Quarters

Supplemental estimate of Rs. 720 for constructing — for the Superintendent, Cheyar main channel, at Kovilur, North Arcot division, sanctioned.

No. 196 I., 21st February 1896.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

READ—the following paper:—

From J. HANNAN, Esq., Superintending Engineer, IV Circle, to the Chief Engineer for Irrigation, dated 1st February 1896, No. 21 I.

I have the honour to submit, for sanction of Government, a plan and an estimate, amounting to Rs. 580, for constructing quarters for the Superintendent of the Cheyar main channel at Kovilur, Wandiwash taluk, North Arcot district.

2. As the quarters are to be constructed on the Cheyar main channel along with the huts for lascars now under construction, this estimate may be treated as supplemental to those already sanctioned in G.O. No. 945 I., dated 11th November 1895.

ENCLOSURE.

REPORT to accompany an estimate for constructing quarters for the Superintendent, Cheyar Main channel, at Kovilur.

	RS.
Amount of estimate	580

The Superintendent has no proper quarters and lives at Valkadai, which is the only place within his beat where he can find a house.

Valkadai is at the very extremity of his range of duty, which extends to the eastern boundary of Wandiwash taluk, a distance of 20 miles radius in wet weather, when all cross-cuts are more or less cut off by water; so that it is difficult for him to visit the terminal tanks.

If he were stationed at Kovilur he would be centrally situated and have the three principal distributaries—Ayalavadi, Purusai and Tetray channels—under his immediate control. It is therefore proposed to provide quarters for him very near the two * lascars' huts to be built at the regulator No. 3 at the right flank of Kovilur tank, giving him an extra room for an office and store room.

* Sanctioned in G.O. No. 945 I. of 11th Nov. 1895.

The work to be done as per the standard specification of the Public Works Department.

(Signed) H. E. CLERK,
Executive Engineer.

ORDER—No. 196 I., dated 21st February 1896.

The following supplemental estimate is sanctioned :—

Irrigation.
43. Minor Works and Navigation.
Minor Works for which Capital and Revenue Accounts are kept.

Report to accompany an Estimate for Constructing quarters for the Superintendent Chyar Main Channel at Koniler. 28

Amount of Estimate Rs 580.

The Superintendent has no proper quarters and lives at Valkadai, which is the only place within his beat where he can find a house.

Valkadai is at the very extremity of his range of duty, which extends to the eastern boundary of Vandimark Taluq a distance of 20 miles radius in wet weather, when all cross cuts are more or less cut off by water; so that it is difficult for him to visit the terminal tanks.

If he were stationed at Koniler he would be centrally situated and have the three principal distributaries, Agacanadi, Perusai & Tetray channels, under his immediate control. It is therefore proposed to provide quarters for him very near the two Lascars huts to be built at the Regulator No 3, at the Right flank of Koniler Tank, giving him an extra room for an office and store room.

The work to be done as per the standard specifications of the P.W. department.
