law charges" as has been done by the Narsapur Taluk Board.

7. The grand total of expenditure as per revised estimate (including Rs. 15,654 debited in the treasury account to debt heads for the first six months of the year and Rs. 8,500 shown under the reserve) aggregates Rs. 8,47,317 against Rs. 9,06,630,

the estimated expenditure as per budget. A closing balance of Rs. 2,98,520 is thus left against Rs. 1,29,700 in the budget. Of this balance, however, Rs. 43,568 appertain to the canal and ferry fund, Rs. 14,603 to union funds and Rs. 76,457 to endowment funds, and the net balance available for general purposes is Rs. 1,63,892.

BUDGET ESTIMATE FOR 1896–97.

Receipts.

8. The budget opens with a balance of Rs. 2,98,520, which is the closing balance of the revised estimate for the current year. The current receipts amount to Rs. 9,13,840 against Rs. 6,85,570, the current year's budget estimate, and Rupees 7,16,976, the actuals of 1894–95. The most important of the variations in the detailed heads are noticed below. The total receipts estimated, including the opening balance, amount to Rs. 12,12,360 against Rs. 10,36,330 estimated in the current year's budget and Rs. 11,72,105, the actual receipts of 1894–95.

9. *Land-cess.*—The receipts estimated under this head are Rs. 5,36,000 against Rs. 5,18,000 estimated in the current year's budget and Rs. 5,28,377 the actuals of 1894–95. The increase, compared with the current year's estimate and the actuals of the previous year, is due to the expected increase of land revenue under revised settlement rates and the enhanced water-rate. The proportion of the district fund transferred to the several taluk boards in this district, under section 55 of the Madras Local Boards Act V of 1884, has heretofore been only one-half of the land-cess collected in the several taluks within the jurisdiction of the respective taluk boards. This proportion being evidently insufficient to meet the growing demands on the resources of the taluk boards, each board fell into the habit of framing its demands upon the district fund with an eye rather to what it could persuade the district board to give it, than on consideration of what it might claim to be fairly entitled to. Each taluk board came to think under this system that the more it asked the more it got. Accordingly the boards asked freely and increasingly. They took credit for large allotments from the district fund and forced the hands of the district board to allot funds which they could not even utilize in some cases. In this connection attention is invited to the remarks made by Mr. Wynne, my predecessor, in paragraph 20 of the covering letter for the budget for 1894–95. This procedure acted in a manner most unfavourable to economy. Owing to unpunctuality in the submission of the yearly estimates by the taluk boards, the district board had not sufficient time, every year, to scrutinize carefully these estimates which were generally permitted to stand. The only way of checking these increasing demands and of enforcing economy on the part of taluk boards is by raising the share of land-cess collections hitherto assigned to them, which was no more than the minimum prescribed by the Act, and by imposing on them a real and effectual responsibility for maintaining equilibrium in their finances, without asking, under ordinary circumstances, for any additional allotment from the district fund. This step is further rendered necessary by the re-classification of the taluk and district roads effected in 1894–95 under which certain roads which belonged formerly to the district board were transferred to the taluk boards concerned (*vide* paragraph 18 of the budget covering letter for 1895–96). Accordingly the district board resolved at its meeting held on 7th October 1895 that the share of the land-cess collections assigned to the Ellore, Narsapur and Cocanada Taluk Boards should be raised from one-half to two-thirds from next year and that of the Rajahmundry board —the richest of all—allowed to stand as before. The taluk boards were also advised to take credit for the land-cess collections in accordance with the above resolution of the district board and they have done so. I solicit, therefore, the sanction of Government to the arrangement in question. Practically, the same procedure has been followed in the case of the Rajahmundry board also, for that board following the old practice took credit for an allotment of no less than Rs. 69,000 and odd from the district board funds in framing its budget, but the district board has allotted Rupees 35,000 only, which is just about one-sixth of the land-cess collected within the limits of the local fund taluk. The question of laying down similar rules for regulating the allotments made to the unions by the taluk boards will shortly be taken up.

10. *House-tax.*—The amount estimated is Rs. 27,130 against Rs. 25,860, the current year's budget estimate, and Rs. 25,287, the actual collections of 1894–95. The increase is due to the proposed revision of the house-tax registers in some of the unions.

11. *School Fees.*—The estimate under this head is Rs. 31,890 against Rs. 30,090 estimated in the current year's budget and Rs. 27,941, the actuals of 1894–95. The increase, when compared with the current year's budget, is chiefly due to the increase expected in the strength of certain schools under the Rajahmundry and Cocanada Taluk Boards.

12. *Sale-proceeds of Books.*—No amount is taken credit for under this head, as no books are proposed to be purchased for sale among the several board schools, there being no necessity for the same.

13. *Education—Income from Endowments.*—The amount of Rs. 2,200 * taken credit for under this head represents the capital with interest in the hands of the managing committee attached to the Taylor High school at Narsapur, which the Narsapur Taluk Board again proposes to take under its management, with effect from 1st April 1896, apparently against the policy recommended by the Education Commission in the case of maintaining upper secondary schools. Whatever may be said as to the expediency of taking the particular institution under the management of the board, there is no doubt that the step tends to increase the responsibility of the local boards in the matter of education.

	Rs.
* Capital	2,000
Interest	200

14. *Medical.*—The estimated receipts under this head are Rs. 160 against Rs. 130 estimated in the current year's budget and Rs. 220 actually collected in 1894–95. The items comprising this head are of a purely fluctuating nature.

15. *Choultry Rents.*—The assets under this head amount to Rs. 18,230 against Rs. 16,800 estimated in the current year's budget and Rs. 18,746 the actuals of 1894–95. The net increase, when compared with the current year's budget estimate, is due to the rents expected to be realized from the lands attached to the Kruttiventivari choultry at Dowlaishweram, the management of which has newly been transferred to the Rajahmundry Taluk Board.

16. *Market Rents.*—The receipts estimated are Rs. 19,240 against Rs. 17,640 estimated in the current year's budget and Rs. 17,299 actually collected in 1894–95. The increase is due to the increased amounts expected to be realized from some of the markets at the sales in the next year although that at Tallapudi is proposed to be abandoned. In this connection, the President of the Ellore Taluk Board writes thus:—

> "The taluk board has resolved to put a stop to the system of leasing out the market at Tallapudi. There is no suitable place in which the market can be held and it has consequently to be in the main bazaar street. The greater part of the market produce is sold by the shopkeepers who have permanent shops in the bazaar street; a small quantity of articles will be sold on the road side. If the system of leasing out the market in Tallapudi is continued it is likely to lead to disputes between the renter and the bazaarmen, as the former wishes to collect fees from the bazaarmen. The market was leased out for the first time this year and the sale amounted to only to Rs. 115. The lessee requests that his bid may be cancelled unless he is permitted to collect fees on all articles sold both in the shops and on the road side. Under the circumstances the board resolved to cancel the lease of this market, and I request that the sanction of Government for the cancelling of the system of leasing out this market may be obtained."

17. *Ferry Rents.*—Rs. 40,000 are estimated under this head against Rs. 37,000 the current year's estimate and Rs. 32,855 the actuals of the previous year. The increase is due to the collections anticipated from the Narsapur steam ferry, which is now being established, and the increased rent derivable from the Rajahmundry steam ferry in accordance with the agreement entered into with the East Coast Railway authorities for the current fasli year.

18. *Sundry Receipts.*—The amount estimated under this head is Rs. 3,950 against Rs. 3,520 the current year's estimate and Rs. 399 the actuals of 1894–95. The

increase is mainly due to the Rajahmundry Taluk Board having shown under this head the fees to be levied on slaughter-houses, cart-stands and pandals and the fines realized under the Police Act which should properly be shown under the head "(*t*) Fees and fines" *supra*.

