READ the following:—

### FOR ORDERS.

There are some thousands of old plans of buildings and bridges, constructed many years ago, now stowed away in the record almshouses of the head offices of the Public Works Department which it is thought may be of use to local bodies, such as District Boards, and Departmental officers; But to render them available it is necessary that they --- should be sorted and that properly classified lists of the plans should be made. To do this will probably take up the undivided time of a clerk for three months.

Sanction is accordingly solicited to the entertainment of a clerk on Rs. 20 per mensem for the period named.

On the list being completed it will be printed for circulation to

all

I have looked over these plans and am of opinion that they are of no use in this office. They relate to buildings and bridges constructed in and out of this Presidency several years back. I would suggest that they be sorted and lists prepared which might be circulated to S&Os concerned for distribution to District Boards, who may probably require them, as they contain useful information with regard to depths of foundations of bridges &c. if such happen to exist.

There are about 4 to 5000 of these plans & in addition to these we have a lot of old & useless plans connected with the late Lithographic Office. It is therefore submitted for consideration whether advantage may not be taken of Mr. S. Coste's

Services to sort these plans & prepare the requisite lists after his special work in connection with the destruction of records is completed. It will probably take about three months at most to complete this work.
