Estimate of Rs. 280 for investigating and levelling the proposed Tungabhadra side —, Commamur canal, Kistna delta system, sanctioned.

No. 448 I., 21st May 1896.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

READ—the following papers :—

From the Executive Engineer, Kistna Western Division, to the Superintending Engineer, II Circle, No. 513 S., dated 21st March 1896.

I have the honour to forward, herewith, an estimate amounting to Rs. 280 for investigating and levelling the proposed Tungabhadra side channel, Commamur canal, for your sanction at an early date.

ENCLOSURE.

REPORT to accompany the estimate for investigating and levelling the proposed Tungabhadra side channel, Commamur canal.

	RS.
Amount of estimate	280

This estimate provides for clearing line by removing Tumma trees, branches and plants, levelling, lock spitting and fixing B.M. stones along the line at every mile.

The line will be lock spitted by a cut of 1′ × 1′ and a rate of 1 anna per cubic yard is allowed in the estimate. The earth got by lock spitting will be carefully thrown about a yard away from the centre line.

The data sheet accompanying this estimate will show the details of rates allowed for fixing B.M. stones along the line.

As there is no proper bandy track close to the line to carry the B.M. stones and as bandies will have to go through the dry fields, a little high rate is allowed in the estimate.

(Signed) T. LAKSHMAIAH,
Delta Superintendent.

No. 68 K.W.

Forwarded to the Chief Engineer for Irrigation for favour of obtaining the sanction of Government from the balance available for unforeseen works of the Kistna delta system.