19. *Contributions from Private Individuals for Public Works.*—The income expected under this head is Rs. 8,000 against Rs. 3,200, the current year's budget estimate. The increase is chiefly due to the very liberal contribution of Rs. 5,000 offered by M.R.Ry. Badam Venkataratnam Garu, the Chairman of the Native Chamber of Commerce of Cocanada and a nominated member of the district board, towards the cost of constructing a suitable building for the female out-patients dispensary opened by the district board at Cocanada. With reference to this offer, the board recorded a resolution in the following terms on the 16th November 1895 :—

"The board has much pleasure in accepting the most generous offer of M.R.Ry. Badam Venkataratnam Garu and heartily accords him its warmest thanks for having in such a liberal and public spirited manner come to its assistance in the matter of providing suitable accommodation for the female out-patients dispensary and enabling the board to double its sphere of usefulness by converting it into an hospital; when the building is erected, it is further resolved that some permanent memorial of the gift shall be erected in a suitable place within the building."

20. *Contributions from Provincial Funds for Public Works.*—The amount of Rs. 2,01,900 shown under this head includes (1) Rs. 1,300 taken credit for by the Rajahmundry, Narsapur and Ellore Taluk Boards as building grants on school buildings proposed to be constructed by them, (2) Rs. 600 taken credit for by the district board as contribution from agency funds towards the cost of maintaining the agency portion of the road from Ellore to Tallapudi (*vide* remarks in paragraph 2 (7) *supra*) and (3) Rs. 2,00,000 taken credit for by the district board as a loan from Government towards the cost of constructing a light railway from Samalkot to Yeleswaram *viâ* Peddápuram. The district board has unanimously resolved to get a light railway constructed between the places above referred to as the project will (besides promising to be a very paying concern) confer a great boon on the people in general of this district. The cost of the project is roughly estimated at about 7 lakhs of rupees and the board proposes to meet the cost (1) by borrowing in all about three lakhs from Government, (2) by admitting the public as share-holders to the extent of another three lakhs and (3) by contributing the balance of one lakh from its own funds. The matter will form the subject of a separate communication and an application in the prescribed form for the loan now taken credit for from Government will then be submitted.

21. *Allotments from the District Fund.*—Notwithstanding the fact that a larger share of the land-cess collections had been assigned to them, the Taluk Boards of Cocanada and Narsapur failed to balance their budgets, as they were not able to provide the 5 per cent., balance required by the rules. The Rajahmundry Taluk Board, as stated above, closed its budget with a deficit of about Rs. 17,000 even after taking credit for an allotment of no less than Rs. 69,000 from the district fund. The district board was, therefore, obliged to revise the budgets of these taluk boards in the following manner :—

Rajahmundry Taluk Board—Grant I—

(1) To reduce the provision made under "New Works—Communications" by Rs. 13,600.

(2) To reduce the provision made under "New Works—Civil Buildings" by Rs. 9,000.

(3) To reduce the provision under "Repairs—Communications" by Rs. 9,500.

Grant II—

(4) To remove the provision for an additional teacher on Rs. 50 in the Amalapuram High school.

(5) To remove the provision for the increase of pay of the gymnastic instructor, the night watcher and the drawingmaster attached to the same school.

(6) To remove the provision for a Telugu Pandit for the Lower Secondary school at Dowlaishwaram.

(7) To remove the provision for fourteen new schools.

(8) To remove the provision for entertaining an additional servant in each of the Primary schools at Chinnurukoya and Duppalapudi.

Grant IV—

(9) To remove the provision for the increased pay proposed for certain clerks of the taluk board's office establishment.

Cocanada Taluk Board—Grant I—

(1) To remove the provision under "New Works—Communications" by Rs. 2,500.

Grant II—

(2) To remove the provision for increasing the pay of the headmaster of the night school at Samalkot and for raising the pay of the servant attached to the Vernacular Lower Secondary school at Jaggammapéta.

Grant III—

(3) To remove the provision for raising the pay of one of the cooks and the peon attached to the endowed choultry at Peddapuram.

Narsapur Taluk Board—Grant I—

(1) To remove the provision under "New Works—Communications" by Rs. 6,000.

Grant IV—

(2) To remove the provision for a temporary clerk for sorting the records of the taluk board's office.

(3) To remove the provision for increasing the pay of one of the two bill collectors in the Narsapur union.

(4) To remove the provision made for local fund inspectors and gumastahs in taluk offices. From the above, it will be seen that increases in the pay of teachers of schools and other establishments have been generally disallowed in all cases where no cogent reasons were assigned for the increases recommended. The revision of the budgets of the taluk boards on the above lines has resulted in showing an excess balance of Rs. 1,893 in favour of the Cocanada Taluk Board and Rs. 1,456 in favour of the Narsapur Taluk Board over and above the 5 per cent. balance prescribed by the rules. In the case of the Rajahmundry Taluk Board there is still a deficit of Rs. 40,520 and, as there is no possibility of reducing its budget expenditure any further, the district board has resolved to make an allotment of Rs. 35,000, as a special case, from its own funds and to leave the budget with a closing balance of Rs. 2,980 available for general purposes, which is less than the prescribed 5 per cent. balance by Rs. 5,520.

On a careful examination of the estimates of the taluk boards above referred to and in view of the various claims of a pressing character on the district fund, the district board has come to the conclusion that the taluk boards should not be permitted to exceed their own resources and has revised their budgets in the manner indicated above. The revision of the budgets, especially that of the Rajahmundry Taluk Board which was very carelessly prepared, has seriously increased the work of the district board's office, and I am calling the attention of the presidents of the taluk boards concerned to the matter, with a view to putting a stop to this unsatisfactory state of things in future. To increase the salaries of establishments under the taluk boards from year to year, without any fixed scale, is really a needless waste of local funds and I am glad to note that the district board voted against all such increases pending a general reorganization of the different departments which will soon engage the attention of the board. In no year are measures of economy more imperatively necessary than in this year, when a scheme entailing a permanent additional expenditure of about Rs. 22,000 per annum in connection with the reorganization of the Local Fund Engineering establishment is awaiting the sanction of Government. It has further struck me that the time has arrived for a detailed examination of the expenditure in the different departments in view to ascertain in what directions the existing

arrangements call for revision. A sub-committee has been appointed to investigate this question and submit definite recommendations to the board and pending the results of such enquiry, it is but fair that the district board should insist, as it has done, on each taluk board refraining from spending any portion of the increased allotment given to it upon any item of expenditure which cannot be regarded as *absolutely necessary*.

Expenditure.

22. *Grant I.*—The total allotment made under this grant amounts to Rs. 6,23,110 against Rs. 5,00,390, the current year's estimate, and Rs. 3,86,522, the actuals of 1894–95. There is a net increase when compared with the current year's budget estimate, and this is due to the expenditure of Rs. 2,00,000 proposed to be incurred on the project of the light railway from Samalkot to Yeleswaram *viâ* Peddápuram referred to in paragraph 20 *supra*. The more important of the detailed heads under this grant are noticed below.

23. *Public Works.*—(1) The following abstract compares the amounts allotted under the different sub-heads with those provided in the current year's budget and the actual expenditure incurred in 1894–95 :—

—	Budget estimate, 1896–97.	Budget estimate, 1895–96.	Actuals, 1894–95.
	Rs.	Rs.	Rs.
A. New works—			
1. Communications	3,07,700	1,21,760	1,17,737
2. Buildings	23,000	25,070	5,102
3. Miscellaneous Public Improvements.	16,720	29,510	14,032
B. Repairs—			
1. Communications	1,67,160	1,91,390	1,63,708
2. Buildings	4,700	6,580	4,650
3. Miscellaneous Public Improvements.	15,600	20,290	19,510

(2) Statements III-A and III-B give, in detail, the several works provided by all the local boards. The total allotment made under "New Works—Communications" includes the provision of Rs. 2,00,000 for the project of a light railway already referred to, and of Rs. 15,650 for ferry works. Out of the allotment made for ferry works, Rs. 5,650 are allotted for the construction of ballacuts required to meet the demand of the several ferries in the district, and Rs. 10,000 for the proposed bridge over the ferry between Coringa and Patanala, the cost of which is roughly estimated at Rs. 60,000. The District Board Engineer has been called upon to prepare and furnish for the sanction of the District Board and of Government detailed plans and an estimate for the same. The project is of considerable public utility benefiting a large population residing in villages in the Coringa division, besides others in the Amalápuram taluk. In consideration of the importance of this line of communication, the district board has already constructed two bridges on the line at Chollangy and Mattapalem at considerable cost and this large outlay can be turned to little practical good until the Coringa ferry is bridged as proposed. The board is, therefore, unanimous in recommending the utilization of the large balance under the canal and ferry fund for this work. As the work is of an emergent nature and as it has been thought of since the board abandoned the Bhadrachalam steam ferry project provided in the current year's budget, it is now included in the budget in anticipation of the sanction of its estimate by competent authority.

