Proceedings of the Board of Revenue (Land Revenue), Mis. No. 1748, dated 15th April 1896.

Read—the following letter from S. H. WYNNE, Esq., Collector of North Arcot, to the Secretary to the Commissioners of Land Revenue, dated Chittoor, 9th April 1896, Ref. on Cur. No. 1112 Acc.:—

I have the honour to state that the terraced roof of the Huzur treasury building at this station, which was in a very unsafe condition, was pulled down and reconstructed by the Public Works Department at the close of the year 1891-92, but, as the new roof was found to leak in several places during the following rainy season, some repairs were executed by the Public Works Department on a representation made by this office. The roof again leaked in August 1895, but though the matter was reported to the Public Works Department, no work of a substantial nature was done to prevent the leakage. During the heavy rains of December last, when the Huzur treasury was closed for the Christmas holidays, a large quantity of half-anna envelopes was spoilt owing to the rain water getting into the almirah in which they were secured and the Executive Engineer, who was again addressed on the subject, informs me in his letter No. 1659 M., dated 2nd ultimo (copy enclosed), that he will be happy to carry out the needful repairs provided that the sanction of Government to execute the work by his department is obtained—*vide* Government Order No. 1994 W., dated 13th August 1894 (copy enclosed). As the new roof was constructed by the Public Works Department and the subsequent repairs, which have proved to be of no avail, were also executed by the same department, I request that the Board will be pleased to move the Government to authorise that department to do the needful repairs now.

Resolution—Mis. No. 1748, dated 15th April 1896.

Submitted to Government with the request that orders may be issued in the Public Works Department for carrying out the necessary repairs at an early date.

Read the following paper:—

From A. H. Garrett Esquire, Superintending Engineer,

I Circle, to the Chief Engineer, Public Works Dept.,

of Dowlaishwaram, 2nd August 1894, No. 2996.H.

I have the honor to point out that in G.O. No. 892 W. of 18th March 1892, it was decided that the execution of ordinary repairs to civil buildings and the construction of petty or temporary buildings limited to Rs. 1000 in each case should be undertaken by the Department concerned except in the case of buildings specially placed in charge of executive engineers. It was also ruled that the estimates ^{for} of such works need not be prepared by this Department.

2. In G.O. No. 2806 W. of 7th October 1892 it is laid down that for original works not costing more than Rs. 500, both Civil and military, this Department may be called upon for the preparation of estimates without the previous approval of

of Government.

3. From G.O. No. 1228 W. of 18th May 1894

I infer that it is open to all Departments to
Call upon Public works Dept. officers to esti-
mate for and carry out Repairs to all buildings
Constructed on type designs.

4. As the above quoted Government orders
are somewhat antagonistic, I beg to be informed
whether I am right in assuming the present
orders to be:—

(1) That we are to carry out repairs on
estimates prepared by us to all buildings con-
structed on type designs irrespective of the
amount of such estimates;

(2) That G.O. No. 892 W. of 18th March 1892
only applies to buildings not constructed
on type plans and which are not specially
in charge of executive engineers.

(3) That we are not to prepare estimates
for other departments for original works costing
over Rs 500 without the previous approval of Govt.

Order of 13th August 1894, No. 1994 W. Public works.

The conclusion arrived at by the Superintending
Engineers in paragraph 4 of his letter are correct.

observed as regards questions relating to Port and Marine funds:—

(i) The estimates relating to Port and Marine funds will be passed in the
Marine Department (like those of the Buildings, Irrigation and Railway Branches are
in the Public Works Department) and transferred to the Financial Department for
sanction and communication to the Accountant-General.

(ii) The Marine Department will be at liberty to re-distribute the grants during
the course of the year and resume lapses and surrenders, as may be found necessary,
without the intervention of the Financial Department.
