Letter from the Executive Engineer, Nellore Division to the Superintending Engineer, Second Circle, No 486 SE. dated 10th March 1896.

With reference to your No 587 N.L. dated 17-2-96, I have the honor to report that I learn that Supervisor Mr. Whitbread put up the Shed for his use when in Camp on this Side and promised to pay rent to the land owner. When he was relieved of the charge of the Allur Section, the land-lord put in a claim for the rent and Mr. O'Connell, the then Executive Engineer, refused to pay the rent but entered into an agreement with him that the Site with the building would be handed over at the end of 5 years—

No 670 NL
16.3.96

Forwarded to the Chief Engineer Public Works Department, with reference to Memo No. 808 C. dated 11th February 1896.