(3) In the case of other works, *i.e.*, road-works, pure and simple, probable balances on estimates relating to most of them are provided, and a provision of Rs. 10,000 is also made for a bridge over the Yeleru river near Simson's lock at Cocanada, the construction of which the board has taken upon itself agreeably to an arrangement entered into with Cocanada Municipal Council—(*vide* correspondence ending with G.O., Mis. No. 1377 M., dated 23rd August 1895. The estimate for the work has recently been submitted to Government for sanction through the Superintending Engineer, I Circle.

(4) Out of Rs. 23,000 provided under "New Works—Buildings," Rs. 13,000 are provided by the several taluk boards for the construction of school, choultry, dispensary and hospital buildings and Rs. 10,000 by the district board for the construction of a building for the dispensary for women and children at Cocanada. The working of the dispensary for women and children at Cocanada has been carried on very successfully under the management of a local committee. It is gratifying to note that the institution has already attained a high degree of popularity and is being largely taken advantage of by those for whom it is intended. There has been a steady and marked increase in the number of out-patients treated in the dispensary and it is noteworthy that among such patients are to be found, not only caste and gosha ladies who have come to Cocanada from the rural parts of the district, but also such as have come down all the way from the Ganjám and Vizagapatam districts.

(5) I look upon the handsome donation of Rs. 5,000 referred to in paragraph 19 *supra*, as a tangible proof of the recognition and appreciation, on the part of the public, of the good work done by this institution. The want of a suitable building is keenly felt and the sooner it is supplied, the better. It is roughly estimated that the proposed building would cost about Rs. 15,000, of which Rs. 5,000 will be required for the acquisition of the site. The District Board Engineer will be called upon to furnish detailed plans and estimates, and in view of the board utilizing the donation of Rs. 5,000 promised as aforesaid, an allotment of Rs. 10,000 is made for the work in the budget. It is also hoped that some other wealthy and public-spirited residents of the district may come forward to make additions to the proposed building by erecting separate wards. In the circumstances above set forth, I earnestly solicit the sanction of Government to the proposal for the construction of the building in question. Under "New Works—Miscellaneous Public Improvements," Rs. 12,900 are provided for the construction of market sheds and Rs. 3,820 for the construction of tanks and wells.

(6) Out of the total allotment under "Repairs—Communications," Rs. 1,11,670 are allotted for the maintenance of several roads and bridges, Rs. 49,490 for "Special repair" works, Rs. 3,000 for repairing ferry boats and Rs. 3,000 for the maintenance of certain works in charge of the Public Works Department as per G.O., No. 2582 L., dated 12th December 1894. No further provision is made for works in charge of the Public Works Department for want of information similar to that furnished in the Government Order above quoted. The Superintending Engineer, I Circle, who has been addressed on the subject, reports that there are no works to be carried on by his department. The provision under "Repairs—Buildings" is intended chiefly for repairing school, choultry, dispensary and hospital buildings, while, under "Repairs—Miscellaneous Public Improvements," Rs. 6,250 are allotted for the maintenance of avenues, Rs. 850 for repairing market sheds and Rs. 8,500 for repairing tanks and wells.

(7) For reasons specified in paragraph 20 of the current year's budget covering letter, no lump provisions are made separately for land compensation under any of the local boards. In providing allotments for communications, the instructions [illegible] G.O., No. 1686 L., dated 14th September 1895, have been adhered to as far as possible. From statement III-C, it will be seen that after excluding the allotments made for the project of a light railway, and for ferry works, the ratio of the allotment for road works to the land-cess received exceeds the prescribed limit of 50 per cent. in the case of the Cocanada and Ellore Taluk Boards, while, in the case of works within the local area of the other taluk boards, the ratio is 33 and 46 respectively. The ratio for the whole district is, however, 48 per cent., *i.e.*, a little less than the minimum prescribed. There is thus no doubt whatever that the prescribed limit will be attained in this district seeing that subsequent allotments will have to be made from the reserve by the several local boards for the incomplete and untouched works of the current year and for any unforeseen works that may arise in the course of the year under report.

24. *Establishment—(a) Public Works Department Supervision and Scrutiny of Plans and Estimates.*—The current year's provision under these two heads is repeated in the absence of information similar to that furnished in G.O., No. 2582 L., dated 12th December 1894.

(*b*) *Local Fund Engineering Establishment including contingencies.*—The provision made under this head amounts to Rs. 76,000 against Rs. 53,780 provided in the current year's budget. The increase is due to the increased provision made with reference to the proposals recently submitted to Government for the reorganization of the Local Fund Engineering establishment. The cost under this head together with the outlay on tools and plant is debited as usual to the district and taluk boards at percentage rates arrived at with reference to the instructions conveyed in G.O., No. 1942 L., dated 5th August 1890.

(*c*) *Tolls and Ferries.*—A lump provision of Rs. 4,000 is made under this head in order to meet the cost of the establishments required for (1) the Narsapur steam ferry, which is now being established, (2) the ferry between Rajahmundry and Polavaram proposed to be established with reference to the correspondence ending with G.O., Mis. No. 1883 L., dated 11th October 1895, and (3) the existing ferry between Achutapuram and Kovvur. A lump provision of Rs. 1,000 is also made under the head "Contingencies" to meet the contingent charges of the first two ferries.

25. *Tools and Plant.*—The amount of Rs. 3,360 shown under this head includes Rs. 40 in round figures provided for "Tools and Plant" by Public Works Department calculated at the prescribed percentage rate on the outlay to be incurred by that department under "Repairs—Communications," exclusive of the works exempt from this charge. The remaining amount of Rs. 3,320 is the sum arrived at at 1 per cent. of the total outlay on works exclusive of the allotments made for works to be executed by the Public Works Department and for the project of a light railway.

26. *Miscellaneous.*—The amount estimated under this head represents, as usual, a moiety of the receipts derived from the ferries between the French and the British territories in this district payable to the French Government in accordance with the terms of the convention entered into with that Government.

27. *Grant II, Education.*—The total outlay estimated under this grant is Rupees 1,46,050 against Rs. 1,48,630, the current year's budget estimate and Rs. 1,25,476, the actuals of 1894–95. The variations from the current year's estimate are attributable to the proposals noticed below.

28. *Inspection.*—The estimated expenditure under this head amounts to Rupees 8,200 against Rs. 8,100 estimated in the current year's budget and Rs. 6,207, the actual expenditure of the previous year. The increase compared with the current year's figure is the net result of (1) the reduction of the provision under "Contingencies" by Rs. 200 as the same has been found to be unnecessarily high and (2) the proposal to raise the pay of the existing staff of inspecting schoolmasters on Rs. 20 to Rs. 25 each per mensem (inclusive of the pensionary contribution) in accordance with the recommendations of the Educational authorities. The Assistant Inspector of Schools, II Division, proposed the total reorganization of the existing staff of schoolmasters and the Director of Public Instruction, Madras, in supporting the Assistant Inspector's proposal, remarked as follows:—

"The salary of the lowest grade at present is too low for a district like Gódávari where travelling is difficult and expensive and where the work of inspecting officers is heavy."

The district board, agreeing with the Director, has resolved upon raising the salaries of inspecting schoolmasters of the lowest grade alone. The Assistant Inspector's proposal regarding the opening of an industrial school by the district board on the lines on which a similar institution is maintained in the Kistna district was neither supported by the Director of Public Instruction nor approved by the district board.

29. *Training and Sessional Schools.*—The current year's provision under these heads is repeated for the next year.

30. *Secondary schools—Salary System.*—The estimate under this head amounts to Rs. 30,310 against Rs. 30,870, the current year's estimate, and Rs. 22,981, the actuals of 1894–95. The net decrease is due to the reduction effected under the

sub-head "Contingencies." The following are the new proposals made under "Establishment":—

(1) To raise the provision made under fixed charges of the high school at Amalápuram, so as to provide for the annual increments in the salaries of some of the teaching staff.

