No. 588 I., 16TH JULY 1896.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

**Irrigation.**
**Account.**

READ—the following paper :—

From the Executive Engineer, Madura Division, to the Superintending Engineer, VI Circle, dated 22nd June 1896, No. 158 S.E.

In continuation of letter No. 229 C.E. from the Superintendent of Works, No. I Periyár division, to the Chief Engineer, applying for sanction to write off losses of stock, I have the honour to forward a sale account showing further losses in sale, amounting to Rs. 123-8-2, and to request that the sanction of Government may be obtained to the amount being charged off to the main dam.

Executive Engineer.

L. I. Form No 1—1,000—27-11-95.

## NOTES.

**Reference to P. W. D. Code.**

*Vol. II, Chapter II, para. 80.*

1. This form will be used for all sales of stock or tools and plant, whether by auction or other agency, but materials issued to a contractor for works under execution by him, should not find a place in this document. In the case of private sales no deduction will be made on account of commission, nor will the auctioneer's receipt be filled up.

2. In the case of the sale of tools and plant, the column headed "Rate," "Book value," and "Loss," will be left blank.

3. When stock is sold at a loss, and the executive engineer has not been specially empowered to write off such losses, the circumstance should be reported to the superintending engineer for orders; in such report it should always be stated whether the value of the remaining articles in stock can be raised, without exceeding the proper market value of such articles, and whether there is a probability of these being used for works at the enhanced rates. The description and the book value of the articles, the rates of which it is proposed to raise the present rate and the proposed increase should be clearly noted.

4. If the stock, the sale of which has resulted in a loss, was purchased for specific works, the proper course would be to write off the loss to debit of the works concerned, and the practicability or otherwise of doing this should be noticed when reporting on the loss.
