Ordered that a copy of the Proceedings regarding the area of — in His Highness the Nizam's territories, which might be submerged owing to the construction of the Muniyeru anicut in British territory, be forwarded to the Resident at Hyderabad.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

**Irrigation.**

READ—again the following papers :—

G.O. Nos. 645–46 I., dated 12th August 1895.
G.O. No. 246 I., dated 10th March 1896.

READ—also the following paper :—

From the Executive Engineer, Kistna Northern division, to the Superintending Engineer, II Circle, dated 15th January 1896, No. 558 S.E.

I have the honour to report that I met the Irrigation Engineer in charge of No. II Survey party in His Highness the Nizam's Public Works Department at Polampally on this date, and went over with him the ground which we have settled as fairly representing area, which might be, from time to time, submerged owing to the construction of the Muniyeru anicut.

This ground is the area not in the river bed which lies above the anicut between the contour levels + 44 and + 49·66, the crest of the anicut being assumed as + 46.

2. It has been agreed upon that a surveyor appointed by His Highness the Nizam's Engineer, should survey the ground and submit his survey for check by the Sub-divisional officer, Muniyeru sub-division; two copies of the survey will then be made and signed by the Surveyor, the Sub-division officer and myself, and then be forwarded for the signature of the Nizam's Engineer. That officer will return to me one copy and will submit the other to the Government of His Highness for settlement.

No. 2194 K.S.

Copy forwarded to the Chief Engineer for Irrigation for information, in continuation of No. 1112 K.S., dated 20th August 1895.

28th January 1896. (Signed) W. L. C. BADDELEY, Major, R.E.,
Superintending Engineer, II Circle.

From the officer in charge, Muniyeru sub-division, to the Executive Engineer, Kistna Northern division, dated 19th March 1896, No. 296 E.

With reference to your No. 2147 H., dated 17th March 1896, I have the honour to report that the checking of the survey and contour was first delayed, pending the receipt of the new levelling instrument and then pending the return of the Engineer student from leave.

It is almost impossible to check it properly unless a complete survey is taken, as there are no points of reference whatever on it—neither bench marks nor boundary stones. The only fixed points in the survey are the extremities of the anicut.

An accurate survey is now in progress, but it will be some time before it is complete. I shall have the contour checked as best I can at once.

---

No. 716 S.E.

Forwarded to the Superintending Engineer, II Circle, with reference to his endorsement No. 2667 K.S., dated 15th instant. The survey may be expected early in April.

Ex. Engr., Kistna Northern Dn.

21st March 1896.

---

No. 2792 K.S.

Forwarded to the Chief Engineer for Irrigation with reference to G.O. No. 246 I., dated 10th March 1896. It will be observed that the survey submitted for check has not been properly made, but every effort will be used to have the matter settled soon.

(Signed) H. T. KEELING,
*for* Suptg. Engr., II Circle.

31st March 1896.

---

From the Superintending Engineer, II Circle, dated 6th April 1896, No. 29 K.S.

---

No. 86 I.

Submitted to Government with reference to G.Os., Nos. 645 I. and 246 I., dated 12th August 1895 and 10th March 1896, respectively.

2. The area of land in His Highness the Nizam's territories, which might be submerged owing to the construction of the Muniyeru anicut, will be only about 23·78 acres, or 31·97 beegahs, as against 111 beegahs stated by His Highness' Government; and of these 23·78 acres, or 31·97 beegahs, the portion on the lanka to the west of the anicut, shown on the accompanying survey, is scrub jungle and unfit for cultivation. The loss of revenue cannot therefore, it is thought, be much. A copy of the survey, however, has, it is presumed, been submitted to His Highness' Government, and a further communication from it may therefore be awaited.

(Signed) R. R. E. DRAKE-BROCKMAN, Col., R.E.,
Chief Engineer for Irrigation.

To

THE RESIDENT AT HYDERABAD.

SIR,

With reference to your letter No. 1064, dated 18th February 1896, I am directed to forward a copy of the Proceedings of this Government, No. 395 I., dated 5th May 1896, regarding the area of land in His Highness the Nizam's territories, which might be submerged owing to the construction of the Muniyeru anicut in British territory, and to inform you that, under the circumstances stated in it, a further communication will be awaited from His Highness' Government in the matter of compensation that has to be paid to it.

I have the honour to be,
Sir,
Your most obedient servant,

Col., R.E.,
Secretary to Govt., P.W.D.,
Irrigation Branch.

OOTACAMUND,