(2) To revise the scale of establishment of the lower secondary school at Veeravasaram, as per proposition statement enclosed. In connection with this proposal the President of the Narsapur Taluk Board writes thus:—

The pay of the headmaster only is sanctioned to continue as in the current year. The Director, while approving of the Assistant Inspector's scale, advised at the same time that the rates of salary should be so fixed as not to affect the existing permanent incumbents. Acting upon this advice, the board has sanctioned the new scale for working purposes. The result is that the headmaster will be entitled to receive an increment of Rs. 4 at the beginning of the next official year. As for the remaining establishment, the minimum salaries proposed do not exceed the figures as per scale approved by the Director.

(3) To entertain a Sanscrit pandit on Rs. 15 (including pensionary contribution) in the lower secondary school at Bhímavaram to keep it on the same footing as its sister school at Veeravasaram, the entertainment of a pandit being a great advantage.

(4) To transfer the gymnastic teacher on Rs. 10 attached to the primary school at Tuni to the lower secondary school at the same place, on the understanding that he will teach gymnastics to the boys in the primary school also.

(5) To raise the pay of the night-watcher attached to the lower secondary school at Pithápuram from Rs. 2 to Rs. 3 as the pay is inadequate for the duties required of him.

(6) To reduce the scale of the lower secondary school at Tallapudy where the daily average attendance is only 39. The cost per pupil, viz., Rs. 2–9–0 is heavy as remarked by the Director of Public Instruction.

(7) To entertain a Sanscrit pandit on Rs. 12 (inclusive of pensionary contribution) in the lower secondary school at Tanuku, in accordance with the recommendation of the assistant inspector of schools.

(8) To take over under the management of the Narsapur Taluk Board the Taylor High school at Narsapur. In recommending this proposal, the President of the taluk board makes the following observations:—

The total estimated cost of the maintenance of this school is Rs. 5,966 including the cost of library books and miscellaneous charges. The net cost to the board is estimated at Rs. 70; it will probably not exceed Rs. 300. This was proposed by the taluk board and recommended by the district board in the budget for the current year; but the Government in its review of the budget vetoed the proposal, directing that the attention of the taluk board would be drawn to the remarks of the Director in clause 6 of his letter embodied in the said Government Order in which the Government concurred. The Director, in clause 6 of his letter above referred to, said at last that at any rate the proposal should form the subject of a special communication. The school is nearly self-supporting and the taking over will only mean giving it a helping hand, whereas if allowed to its own fate, a high school will soon be wanting to the Narsapur division, and it will be a more difficult process for Government or other agency to have a new school opened than to keep up a working one. The Amalápuram high school, to quote a precedent, is under the management of the Rajahmundry Taluk Board, and were it not for fear of losing so useful an institution with no prospect of the Government or other agency supplying the need, the taluk board would not advocate the taking over of its management. Apart from the college at Rajahmundry, each division of the district has now the advantage of a high school.

The President of the taluk board has also addressed a special communication on this subject to the Director of Public Instruction, Madras, a copy of which is enclosed (*vide* enclosure marked A).

31. *Secondary Schools—Salary-result System.*—The estimated outlay under this head is Rs. 11,370 against Rs. 9,020 provided in the current year's budget. The increase is the net result of the following new proposals made by the taluk boards concerned:—

(1) To convert the salary-result primary schools at Penukonda and Kanuru under the Ellore Taluk Board into the vernacular lower secondary schools, without any increase in the teaching staff.

(2) To convert the primary schools at Achanta and Mogalturru under the Narsapur Taluk Board into vernacular lower secondary schools.

(3) To convert the vernacular lower secondary school at Bhímavaram under the same taluk board into a primary school on the salary-result system.

32. *Elementary Schools—Salary-result System.*—The total expenditure under this head is estimated at Rs. 83,780 against Rs. 87,580 estimated in the current year's budget and Rs. 86,627, the actuals of 1894–95. The decrease when compared with the current year's estimate is the net result of the following proposals:—

Rajahmundry Taluk Board.—(1) To grade the salaries of the teachers in the following schools with reference to the average attendance, the scale adopted being chiefly based on that proposed by the Assistant Inspector of schools and recommended by the Director of Public Instruction, Madras:—

Angara	Draksharama (Muhammadan)
Tamarapalli	Taki
Kuyyeru	Inavilli
Biccavolu	Gangalakurru
Devarapudi	Sanapillilanka
Kapileswarapuram	Komaragiripatnam
Kotipalli	Ambajeepela
Medapadu	Palagummi.
Vedumpaka	

The scale recommended by the educational officers is as follows:—

		Rs.
In schools having average attendance between 20 and 40 one teacher on		7
Do. do. 40 and 60, two teachers	one on	8
	„ on	7
In schools having average attendance between 60 and 10, three teachers	„ on	10
	„ on	8
	„ on	7
In schools having average attendance between 80 and 120, four teachers	„ on	12
	„ on	9
	„ on	7
	„ on	5

The salary of Rs. 5 for any teacher, although he may be an assistant, being unduly low, the taluk board resolved that such teachers should be paid Rs. 6 and not Rs. 5 each as proposed by the educational officers, and the district board has also approved of the same.

(2) To constitute a strong upper primary school in place of the two schools hitherto existing at Dowlaishweram, in order to serve as a feeder to the lower secondary school at the same place.

(3) To abolish the feeder primary school attached to the high school at Amalápuram and the lower secondary school at Kottapeta whose retention has not been recommended by the educational officers.

(4) To raise the pay of the servants attached to the following schools from As. 4 to As. 8 each:—

Rámachandrapuram	Amalapuram (Muhammadan)
Anaparti (Muhammadan)	Inugantinaripeta (Muhammadan)
Anataram	Velivelapalli.
Palivela (Muhammadan)	

(5) To raise the pay of the servants attached to the school at Korumilli from As. 8 to Rs. 2. Certain new primary schools have also been proposed to be started by this taluk board, but the proposal has been vetoed by the district board for reasons explained in paragraph 21 *supra*. The board is rather disposed to improve the schools already existing before opening new schools. No possible good can arise from multiplying schools with teachers on salaries ranging from Rs. 5 per mensem, and I should think that the pay should in no case be less than Rs. 7 in these days in this district.

Ellore Taluk Board.—(1) To abolish the schools at Marenpalli, Pedatadepalli, Parempudi, Pittala-Vemanaram, Ankanagudem and Jalipudi (night) owing to the low average attendance.

(2) To dispense with one teacher in each of the primary schools at Unguturu, Pippara, Jalipudi, Madapalli, Vatluru and Kovvali on account of the poor average attendance exhibited at these schools.

(3) To reduce two teachers in the primary school at Chattaparru, as the number of teachers is found to be in excess of requirements.

(4) To provide an additional teacher for each of the primary schools at Iragavaram, Kovvuru and Yernagudem to meet the present increased requirements.

(5) To revise the staff of the teachers in the schools at Duvva and Relangi owing to rise in the average attendance.

(6) To open new Panchama schools at Kykaram, Mupparru and Madhavaram.

(7) To abolish the Muhammadan school at Tállapúdi and to transfer the same to Duvva, as the Muhammadan population at Duvva is comparatively large.

(8) The proposal referred to in paragraph 31 (1) *supra*.

(9) To open new schools at Badampudi, Koppaka and Gundugolam (night).

(10) To raise the pay of the servants attached to the schools at Duvva and Relangi from As. 12 each to Rs. 3 and Re. 1, respectively.

Narsapur Taluk Board.—(1) To revise the scale of the teaching staff in the following schools in accordance with the scale recommended by the educational officers:—

Jinnuru	Tatipaka
Narsapur (Muhammadan)	Lankala-Gannavaram
Nagaram (Hindu)	Battilanka
Gummaluru	Akividu (Muhammadan)
Kadali	Yendagandi
Vemavaram	Undi
Vedangi	Toleru
Penumadam	Korukonda
Manepalli	Ganapavaram.
Razolu	

The scale referred to has not been applied to Panchama schools which deserve special consideration. The proposal to fix the pay of the lowest grade of teachers at Rs. 5 has not also been approved for reasons stated in paragraph 32 (1) *supra* regarding the schools under the Rajahmundry Taluk Board.

