Orders by the Government of

Dated the 5<sup>th</sup> February 1896.

P. W. Department.

Secy. to Government of

1896

S. B. Murray  
(Signature) Executive Engineer

No. , dated the 189

CHIEF ENGINEER  
NOTES IRRIGATION.

Reference to P. W. D. Code.

Chapter XV, section vi, para. 199.

1. This form should be used by the Executive Engineer or the local Government in any of the following cases:—

- When a grant, or an addition to an existing grant, is required for carrying on a sanctioned major work.
- When a grant for a work is found to be in excess of requirements, and it is proposed to resign it, either wholly or in part.
- When it is proposed to utilize the grant for one work upon some other.

2. Either of the columns for "Proposed new grant" or for "Proposed reduction," or both, may be used as required.

3. If it happens that the grant already allowed has been reduced, the entry in the column "Existing grant for the current year" would of course be the amount less such reduction.

4. In the case of Irrigation works, the entries in the column "Departmental and service head" should show distinctly whether the proposed re-appropriation is debitable to Capital or Revenue, and the entries in the column "Works" should be so arranged as to show the project to the Capital or Revenue account of which the charge is debitable, and the class of service to which the charge is debitable, thus:—

PROJECT.

(1).—HEAD WORKS—

- Land.
- Buildings.

In cases of Productive public works, the fact of their being so should be noted against the entries.

5. It being of the utmost importance that early intimation of possible lapses, or of excesses, in outlay on works should be communicated to the Government, a close watch should be maintained on the progress of all works, and this form employed the moment the facts are sufficiently known.

6. Applications for re-appropriations which require the sanction of the Government of India should be submitted by the local Government in duplicate; applications by Executive Engineers should be submitted through the Superintending Engineers of their Circles.

EXPLANATION OF NECESSITY FOR RE-APPROPRIATION.

a) As most of the tanks are full, the repairs to them cannot now be put in hand & consequently the full allotment cannot be spent before the end of the official year.

b) Not required - nothing to spend it on.