(2) To convert the primary schools at Achanta and Mogalturru into vernacular lower secondary schools owing to the gradual rise in the average attendance and that of the vernacular lower secondary school at Bhímavaram into a primary school with a reduced scale of salaries for the teachers as the highest class in the same has been transferred to the (English) lower secondary school at the same place—*vide* also paragraph 31 (3) *supra*.

(3) To abolish the following schools in accordance with the recommendation of the educational officers owing to a large falling off in the average attendance:—

Gumparru	Gopavaram
Kallakurru	Kaligotla
Cherukunada	Valluru
Kondovapadu	Veeravasaram (night).

(4) To open new schools in the villages of Garagaparru, Dagguluru, Digamarru and Narsapur (night).

In the first three places the want of facilities for education is reported to be keenly felt by the villagers. At the last place a night school has already been maintained by a certain person, who being no longer able to maintain it, has applied to the taluk board to take up the school under its management, and the sub-assistant inspector of schools has recommended the same. Consequently, the board has transferred the Veeravasaram (night) school proposed to be closed to this place.

(5) To reduce the pay of one of the teachers in the schools at Rustumbada and Perupalem from Rs. 12 to Rs. 10, to raise the pay of one of the teachers at Rayakuduru school from Rs. 4 to Rs. 6 and to raise the pay of two teachers in the school at Mogallu from Rs. 8 and 4 to Rs. 9 and 6, respectively.

The present staff of teachers in the schools at Rustumbada, Perupalem, Rayakuduru, Mogallu, Pedakapavaram and Bhímavaram is retained, although their average attendance is apparently low. The attendance given in statement IV-A is only temporary, and there is every prospect of its rising steadily. The school at Kovvada, whose average attendance is 19, is also proposed to be retained, although it is recommended to be closed by the educational officers, as one of the taluk board members, who is a resident of the village, attributes the low attendance to the inefficiency of the present teacher, and strongly presses the board to try it for another year with an efficient teacher, which the board has agreed to do. "There are two more schools at Burugapalli and Kommuchikkala, the average attendance of which is shown in statement IV-A as *nil*. The first of these two is newly sanctioned to be opened for the current year, but it has not been opened up to September and the average attendance having been taken for the first six months, it has been shown as *nil*. It has since been opened and in working order. As to the second school, it is an old one continuing for some years and in fact the attendance is precarious. It was once closed temporarily and it has been revised only in September last and is now working with sufficient strength. As there was no school opened up to September, the average attendance has been shown as *nil*."

Cocanada Taluk Board (1).—To reduce the scale of the establishment in the schools at Yeleswaram, Mallavaram, Neelapalli, New Coringa and Virava in accordance with the scale recommended by the educational officers.

(2) To abolish the primary school at Burugupudi and the Panchama school at Kondayapalem on account of the decrease in the average attendance.

(3) To provide for the Hindu boys' schools at Ragampeta and Viranada newly opened by the taluk board in the current year.

(4) To establish a Muhammadan school at Talluru and two Panchama schools, one at Gorinta and the other at Senkavaram.

(5) To entertain an additional teacher in the school at Pithápuram agraharam.

(6) To raise the pay of the servants attached to twenty-three schools from As. 4 to As. 8 each per mensem.

(7) To remove the provision for the gymnastic teacher in the primary school at Tuni with reference to the proposal referred to in paragraph 30 (4) *supra*.

With reference to the scale of teachers recommended to be adopted in the primary schools and the other proposals made by the educational offices, the president of the taluk board says :—

The taluk board considers that the salaries of head and last teachers in a school having four teachers are very low. It is, therefore, resolved for the present to retain the old scale. The entertainment of additional teachers in the schools at Vadlamuru, Veeravaram, Karapa Samalkot (Panchama), Injaram, Nagulapalli, Dharmavaram, Uppada, Pithápuram agraharam and Titagunta is also recommended. But the board sanctioned the entertainment of an additional teacher in the school at agraharam alone, as one has already been entertained. No additional teachers can, for the present, be sanctioned for the other schools, as the scale, from the saving of which the cost is proposed to be met, was disapproved by the board. But due consideration for the entertainment of additional teachers in these schools will be given in due course. It is found that there are additional teachers in some schools where the average attendance is less than the schools for which the additional teachers were proposed by the Educational Department. But it is not known whether the fall in attendance in those schools is temporary or permanent; if it is permanent, the additional teachers thereof will be transferred to places where they are needed at the close of the current year. The establishment of a Muhammadan school at Jaggampeta is not also approved of by the board for want of funds.

33. *Grants-in-aid, Results Grants*.—The estimate under this head is Rs. 10,040 against Rs. 10,420 estimated in the current budget and is based chiefly on the recommendations of the educational officers. The Ellore, Narsapur and Cocanada Taluk Boards resolved to pay these grants at the maximum rates, while the Rajahmundry Taluk Board has omitted again to furnish information on this point, although its attention has several times been drawn to the omission.

34. *Grant III, Medical Services, &c.*—The total outlay estimated under this grant is Rs. 1,66,570 against Rs. 1,56,830 provided in the current year's budget and Rs. 1,26,983, the actuals of 1894–95. The increase when compared with the current year's estimate is due to the causes specified under the several detailed heads noticed below.

35. *Hospitals and Dispensaries*.—The total allotment under this head is Rupees 48,750 against Rs. 43,080 estimated in the current year and Rs. 36,946, the amount actually spent in 1894–95. The increase is the net result of the following proposals :—

(1) To transfer the provision for the lady apothecary in charge of the female out-patients' dispensary at Cocanada from the head "Medical Practitioners" to the head "Medical Subordinates," as the same appears to be the right classification.

(2) To provide for the increased pay of the hospital assistants at Akividu and Peddápuram, with reference to G.O., No. 104, Public, dated 13th February 1892, as they have passed the colloquial examination in Telugu.

(3) To open a new dispensary at Potavaram in the Yernagúdem taluk. The President of the Taluk Board, Ellore, supports this proposal in the following terms :—

Potavaram is situated in the centre of the Yernagúdem taluk, the area of which is 585 square miles. There is, at present, only one dispensary in the whole taluk at Tállapúdi which is situated at one end of the taluk, at no great distance from Rajahmundry. Many parts of the taluk are malarious and unhealthy. There is at present no dispensary or hospital within a radius of 15 or 20 miles from Potavaram. There is a police station in the place and it is the head-quarters of a revenue inspector. The board has therefore resolved to establish a dispensary at this place, as it is strongly of opinion that a dispensary is required. I am aware that the District Surgeon is opposed to the opening of new dispensaries, but the circumstances in regard to this dispensary appear to be exceptional.

I fully endorse these remarks.

(4) To raise the pay of the hospital assistants attached to the hospital at Tállapúdi and the dispensary at Chintalapudi, with reference to the grade of the present incumbents.

(5) To raise the pay of the hospital assistant at Narsapur from Rs. 58–10–8 to Rs. 63–4–0.

(6) To provide for the increased pay of the compounders attached to the dispensaries at Bendamurlanka and Gollalamamidada, they having completed nine years service.

(7) To provide for the increased pay to which the compounders attached to the hospitals at Razolu, Tállapúdi and Pithápuram are entitled under G.O., No. 1662 L., dated 26th July 1889.

(8) To raise the pay of the assistant compounder attached to the hospital at Narsapur from Rs. 6 to Rs. 9 per mensem and to reduce the pay of the compounder attached to the Bhímavaram hospital from Rs. 15 to Rs. 9, as recommended by the District Medical and Sanitary Officer.

(9) To entertain a female clerk on Rs. 10 for the female out-patients' dispensary at Cocanada, as the same has been found to be absolutely necessary, the lady practitioner in charge of the dispensary not being able to cope with the clerical duties, in addition to her legitimate work.

(10) To provide for accommodation for in-patients in the hospital at Tállapúdi.

(11) To increase the provision under "Medicines and Surgical instruments" for the several dispensaries and hospitals, as the value of European medicines, &c., has risen on account of the depreciation of the rupee.

(12) To reduce the provision under "Contingencies" of the reserve hospital assistant by Rs. 40 with reference to actual requirements.

(13) To provide for the cost of four students recently proposed by the district board to be sent to the Madras Medical College to be trained as hospital assistants.

(14) To remove the sweeper on Rs. 2 attached to the District Medical and Sanitary Officer's establishment, as his services are not required.

(15) To raise the pay of the second clerk of the District Medical and Sanitary Officer's office from Rs. 13–8–0 to Rs. 18 (exclusive of pensionary contribution), as his present pay is represented to be insufficient for the duties performed by him. The District Medical and Sanitary Officer strongly recommends the increase and the board has approved of the same.

(16) To provide house-rent for hospital assistants in charge of dispensaries and hospitals where no provision has been made for free quarters, agreeably to the instructions conveyed in G.O., No. 154 L., dated 24th January 1895.

(17) To provide for the increased cost under "Miscellaneous," chiefly due to the proposed opening of a new dispensary at Potavaram.

The District Medical and Sanitary Officer recommended the transfer of the dispensary at Achanta to Pálakollu in consequence of the difficulty reported to have been felt in procuring a suitable rented building at Achanta for locating the dispensary and the want of appreciation, on the part of the villagers, of the advantages of having a dispensary in their midst. The Narsapur Taluk Board, instead of acceding to the District Medical Officer's proposal, proposed, however, to abolish the dispensary altogether, saying that no dispensary is needed at Pálakollu, which is only six miles from Narsapur, where there is a hospital already. But the district board has not approved of this proposal and resolved to retain the provision for the dispensary and to ask the taluk board to select some suitable place within its jurisdiction, if not Pálakollu, for locating the said dispensary, as the step taken by the taluk board appears to be a retrograde one. There is considerable room for the extension of medical relief and to curtail the provision under this head is anything but desirable. The sanction of Government is, therefore, solicited to the district board's proposal in this respect.

36. *Vaccination.*—The provision under this head is Rs. 14,310 against Rupees 14,300 provided in the current year's budget, and the increase is due to the district board's proposal to raise the pay of the peon attached to the Deputy Inspector of Vaccination, Ellore Range, from Rs. 6 to Rs. 7, this being the pay drawn by the peons of the Deputy Inspectors of the other ranges.

37. *Sanitation.*—The total expenditure estimated under this head is Rs. 55,350 against Rs. 55,270, the current year's estimate. The net increase is made up of a decrease under the sub-heads "Improvement of village-site" and "Arrangements at fairs and festivals" owing to provision having been made with reference to actual requirements as now estimated and an increase under the other sub-heads. The increase under "Improvement of water-supply" is chiefly due to larger allotments provided (1) by the Narsapur Taluk Board to meet the cost of repairing the tanks and wells in several villages which are reported to be greatly out of order, and (2) by the Cocanada Taluk Board to meet the requirements of the unions newly formed in the current year. The increased provision under "Other sanitary outlay" is mainly due to the large amounts provided for the construction of latrines in some of the unions. The increase under scavenging establishments is, on the other hand, due to the following proposals:—

(1) To transfer the provision for the sanitary maistries sanctioned in G.O., No. 483 L., Mis., dated 13th March 1895, from the head "Other sanitary outlay" to which it has hitherto been erroneously debited to the head "Scavenging establishments" in the case of the Ellore Taluk Board.

(2) To abolish the sweepers sanctioned for the following villages under the Narsapur Taluk Board, as no sweepers could be secured and as those whose services have been secured with much difficulty, have been found to be utterly useless:—Vemavaram, Penumadam, Yellamanchili, Mogallu, Poduru, Jagannadhapuram, Kavitam, Kodamanchili and Rayakuduru.

(3) To dispense with the services of one of the sweepers at Ganapavaram under the Narsapur Taluk Board as being unnecessary and to raise the pay of the other sweeper from Rs. 3 to Rs. 4.

(4) To increase the pay of the sweepers at Konitivada and Valluru under the Narsapur Taluk Board from Rs. 3 to Rs. 4 per mensem, "as they have been serving for some years on the same pay of Rs. 3 per mensem, and the tahsildars recommend the increase."

(5) To entertain an additional sweeper on Rs. 4 per mensem at Sivakodu, an important village in the Sivakodu division.

(6) To reduce the pay of the sweeper at Mori from Rs. 5 to Rs. 4.

(7) To dispense with the services of one of the sweepers attached to the village of Anaparti and of the sweepers at Vellasavaram and Teki under the Rajahmundry Taluk Board as no sweepers can be obtained.

(8) To entertain an additional sweeper on Rs. 4 in the village of Tapeswaram under the Rajahmundry Taluk Board.

With reference to G.O., No. 1791 L., dated 30th September 1895, I have to state that, although clear instructions were issued on receipt of the Government Order to the Presidents of the several taluk boards to furnish the information required by Government, the Presidents of the Ellore and Cocanada Taluk Boards alone have dealt with the subject, while the reports of the Presidents of the other taluk boards are silent on the point. The attention of the latter officers will be drawn to this omission and the necessary information, so far as the scavengering establishments under their control are concerned, will be submitted to Government on receipt of the same from them The President of the Cocanada Taluk Board reports that the sweepers employed for the removal of rubbish from the village-site do that business alone and do not consent to remove in addition fœcal matter especially. He also states that they remove such matter when it is intermixed with the ordinary village rubbish and that no special establishment is maintained for the purpose, except in recognized latrines in the unions. The President of the Ellore Taluk Board reports that the scavengers employed in the unions of Tanuku, Attili and Penukonda remove fœcal matter, while the scavengers remove rubbish only in the other unions as well as in non-union villages. The difficulty of securing totties is felt everywhere in the district as the work is considered degrading and is a disadvantage in the way of sanitary reform and improvement, which it is not easy to cope with.

38. *Choultries.*—The outlay estimated under this head is Rs. 17,470 against Rs. 14,910 provided in the current year's budget. The increase is the net result of the following proposals:—

(1) To provide for the entertainment of a cook on Rs. 5 and a servant on Rs. 2–8–0 for the Kruttiventivari choultry at Dowlaishweram recently transferred to the management of the Rajahmundry Taluk Board.

(2) To provide for the increment accruing in the pay of the Peddápuram choultry gumastah as per G.O., No. 483 L., Mis., dated 13th March 1895.

(3) To raise the pay of the female Sudra servant attached to the endowed choultry at Nallacheruvu from Re. 1 to Rs. 1–8–0 per mensem, as the present pay has been found to be inadequate.

(4) To reduce the establishment in the endowed choultry at Razole as some of the lands comprising the endowment have recently been made over to the heir of the original donor under the decree of a Civil Court, and as it is not possible to maintain the present establishment with the diminished income of the endowment.

(5) To reduce, for the same reason, the provision under "Feeding charges" and "Contingencies" of the said institution.

(6) To raise the provision under "Feeding charges" of the Podagatlapalli choultry with reference to actual requirements.

(7) To reduce the provision under "Contingencies" of the unendowed choultry at Mogalturru.

(8) To provide for the purchase of utensils, &c., for the use of some of the unendowed choultries under the Rajahmundry, Ellore and Narsapur Taluk Boards.

(9) To provide for the payment of peishcush, local cess, salary of village establishment, remissions and law charges, &c., for the village of Hukumpeta, in Rajahmundry taluk, which is the endowment of the Kruthiventivari choultry at Dowlaishweram, the management of which has been transferred to the Rajahmundry Taluk Board.

38-A. *Public Bungalows.*—The amount estimated under this head is Rs. 610 against Rs. 670 provided in the current year's budget and the decrease is due to the proposal of the Ellore Taluk Board to dispense with the services of the servant on

Rs. 5 attached to the public bungalow at Jangareddigudem as they are not required.

39. *Contributions to Provincial Services on account of Medical College, &c.*—The actuals of 1894–95 are repeated under the existing orders of Government on the subject.

40. *Contributions to Private Individuals.*—The amount of Rs. 600 shown under this head represents as usual the contribution paid by the Cocanada Taluk Board towards the cost of maintaining the Prince of Wales' choultry at Cocanada, founded by the late Pydah Ramakristniah Garu of Cocanada.

41. (*h*) *Miscellaneous*, (1) *Miscellaneous Endowed Institutions.*—The usual provision of Rs. 60 is not made under this head by the Rajahmundry Taluk Board, as it is doubtful whether the necessary probate for the administration of the trust relating to the Dwadasi fund will be obtained next year, owing to certain complications caused by the loss of the original will of the testator in the absence of which the board will not be in a position to obtain probate early and draw the interest due on the investments relating to the said trust.

42. (*h*) *Miscellaneous*, (3) *Miscellaneous.*—The amount of Rs. 14,400 shown under this head represents as usual (1) charges on account of water-pandals established in the hot season of the year and (2) lighting charges. The total allotment for the latter item is Rs. 8,200 against Rs. 8,110 in the current budget. Steps are being taken by the several taluk boards to restrict expenditure under these two items as far as possible, with reference to the orders of Government to that effect.

43. *Grant IV, Miscellaneous.*—The total outlay estimated under this grant is Rs. 37,550 against Rs. 35,830, the current year's estimate, and Rs. 32,770, the actuals of 1894–95. The variations under the detailed heads are noticed below.

44. *Controlling Establishments at the Presidency.*—A provision of Rs. 4,300 in round figures is made under this head, with reference to the percentage rates advised in G.O., No. 2190 L., dated 19th November 1895.

45. *Local Boards' office establishments.*—An amount of Rs. 12,530 is estimated under this head against Rs. 12,940, the current year's figure. The net decrease is chiefly due to the fact of certain temporary clerks having been sanctioned in the current year for sorting the records of the offices of the Rajahmundry and Narsapur Taluk Boards. The following are the new proposals made under this head for the next year:—

(1) To provide for the increments accruing in the pay of the establishments of all the local boards' offices and

(2) to entertain a clerk on Rs. 15 for six months for sorting the records of the Ellore Taluk Board's office, which are reported to be in a confused state. The taluk board proposed the entertainment of the clerk for one year, but the district board was of opinion that a period of six months would be quite enough. There was also a proposal to raise the pay of the third clerk of the same office from Rs. 12 to Rs. 15, which was disallowed by the district board. No provision has been made for the establishments of Local Fund inspectors and gumastahs in taluk offices, as the proposals recently submitted to Government regarding the same have not yet been sanctioned.

46. *Contingencies.*—There is an increase of Rs. 430 under this head when compared with the current year's estimate, and it is due chiefly to the increased amounts provided under "Stationery", "Postal charges" and "Travelling allowance to non-official members," with reference to the revised estimate under these heads for the current year and the requirements as now estimated for the next year.

47. *Loans—Interest.*—An amount of Rs. 2,130, in round figures, is provided under this head to provide for interest at $4\frac{1}{4}$ per cent. for three months on the loan of two lakhs of rupees proposed to be obtained from Government, with reference to the railway project already adverted to. It is calculated that the money will not be wanted until the 1st January 1897 or the beginning of the working season of 1896–97 for such a work.

48. The grand total of the estimated outlay under all grants, together with the reserve of Rs. 70,900 calculated at the prescribed percentage rate (after excluding from the receipts the loan of two lakhs taken credit for from Government), aggregates Rs. 10,44,180 against Rs. 9,06,630 estimated in the current year and Rs. 7,02,366, the actuals of 1894–95. The budget closes with a balance of Rs. 1,68,180, distributed among the several funds as noted below:—

	Rs.
District fund—	
General	36,422
Canal and Ferry fund	19,918
Taluk funds—	
General	23,372
Endowments	87,715
Union funds	753
Total	1,68,180

The balances available for general purposes under the District and Taluk funds, including Union funds, are 13·8 and 5·4 per cent., respectively, of the estimated current receipts exclusive of the loan taken credit for from Government in the case of the District fund and of endowment receipts in the case of the Taluk funds.

49. From the above it is clear that the closing balance in favour of endowment funds is still very large. The President of the Cocanada Taluk Board promises to take the necessary steps to utilize the very large balance in favour of the endowed choultries under his control, the balances in favour of the markets not being very large. The Presidents of the other taluk boards do not state what steps they propose to take in this matter and their attention will be drawn again to the importance of utilizing the balances. Steps will also be taken to utilize, at the earliest possible date, the balance still remaining under the Canal and Ferry fund.

50. I regret the delay of a few days in the submission of this report and statements which is entirely due to the late submission of its report and statements by the Rajahmundry Taluk Board. It was only the reports of the Ellore and Cocanada Taluk Boards that were received in this office on or about the due date, *i.e.*, the 15th of November. The report of the Narsapur Taluk Board was received on the 25th November, while that of Rajahmundry was received on the 29th November, about fifteen days after the due date. The President of the Rajahmundry Taluk Board attributes the delay to the incompetence of his head clerk, who has since been removed, and to the fact of there having been a change in the holder of the office of President just at the time of the preparation of the budget. In fact, Mr. Meyer had to wade through all the figures and prepare the budget covering letter since he joined the sub-division on the 16th November last, and were it not for the expedition shown by him, I fear that the report would have been still further delayed.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., Director of Public Instruction, to the Chief Secretary to Government, dated Madras, 16th January 1896, No. 324.

I have the honour to submit the following remarks on the educational portion of the budget estimate of the Gódávari District Board for 1896–97.

2. *Receipts.*—(i) The board has again provided for the transfer of the Taylor High School, Narsapur, to the management of the Taluk Board, Narsapur, and has taken credit for Rs. 4,500 under fees, Rs. 2,200 under endowments and Rs. 1,200 under grants from Government. I cannot recommend the proposal to Government for reasons urged in my letter, embodied in G.O., No. 483 L., dated 13th March 1895. If Government agrees with me the above items should be omitted from the receipt side of the budget.

(ii) Omitting the grant expected for the Taylor High School, the Provincial grant for education is calculated at Rs. 10,960. The estimate should be reduced to Rs. 8,960, with reference to the actuals of the previous years. The total educational receipts will then be Rs. 36,450.

3. *Charges.*—The allotments proposed under the several heads of Grant II seem adequate and may be approved, with a reduction of Rs. 5,970 under secondary schools on account of the Taylor High School.

4. The net expenditure, with the above modifications, under Grant II will be Rs. 1,03,630 (Rs. 1,40,080 — 36,450), which is about 19 per cent. of the estimated revenue from cess on land. The expenditure on board primary schools is susceptible of reduction. Schools which are poorly attended or located in places already provided with results schools may gradually be closed. The so-called Anglo-Vernacular secondary schools cost the board (Rs. 11,376 — 2,835) Rs. 8,541 *net*. These schools should be made much more nearly self-supporting than at present, or they should be reduced to the upper primary standard.

From V. A. BRODIE, Esq., President, District Board, Gódávari, to the Chief Secretary to Government, dated 23rd January 1896, Dis. No. 119 D.B.

In continuation of this office No. 2802 D.B. of 1895, dated 23rd December 1895, submitting the district board's budget for 1896–97, I have the honour to state as follows:—

(1) *Statement No.* 1.—Consolidated budget for 1896–97. The amounts given under actuals for 1894–95 under receipts and expenditure differ by *one* from those given in Appendix IV to the General Local Fund review for 1894–95 under the corresponding heads.

(2) In the same statement, Rs. 3,447 and not Rs. 3,450 as already given should be shown as actual receipts for 1894–95 under "fees and fines" of the taluk, the remaining Rs. 3 being shown under "grass rents."

(3) The contribution of Rs. 600 payable by the Cocanada Taluk Board on account of the upkeep of the Prince of Wales' choultry should be shown under Grant III (*h*) Miscellaneous (1) Miscellaneous Endowed institutions, and not under Grant III (*g*) Contributions (iv) Private individuals as already shown. The modifications proposed in (2) and (3) are based on the classification adopted in Appendix IV of the general Local Fund review for 1894–95.

(4) The marginally-noted amounts have to be substituted for those already given in column 2 under Grant I in statement No. 1 of budget estimate for 1896–97 as they have been revised with reference to G.O., No. 2391 L., dated 9th December 1895, and necessary alterations have to be made in the figures affected by the substitution in paragraph 25 of the covering letter.

	Rs.
(*c*) "Establishment"—	
(1) Public Works Department supervision	850
(2) Scrutiny of plans and estimates..	1,420
(*d*) "Tools and plant"	1,545

(5) With reference to G.O., No. 2069 M., dated 9th December 1895, I beg to state that there being no such casual receipts as special provincial grants and loans as are referred to in the Government Order, no alteration need be made in the amount provided under Grant IV (1) controlling establishment at the Presidency.

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated Fort St. George, 29th January 1896, No. 179 S.

I have the honour to state that I have no remarks to offer on the provision made for vaccination and sanitation in the budget estimate of the Gódávari District Board for 1896–97. The allotment for the latter purpose is 6·1 per cent. of the estimated current receipts. This is a smaller percentage than afforded by the majority of district boards, and contrasts badly with the net expenditure on education during 1894–95, namely, 13·5. Including the works proposed under Grant I, the total sum set apart for the improvement of water-supply is Rs. 27,910.

2. Statement VI furnished to me does not specify the particulars of the scavengering establishments that will be employed in the villages which it is proposed to conserve. I am therefore unable to say whether or not they are suitable. The necessity for employing scavengers in lieu of more sweepers of rubbish is recognized by the President: but he points to the well-known difficulty as to securing toties. The board could not do better than import families at certain centres, and provide them with suitable house-accommodation or patch of land. When thus carefully looked after, they are likely to make permanent colonies.

Order—No. 457 L., dated 10th March 1896.

The estimated local fund receipts and charges of the Gódávari district for 1896–97, as passed by Government, are compared below with the budget and revised estimates for 1895–96 and the actuals of 1894–95:—

Revised Estimate for 1895-96.

2. The current receipts and charges are now estimated at Rs. 6,76,100 and Rs. 8,47,320, respectively, against Rs. 6,85,570 and Rs. 9,06,630 in the sanctioned budget. The decrease in the receipts occurs chiefly under land-cess, school-fees and public works, being counterbalanced by an increase under debt heads; while the decrease in the charges appears under Grants II and III and the reserve, being partly met by an increase under debt heads. The amount paid to the heir of the original founder of the Razole choultry, referred to in paragraph 6 of the President's first letter, should, as remarked by him, be debited to refunds under Grant III and the necessary correction will accordingly be made in Statement IX.

Budget Estimate for 1896-97.

3. *Receipts.*—The receipts for the ensuing year are placed at Rs. 9,13,840 against Rs. 6,76,100 in the revised estimate, the increase appearing chiefly under land-cess, school-fees, choultry and ferry rents, public works and contributions from Provincial

funds on account of public works, partly counterbalanced by a decrease under debt heads. The district board's proposal in paragraph 9 of the President's first letter to raise the share of land-cess assigned to the Ellore, Narsapur and Cocanada Taluk Boards from one-half to two-thirds is approved. As the proposal of the Narsapur Taluk Board to take under its management the Taylor High School does not meet with the approval of Government, the credits taken under school-fees, income from endowments and contributions from Provincial funds on account of this school will be struck out, as recommended by the Director in paragraph 2 of his letter read above, and the total provincial grant for education will be reduced to Rs. 8,960. Under section 51 of the Local Boards Act, the sanction of Government should be obtained for the transfer of the Kruttiventivari choultry at Dowlaishweram to the Rajahmundry Taluk Board, if this has not already been procured. The taluk board's proposal to discontinue the levy of fees in the market at Tallapudi, referred to in paragraph 16, is approved. The loan of Rs. 2,00,000 from Provincial funds, for which credit has been taken on account of the railway, referred to in paragraph 20, will be allowed to stand, pending receipt of the separate communication and application promised by the President.

4. *Charges.*—(1) The probable charges are put down at Rs. 10,44,180 against Rs. 8,47,320 in the revised estimate, the increase under all grants and the reserve being partly met by a decrease under debt heads.

(2) *Grant I.*—None of the new works provided for in the budget should be undertaken until the plans and estimates have been sanctioned by competent authority. The proposal is approved to construct a building for the dispensary for Women and Children at Cocanada, which is referred to in clauses (4) and (5) of paragraph 23 of the President's first letter, and towards the erection of which the Government is pleased to notice that M.R.Ry. Badam Venkataratnam Garu has made the very handsome contribution of Rs. 5,000. The allotments for the maintenance of the Kovvur-Manjair junction canal and for clearing silt in the old landing channel will be raised from Rs. 2,600 and Rs. 100 to Rs. 2,800 and Rs. 900, respectively, with reference to G.O., No. 2391 L., dated 9th December 1895. For supervision by the Public Works Department and tools and plant, Rs. 850 and Rs. 1,540, respectively, will be provided, as requested by the President in paragraph 1 (4) of his second letter read above. As regards the President's proposal to provide Rs. 1,420 as contribution to the Public Works Department for the scrutiny of local fund plans and estimates, he will be referred to paragraph 2 of the memorandum of the Public Works Department, No. 3842 C., dated 5th December 1895, communicated with the Government order above quoted, from which it will be seen that the amounts entered in statement C appended to it were based on the actuals of previous years, as the necessary information was not furnished by the Presidents. In the absence of correct information, however, the amount above referred to will be provisionally entered.

(3) *Grant II.*—The provision of Rs. 5,970 made for the Taylor High School, will be struck out as recommended by the Director in paragraph 3 of his letter. The remaining additions to and alterations in the educational establishments proposed in paragraphs 28, 30, 31 and 32 of the President's first letter are sanctioned. The attention of the taluk boards concerned will be drawn to the remarks of the Director in paragraph 4 of his letter, and they should revise their lists of schools accordingly. The President of the Rajahmundry Taluk Board should be called upon to report the rates at which results grants are to be paid to schools under the board's control, and to explain the omission to furnish this information.

(4) *Grant III.*—The remarks of the Surgeon-General on the provision for medical services will be awaited. The additions to and alterations in the vaccine, sanitary, choultry and bungalow establishments proposed in paragraphs 36, 37, 38 and 38-A of the President's first letter are sanctioned. The information from the Presidents of the Rajahmundry and Narsapur Taluk Boards, promised in paragraph 37, will be awaited, and the attention of the taluk boards will be drawn to the Sanitary Commissioner's recommendation in the latter portion of paragraph 2 of his letter read above. Arrangements should be made as far as possible for the removal of the fœcal

matter as well as rubbish from villages. A sum of Rs. 4,440 will be provided for the Local Fund inspectors and peons, whose employment has been sanctioned in G.O., No. 314 L., dated 14th February 1896.

From Statement VIII it appears that no contribution has been made from taluk funds to meet the lighting charges to be incurred in the Peddápuram union, and that the allotment for payment to the Mandapeta union for this purpose is inadequate. The necessary provision will now be made. It is to be regretted that notwithstanding the remark in paragraph 4 (4) of G.O., No. 483 L., dated 13th March 1895, the contributions from taluk to union funds are steadily increasing. Great care should be taken to limit these contributions as much as possible, so that the inhabitants of the unions may not benefit at the expense of the general population of the taluk.

(5) *Grant IV.*—The entertainment of a clerk on Rs. 15 for six months for sorting the records of the Ellore Taluk Board's office, proposed in paragraph 45 (2) of the President's first letter, is sanctioned. A sum of Rs. 2,310 will be provided to meet the cost of the taluk gumastahs whose entertainment has been approved in G.O., No. 39 L., dated 8th January 1896.

5. *Reserve and Balance.*—The reserve calculated at 10 per cent. of the estimated receipts is Rs. 63,450. The budget, as revised by Government, closes with a balance of Rs. 1,64,310, of which Rs. 1,160 appertain to unions, Rs. 87,720 to endowed institutions and Rs. 19,920 to the canal and ferry fund, leaving Rs. 55,510, or 9 per cent. of the receipts available for general purposes. The deficit with which the transactions of the Pithápuram market are expected to close the year should be made good either by a loan or contribution from general revenues, as required by No. 25 of the Local Fund rules, and early steps should be taken to expend the large balance under the other endowed institutions.
